**MARKING LINEN.**

What Fashion Decees Is Modish This Summer.

Fashions in marking linen change to some degree every season, so that letters from a half inch to four or five inches long are permissible, but a safe rule for the conservative needlewoman to follow is: For tablecloths, letters two inches long; napkins, letters three-quarters of an inch long; sheets, two inches long. Other articles are marked according to the taste of the housewife. The best method of marking linen is a problem which presents itself very often.

There are many ways to choose besides the plain embroidered initial, stamped either in script or block type. Perhaps the most attractive method of working large initials is to embroider the letters over fine net, cutting away the linen underneath so that when finished it will give a transparent effect that is unusual and beautiful.

The work is not difficult and can be done rapidly by one who has any experience in needlecraft. Sketch the letter selected in the proper position on the linens or you can transfer an ordinary marking letter in the usual manner with a warm iron. The letter is then lined or backed with fine net.

This is tacked securely into position, taking the thread firmly around all the points of the letter. Now cut away as much of the linen inside the outline as will make the letter effective, with the net alone showing through.

The edge of the linen is then embroidered to the net, either with a plain over and over stitch or a button-hole stitch. When the embroidery is all finished the net at the back is cut away as close as possible so that the reverse side of the article will be perfectly neat.

Woodwork and Furniture Must Now Match in Color.

Woodwork that matches in color the furniture of the living room or of the more pretentious apartment is a growing fancy. One of the most attractive living rooms just done over in a seashore bungalow has the woodwork painted green to match the stain of the comfortable, roomy chairs, the settee and the table. The walls are covered with a fabric paper in which green prevails with glints of yellow, and the chair and settee cushions are covered with cretonne printed in a yellow rose design that has a background of green foliage. A yellow porcelain lamp with a wicker shade lined with yellow silk and yellow porcelain flower holders of odd shape hanging against the walls contribute other sunny touches.

Another living room has woodwork and furniture in a soft gray. The walls are covered with paper printed in little chintz flower designs that have a suggestion of Chinese feeling, and two or three Japanese prints on the walls help out this oriental effect. The lamp has a Japanese porcelain vase and gray willow shade lined with old rose. The cushions of the chairs and settee are of linen, striped with gray and rose, and the matting covered floor is strewn with rag rugs in the same colors.

waistcoat of white satin with mechlin lace frills. This gown is one of the first fall importations from Paris.

**An Excellent Table Polish.**  
Mix well together a pint of cold drawn linseed oil, two ounces of spirits of wine and one ounce of spirits of turpentine. The night before the table is to be polished it should be washed over with tepid water and well dried. The next morning apply the above mixture sparingly with a piece of clean thin flannel and rub it off immediately with a clean linen rag, polishing it up with an old silk handkerchief. In these days, when polished tables are so popular, the above recipe is especially to be recommended.

**Serious Charges Against J. F. Sirois**

HARTLAND, N. B. Aug. 20—J. F. Sirois, arrested here on Sat. evening, was to stand trial yesterday at 2 o'clock before Mr. Hayward. The office of the J. P. was crowded, and many were looking in through the windows, so great was the interest. Lawyer Hartley, of Woodstock, was present on behalf of the prisoner. The evidence produced to prove that the prisoner had received money on false pretences in soliciting members for a Grange organization about to be formed was very weak, and it is still very doubtful if the prisoner will be sent up for trial. The case was adjourned till Monday. The evidence showed that the prisoner had represented himself as Dr. Sirois and at other times as Dr. Cleveland. At the close of the session the prisoner was again arrested by Provincial Constable A. R. Foster, on information laid by H. H. Martel, of Florenceville, on a charge of receiving money on false pretences. The prisoner is accused of representing himself as being a government official inspecting the eyes of the school children, etc. and on one occasion he sold glasses to Mrs. Merrithew, of Good's Corner, Carleton county. The lady at first refused to buy from him, as she had been in the habit of buying from Mr. H. H. Martel, of Florenceville. Mr. Sirois said that it would be all right, as Mr. Martel was employed by him. On this and other like occasions Mr. Sirois said he was Dr. Cleveland. The prisoner was taken before Justice Barnett and remanded to jail at Woodstock to await trial on Friday. Justice Barnett refused bail. The prisoner was taken to Woodstock on the five o'clock train by Constable A. R. Foster.

**THE ENERGY FOOD**

The Vim and Vitality One Gets From Oats

There is something in oats which creates spirit and energy. No other grain can bring results like them. Everyone knows what oats do for horses. They have the same effect on man.

An extract of oats is employed as a tonic. A diet of oats multiplies one's vitality. That's why energetic men—men of vim and spirit—are said to "feel their oats."

In Quaker Oats the finest oats—Canadian grown—are subjected to 62 siftings. Just the rich, plump grains are used. There is only ten pounds of Quaker Oats in a bushel.

These grains have the maximum of richness and energy. They are also the most delicious. To eat Quaker Oats once a day for a month will show to the limit what tonic effects, what bubbling vitality one can get from oatmeal. One never knows how good oat food is, or what it can do, until he tries Quaker Oats.
