ST. VITUS DANCE
IN YOUNG CHILDREN

A Striking Example of its Cure
By the Tonic Treatment

St. Vitus dance is the commonest form of nervous trouble that afflicts young children, because of the great demand made on the body by growth and development, and there is an added strain caused by study. It is when these demands become so great that they impoverish the blood, and the nerves fail to receive their full supply of nourishment, that the nervous debility which leads to St. Vitus dance begins.

The remarkable success of Dr. Williams' Pink Pills in curing St. Vitus dance should lead parents to give this great blood-building medicine to their children at the first signs of the approach of the disease. Pallor, listlessness, inattention, restlessness and irritability are all symptoms which early show that the blood and nerves are failing to meet the demands upon them. Here is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Mrs. J. W. Towns, Oshawa, Ont., says: "At the age of eleven my daughter was attacked with St. Vitus dance, and despite all we did for her the trouble grew rapidly worse. Soon she was scarcely able to walk, her body and limbs jerked and trembled so, and she was quite unable to feed herself. When she would lie down she would be unable to rise without assistance. As nothing was helping her I wrote a friend whose daughter had been similarly affected, and she advised the use of Dr. Williams' Pinks, Pills, which had cured her child. I at once got a supply of the Pills, and even the use of the first box seemed to show an improvement. By the time five boxes were used she was completely cured and has had no return of the trouble since." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Reflections of X

"I do not like that person. I may be wrong in this but I cannot seem to help it." This frequently heard remark often raises the question of whether it is actually possible to love certain individuals. Perhaps the difficulty of loving the seemingly unlovable, or even our enemies, is most commonly due to a misapprehension of who or what our enemy is; for if we judge him by his outward acts, in other words, if we fail to see beneath these externals, we must fail utterly fail to love him.

In the first place is the sin which causes our so-called enemy to appear repulsive truly a part of him? or is it not rather an enemy or error which for the time is controlling him? If so then he is the victim of that error and deserves our compassion and love. This view is well sustained in Paul's words in the seventh chapter of Romans: "Now if I do that I would not, it is no more I that do it, but sin that dwelleth in me."

If, however, our brother's sin which makes him seem our enemy makes us in turn his enemy, then are we not as much the slave of that sin as he? For while it conceals from his spiritual vision the divine image in us (which is all we possess worthy of love) it also hides from us the same image in him. We fail to see clearly in through it to him, even as he fails to see clearly out through it to us. Hence the misunderstanding and the enmity. The conclusion, therefore, is that if a certain sin in our fellow man proves an obstacle to our loving him, we have not overcome that sin in ourselves, since the sin that is fully overcome is no longer an obstacle to us either in ourselves or others.

Prin. Fred Cronkite, of Millville, spent part of the Sabbath with Rev. and Mrs. Ruthledge being the guest of C. S. Ingraham.

Ex. Warden Returns From
Manitoba

Ex-Warden A. B. Branscombe has returned to his first love, having just completed the purchase of the John Morton property at Penobscus. Mr. Branscombe was one of the most prosperous farmers of the Cornhill section and served for a number of years as a member of the county council and was warden for one term. Several years ago he went West and after listening to the stories of the wealth which grows on the streets in that direction, he sold his farm here and went to Manitoba. Now he is back in Kings and will in all probability remain here for the rest of his days. The West was not what it was represented to be and after he had been frozen several times last winter on the prairie, Mr. Branscombe commenced to think that the old East was not the worst place after all. The Record expressed its regret when Mr. Branscombe left here as it meant a good citizen taken from the county. It is with equal pleasure that his return to his native county is noted. And Mr. Branscombe is only one of the many who will later do likewise.—Kings County Record.

An Immense Log Jam on the
Miramichi

Chatham, N. B., June 9—A sight that has not been witnessed on the Miramichi for the past twenty years, the jamming of nearly the whole of the gigantic lumber cut of the South West Branch at a point a couple of miles above Millerton, has attracted a large number of sightseers to this place yesterday and today.

Between 60,000,000 and 70,000, 000 feet of logs are compressed within a distance of 3-4 of a mile, reaching from shore to shore and extending from the bottom of the river to a height in places twenty feet above the level of the water. It is a scene that will never be forgotten by those who have gazed upon it.

The value of the logs thus piled up in endless confusion approximates \$600,000 and may go above this figure. During the three days of the recent prolonged downpour all the logs in the southwest boom limits and those above it were swept down before the rising flood. A jam occurred at a point in the lower end of the boom limits and as each successive batch of logs was driven on the jam the earlier logs were forced lower and lower until they piled from the bed of the river to the top of the high-water mark.

When all the logs had run in the mass extended from shore to shore in a solid formation fully three-quarters of a mile in length and now that the water has subsided several feet the whole body of the logs make a bridge across the river about three or four feet above the water's level.

Dynamite will have to be used, it is said, to loose the logs and enable the boom company to sort them out and make them into rafts for the lumbermen. At present only a few sticks can be hauled out at a time, and the expense to the boom company to fulfill their part of the contract will be very heavy.

Five Marathons Players
Released

St. John June 10th. The scheduled day for weeding out players, and getting down to the \$1,000 per month salary limit was observed by the Marathon management, who this morning gave notices of release to Duffy, Barry, Pinkerton, and Cameron. With the dropping of these players and Berran in addition, who was released on Saturday, the Marathon Club now is down to twelve players: Winter, Tarbell, McGovern, Larry Connolly, Woods, Ganzell, Ramsey, Dolan, Fryor, Nelson, Riley and Lynch. The announcement of one or two other releases are expected within the next few days.

Another release which was effected this morning was that in which the services of Umpire Murray were dispensed with. Mr. Murray notified the club last evening that he intended leaving for Boston to-day where he proposed taking a civil service examination on Wednesday and in consequence he was informed that his services were no longer required. The departure of Murray leaves the league without an official umpire and the services of Seybold, the big league scout, who held the indicator

here Saturday were procured for the game between Fredericton and Woodstock to-day. Umpire Duffy was expected to returned from Boston to-day and an effort is being made to secure Doyle of Calais, as a successor to Murray.

That Frank Harrington who showed such fine form when he pitched for St. Peter's last season is now in big demand can be seen from the fact that both Fredericton and Woodstock are laying claim to him and a meeting of the league executive will in all probability soon have to be called to settle the question of ownership.

Berran, who was released by the Marathons on Saturday will not play with the Woodstock team, as announced, but will leave here to-morrow for Halifax, where he has been signed on to play with the Socials.

Jack Barry has been signed on to play with the Connorsville team in the Pennsylvania League, of which team J. B. Mack is manager.

Joe Tarbell's younger brother is expected to arrive in the city to-morrow and will be given a try-out with the local team.

Wm. T. Steal Left An Estate Of
\$85,000

London, June 10—The estate of Wm. T. Stead, the well-known newspaper writer, who was drowned in the Titanic disaster, was sworn to-day at the small total of \$85,000.

The hay crop this year promises to be one of the largest in years. The recent rains have thickened up the grass in a way that should enable it to defy any future drought that may result. Farmers are delighted with the outlook, so far as hay is concerned. On the other hand cropping has been delayed by the rains and is backward. With fine weather the next few days should be particularly busy ones in all sections of the county.
