## Household Hints

### JELLIED CHICKEN

Boil the chicken until the water is re-  
duced to a pint; pick the meat from the  
bones in fair sized pieces, removing all  
gristle, skin and bone. Skim the fat  
from the liquor, add an ounce of butter,  
a little pepper and salt, and half a pack-  
age of gelatine. Put the cut-up chicken  
into a mould, wet with cold water.  
When the gelatine has dissolved, pour  
the liquor hot over the chicken. Turn  
out when cold.

If you are annoyed with flies in your  
bedroom, soak a sponge in oil of lav-  
ender and tie it to the top of the bed.  
Flies hate the smell of lavender, and  
will not approach it.

To remove black kid gloves and  
slippers, mix together in equal quanti-  
ties the white of an egg, milk or cream,  
and black ink. Place the gloves on the  
hand and rub lightly with a piece of soft  
flannel.

For sealing wax for use on broken  
cans, or those not entirely air-tight,  
take two parts of beeswax and one of  
resin, melt together and stir well.

A hairpin can be used for seeding  
cherries. Take a new one, insert the  
doubled end into the stem end of a  
cherry, and draw out the stone. It can  
be done rapidly and without crushing  
the fruit.

### Buttons on a Tape

A very good idea is that contributed  
by a reader of the Woman's Home Com-  
panion, for fastening laundered waists.  
This is to make buttonholes in both hem-  
of the openings in waists, sew the but-  
tons on a tape or stout strip of cloth of  
the same length as the opening, and  
then button through both sets of button  
holes from the wrong side. When the  
waist is sent to the laundry, the buttons  
are easily removed, do not lose their  
lustre from repeated washings, and are  
not torn from the garment. In this way  
one set of buttons will serve for  
several waists.

### Many Uses for Kerosene

To clean the graniteware of smoke  
and discolorations, wet an old cloth with  
kerosene and wipe the smoke away.  
You will be surprised at the ease of the  
operation.

A correspondent of the Delineator  
gives more ways in which kerosene is  
valuable in the household.

To clean the paint where soiled fingers  
have smudged it around the door-knobs,  
use kerosene. If the kitchen stove looks  
rusty rub it well with kerosene. Cut  
the grease from your drains and sink  
by using kerosene on a brush.

When the oilcloth on the kitchen-table  
becomes stained, rub well with kerosene  
and wipe clean with fresh cloths.

Put some kerosene in your starch  
and see what an easy ironing-day you  
will have. If your irons are rough, wet  
a cloth with kerosene, and while the  
irons are very hot rub them on the  
cloth vigorously.

When a knife gets rusty, let it stand  
in kerosene a few hours and then thrust  
it into the ground several times, and  
see the rust disappear.

Wet a rag in kerosene and stuff it into  
the rat-hole in the shed and the rat will  
come no more to that hole.

Use kerosene to clean the oilcloth un-  
der the kitchen stove.

Before giving up neglected machinery  
and tools as hopeless, try kerosene to  
remove the rust from them.

### A Grim Suggestion From Chicago's Battle

(From the N. Y. Herald.)

The Tribune very wisely argues that  
if the presidential term was extended  
by constitutional amendment to six or  
eight years, with the provision that no  
president would be eligible for a second  
term, the country would be spared the  
disgusting struggle which was precipi-  
tated at Chicago.

We will go further than this in  
speaking of the benefits to be derived.

Such an amendment to the constitution  
would be the means of saving the coun-  
try from civil war, because sooner or  
later some ambitious and unscrupulous  
man would bring about a resort to force  
to continue his despotic power.

We are spared war this time because  
of the character of the third term candi-  
date. If he had been a cool and able  
man he might have managed so as to  
dominate the Republican national con-  
vention. If he had been courageous, and  
even had failed to dominate the conven-  
tion, he could have led a revolt in such  
a way as to plunge the country into  
armed resistance and blood-shed.

### Cooking Meat

In roasting meat the gravy may be  
retained in it by pricking the joint all  
over with a fork and rubbing in pepper  
and salt. Mutton and beef may be  
underdone, veal and pork must be well  
cooked. Young meat generally re-  
quires more cooking than old; thus lamb  
and veal must be more done than mutton  
and beef.

In boiling, put the meat, if fresh, in-  
to cold water, or if salt, into lukewarm.  
Simmer it very gently until done. A  
general rule is to allow a quarter of an  
hour to every pound of meat; but in this  
as in everything, judgement must be used  
according to the bone and shape of the  
joint, and according to taste of the  
eaters. All kinds of meat, fish, flesh,  
and fowl should be boiled very slowly,  
and the scum taken off just as the boil-  
ing commences. If meats are allowed  
to boil too fast they toughen, all their  
juices are extracted and only the fleshy  
fibre, without sweetness, is left. If  
they boil too long they are reduced to a  
jelly and their nourishing properties are  
transferred to the water in which they  
are boiled.

Broiling is the most nutritious method  
of cooking mutton and pork chops, beef,  
steaks, etc. Keep the meat turned of-  
ten, in order to retain the gravy. The  
chop or steak will be done when it feels  
firm to the fork; if not done it will be  
soft and flabby.

In frying, the quicker the meat is  
fried the more tender it is. According  
to what is to be fried put little or much  
fat in the pan; the fat must boil before  
putting the meat into it. In all cases  
the pan must be thoroughly hot before  
using.

### Soldering.

All economical woman will invest ten  
cents in solder—another trifle in a sold-  
ering iron, and ten cents in muriatic  
acid. As holes appear in pans, pails, etc.,  
heat your iron red hot, brush across the  
hole with a clean mucilage brush dipped  
in the muriatic acid, then proceed to  
melt the solder on the hole against the  
iron. A few experiments will result in  
success. Test your efforts with cold  
water and try again, if the article  
leaks.

"Are those boy's intentions of a be-  
licose nature?"

"No, mum; they're jest goin' to fight  
—Baltimore American.

### Falling Hair

Mrs. Jas. Harris of Wappella, Sask.,  
says:—

"I have found Parisian Sage to be the  
best scalp and hair tonic and dressing.  
I have ever used. My hair had been  
coming out in combs full and was very  
dry and brittle and the scalp was always  
itching and full of dandruff. I have  
used two bottles of Parisian Sage and  
it has stopped my hair from falling, the  
itching and dandruff have disappeared  
and my hair is fine and soft and glossy.  
I would not be without this fine Hair  
Tonic for many times the price."

For women, men, or children Parisian  
Sage is without any doubt the finest  
preparation for the hair. Daintily per-  
fumed, it is free from grease or sticki-  
ness and ought to be where every mem-  
ber of the family could use it daily.  
Large bottle 50 cents at all druggists or  
from the proprietors, The Giroux Mfg.  
Co., Fort Erie, Ont., postpaid. The  
girl with the Auburn hair is on every  
package. Sold and guaranteed by E.  
W. Mair.

### HOW MEN ENDURE

The Oat-Fed Man Can Outwork  
All the Rest

A concern which employs 2,000 woodcut-  
ters made scientific tests of food. The re-  
sult has been to prove oatmeal the great  
endurance food. Those workers now all  
start the day on a diet of oats alone.

No other grain supplies the energy of oats.  
You know the affect on horses. It is just  
the same on man. Any man can increase  
his endurance, his vim and vitality by eat-  
ing more oats.

That is why oatmeal is so immensely im-  
portant. In this food above all foods one  
should insist on the utmost. It is not a  
wise thing to serve common oatmeal.

The rich, plump grains used in Quaker  
Oats are selected by 62 siftings. Only ten  
pounds can be obtained from a bushel.  
But those choice grains have richness and  
flavor, and the maximum value as food.

Quaker Oats is the cream of the oats  
made delicious. Yet, despite its quality,  
the cost to you is but one-half cent per disk.  
Made in Canada.

## WOODSTOCK WOOD-WORKING COMPANY, LIMITED,

MANUFACTURERS OF

**Doors, Sashes, Blinds, School Desks,  
Sheathing, Flooring and House Finish of  
all kinds**

We employ a first-class Turner, and make a specialty of Church  
stair and Verandah work. Call and see our stock or write for prices  
before purchasing. All orders promptly attended to.

Just imported, a consignment of No. 1 White Wood.

Clapboards for sale.

Write them for circulars and prices.

### Less Of Them

Mrs. Gotham—"Don't you think those  
doughnuts are an improvement on the  
last ones I made?"

Mr. Gotham—"Oh, yes, dear; the  
holes are larger."

### Alleged Assassination Plot in Egypt

London, July 3.—A daily Mail special  
dispatch from Cairo states that the  
British adviser to the minister of the  
interior, the public prosecutor and the  
commandant of the Cairo police con-  
ferred with Lord Kitchener yesterday.

It is understood that the conference  
was in connection with the discovery of  
an alleged conspiracy to assassinate the  
premier, Lord Kitchener and the Khe-  
diva, who is now in London. Four per-  
sons have been arrested and the in-  
vestigation is being continued.

### NOTICE!

All those in arrears for Water and  
Sewer rates are hereby notified that  
in order to ensure a continuance of  
the service, it is necessary that the  
aid arrears be paid without further  
delay.

A. G. FIELDS, H. W. BOURNE,  
Supt. Collector.  
Woodstock, N. B., Dec. 14, 1911.

29tf

### ANNOUNCEMENT

Clarence Hamilton, Barber, wishes  
to announce that he is prepared to

### HONE RAZORS

for twenty-five cents. Mail orders  
ten cents extra for each razor. He will  
also repair razor handles. A splendid  
hairstonic, excellent for dandruff, it-  
ching calps and falling hair may be ob-  
tained from him at the hairdressing  
Establishment of Mrs. A. F. Winslow,  
Regent Street, Woodstock.
