A good number from this place patronized the United Baptist Picnic in Bath, July 10.

Mrs. H. D. Thompson, Florenceville, was a recent guest of Mrs. H. Scott McCain.

TO STRENGTHEN

WEAK NERVES

The Blood Supply Must be Made Rich, Red and Pure

When you build up the blood you strengthen the nerves, because the nerves get their food through the blood. You cannot reach the nerves with medicine except through the blood—this is a great medical truth few people realize. Nervous people are pale people. They are nervous because they are pale. The blood is so thin and watery that it cannot nourish the nerves. Starved nerves mean sciatica, neuralgia, nervous prostration, paralysis.

Dr. Williams' Pink Pills for Pale People are a real nerve tonic. They supply plenty of nourishing red blood to the exhausted nerves, thus enabling them to do the work nature intended they should do. This is the simple secret of the success of Dr. Williams' Pink Pills in curing nerve troubles. As to their value in cases of sciatica, Mrs. Job Palmer, Fenelon Falls, Ont., says: "For seven weeks I suffered untold agony from sciatica. I tried everything to ease the pain, but it steadily grew worse. Liniments had no more effect upon the trouble than water. Then the doctor told me to apply a hot iron to the afflicted part and I did so morning after morning, but my leg had become so numb with the pain that I could hardly feel the heat of the iron. I never expected to be able to walk again my leg was so drawn up. I had tried so many things that I had given up hope, yet at the urging of my brother I decided to try Dr. Williams' Pink Pills. To my surprise in two weeks I was able to stand on my feet with but little pain, and soon after I was able to walk about again. I continued taking the Pills for about two months, but some time before I discontinued their use my leg had become normal again, and the agony of the trouble had disappeared, and I have not since had a twinge of it. Words fail to express my gratitude for what the Pills did for me and I must strongly recommend them to all sufferers from sciatica."

The every day mission of Dr. Williams' Pink Pills is to cure cases like the above, and they will not disap-

point if given a fair trial. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ANDOVER.

Mrs. George Davis, who has been visiting her parents at Bass River returned home on Saturday.

Mr. Dave Hippel was in Andover for Sunday.

Contractors Are Having Troubles With Laborers

Monday July 15th.—Operations at two more places on their contract on the St. John Valley Railway from Fredericton to Rothesay will be commenced by James H. Corbett & Sons Co., Inc. this week.

To-day the first men to start on the work at Swan Creek, a short distance above Upper Gagetown, were taken there by the contractors, and the plant to start work at Oromocto is being loaded on barges at Gibson and will be towed down the river. There will be steam shovels at work both at Oromocto and Swan Creek, and another further down the river, probably at the point where the bridge will cross the St. John river.

The contractors continue to have trouble with their laborers. This morning a crew of Dutchmen on the Cor-

bett Company's work went on strike for bigger wages, and up to this afternoon they had not returned to work. The Quebec Contracting Co. have wired to the police along the C. P. R. line to be on the lookout for a gang of Poles, who jumped one of their subcontractors' jobs, went to Harvey and started to walk east along the tracks from there.

"The labor agents are the cause of most of the trouble with the laborers" declared one contractor to-day, "and the result will be that the contractors will all get together, stand by one another and pretty soon we will have things on a proper basis."

The dredging work on the river commenced to-day, adding materially to the activity hereabouts. The Tanta-wanta will do the dredging between the bridges, and started at 1 p. m. to-day. Provincial No 1 is to work above the highway bridge, and the Keta and the Asp will work below the railway bridge.

Several engineers employed on the dredging work got an impromptu bath at noon, when they fell in the water off some logs while getting ashore from where the dredge was working.

BATH

Elisha S. Phillips and family, of St. Thomas, have been visiting his sister, Mrs. Elijah F. Shaw, of this place. They left last week for their home after a very pleasant visit.

Miss Annie P. Jones intends leaving for the west in the near future where she is engaged to teach school at Jaffrey B. C. She will be much missed.

The U. B. Picnic passed off very pleasantly, on the 10th., and a good sum was realized.

H. Doucette was a recent caller in the village.

Mrs. Herb. Phillips and son Sperry left for Cranbrook, B. C., on the 10th.

Mrs. Alonzo Shaw lies very ill at her home and is not expected to recover.

Corporation Drive Nearly Finished

The last drive on the lowers corporation of the St. John river, which Messrs. Aiken, the contractors, expect to clean up the river, is now en route to the booms.

The last big drive was brought to within a mile or two of the boom limits Monday and then the men were sent back up the river again to assist in the final or "clean up" drive of the season. About 125 million feet of logs are now in the booms, according to the latest estimate, and it is believed that there will not be more than five million feet more logs to reach the booms and then the river will be clean.

Good progress is being made with the rafting work, although the haying season and the large amount of railway construction and other work now in progress makes it rather difficult to get men just now.

Fredericton Gleaner.

Great Britain's wheat fields cover two million acres.

Teacher—Don't say, "How it is raining." Pronounce your "g."

Little Girl—I know, teacher. Let me say it.

Teacher—Say it.

Little Girl—Gee! How it is raining!

—Judge.
