### Russian Crown Prince Injured

St. Petersburg, Oct. 23.—The condition of the Russian Crown Prince is causing the greatest anxiety at the imperial court and among the public. Although information is published in bulletins, the strictest silence is preserved in regard to the nature of the accident met with by the grand duke.

That it was a serious one, is indicated by the telegraphic summons sent to Dr. Rauchfuss, the court physician, who attends on the imperial children, to proceed at once to Spale, in Russian Poland.

### The Largest Dome

(London Chronicle.)

St. Sophia, at Constantinople, which time and earthquakes are threatening with ruin, has a dome of wonderful and striking effect. Yet it is not so large as it appears and in London we can beat it. Its diametrical measurement is 107 feet, and that is about the same as the dome of St. Paul's.

The dome of the British Museum however, is 140 feet in diameter, being only two feet short of the biggest dome in the world, the Roman Pantheon.

### Startling Decrease In Number of Cedar Ties Used In 1911

In 1910 eastern cedar composed 40 per cent of the total number of cross ties purchased in the Dominion; in 1911 it fell to 5.4 per cent, and to fifth place in importance of species used. Its place has been taken by jack pine, of which wood 40 per cent of the ties used in 1911 were made. Tamarack, with 19 per cent; Douglas fir with 14 per cent, and hemlock with 12 per cent are the three next in order.

The Forestry Branch of the Department of the Interior, which is authority for the above, states

in its bulletin on the subject that 13,683,770 ties, or 4,469,808 more than in 1910, were purchased in 1911. Railway development in the West is largely responsible for the increase.

The average price per tie is 39 cents. The United States furnished the most expensive kind,—Southern Pine at \$1.10 and white oak at 81 cents apiece. These latter were used largely in switch-boards.

In 1911 the sawn tie stood ahead of the hewn tie, both in quantity used and price, 70 per cent of the total being from the mill. The cost was 41 cents apiece, or 4 cents more than the hewn tie.

An interesting estimate of the amount of timber which could be saved by preservative treatment is given. Creosoting makes the virtual expense per tie about 93 cents as compared with 58 cents for the untreated tie. However as the length of life is extended by 10 years, the economy is two cents per tie per year. This would mean \$1,400,000 per annum, to say nothing of the vast quantity (estimated to be 350,000,000 feet board measure annually), which is being taken from the fast diminishing timber supplies.

### British Suffragists To Spare Human Life

London, Oct. 19.—A new paper, the Suffragette, has appeared. It is brought out by Miss Christobel Pankhurst, and signalizes her return to England after several months' exile in France and other foreign countries. The police have ignored her presence in London, though it is said there is still in existence the warrant issued when the Pankhursts and Lawrence were seized at the time of the window smashing and other violent suffragist outbreaks.

As defined by Miss Pankhurst's paper, militancy sanctioned by the Women's Union consists in defiance of legal enactments and in attacks upon property—the "sacred idol of property," as Mrs. Pankhurst expressed it Thursday night at the suffragist mass meeting in Albert Hall. The only limit to Christobel's doctrine of militancy, she announced, is that human life is to be respected.

The withdrawal of Mr. and Mrs. Pethick Lawrence from the ranks of the militants, which was made known at the Albert Hall mass meeting, is the second serious split in the ranks of the British suffragists. The first defection was in 1907, when Mrs. Despard and Miss Billington set up a rival league.

### Chief Crawford Advised Hyomei For Catarrh

J. Wilfred Brown of Water St., Campbellton, N. B., says: "Hyomei cured me of a severe case of catarrh and asthma after four years of suffering. I was constantly hacking and spitting and the catarrhal droppings that came from the head into my throat affected my stomach and I could not enjoy my meals. Chief Crawford having the same trouble advised me to try Hyomei. I did so and soon I was without a sign of the health racking disease that had troubled me for so long. I now recommend Hyomei to all catarrh sufferers."

Hyomei (pronounced High-o-mei) is guaranteed to cure asthma, bronchitis, croup, coughs and colds. A complete outfit consists of a hard rubber inhaler, a bottle of Hyomei and a unique dropper for filling the inhaler. Your druggists will supply you the outfit for \$1.00 (extra bottles 50c.) or postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Money back if it fails. Sold and guaranteed by E. W. Mair.

"We have severed our connection with the Women's Social Political Union," say the Lawrence's. "We are as militant as ever, but after six years' connection with the organization we find ourselves unable to approve the new militant policy outlined by Mrs. Pankhurst and Christobel, who refuse to modify their intentions."

The Lawrence's will resume control of the newspaper Votes for Women, which advocates full political equality between men and women.

"I incite this meeting to rebellion," the words uttered by Mrs. Pankhurst at Albert Hall, form the latest password of her followers.

### Berlin Housewives In wild

Riot

Berlin, Oct. 23.—Hundreds of Berlin housewives joined in a wild riot to-day because the butchers in the municipal markets refused to handle meat imported so as to reduce the cost of living.

The principal trouble occurred in the Wedding district, which is entirely inhabited by working people. Hundreds of women went to the municipal market there this morning, hoping to profit by the reduced prices settled by the Municipal Council. They found, however, that the butchers had agreed not to deal in meat imported by the municipality. They then stormed the butchers' stalls, seized all the native-raised meat and trampled in on the ground, and fought with the butchers who were trying to protect it from destruction. The police were forced to close the market to put an end to the riot.

Bank Pay **108 Cheques Will be Distributed Among Canadian Farmers. Will You Get One of Them?** **real.** No. 52041.

In addition to the twenty-seven first prizes of \$50 each, there will be eighty-one other cash prizes, ranging from \$10 to \$25 in our 1912 PRIZE CONTEST FOR FARMERS

This contest is along the same lines as the one which was so successful last year, except that there are three times as many prizes, and therefore three times as many chances for each contestant to win. Every farmer in Canada who uses "Canada" Cement is eligible to compete. The conditions are such that large and small users of cement have equal opportunities to win a \$50 prize.

The contest is divided into three classes, and there are first, second, third and fourth prizes (\$50, \$25, \$15 and \$10) in each class.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada" Cement on their farms in 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the best concrete work done with "Canada" Cement in their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send the best description, telling how any piece of concrete work was done with "Canada" Cement. (Entries for this prize must be accompanied by photographs of the work.)
