## Big Snow Storm Raging In Manitoba

Winnipeg, Oct. 28.—Thanksgiving day was notable in Manitoba for the first serious snow storm of the season, and which is likely to delay any threshing operations to finish off the crops. Up to midnight two inches had fallen at Winnipeg and at outside points three or more, with a likelihood of more, as a blizzard is probable.

### Measuring Nature.

Nature is not benevolent. Nature is just, gives pound for pound, measure for measure, makes no exceptions, never tempers her decrees with mercy or winks at any infringement of her laws. And in the end is not this best? Could the universe be run as a charity or a benevolent institution or as a poor-house of the most approved pattern? Without this merciless justice this irrefragable law, where would we have brought up long ago? It is a hard gospel, but rocks are hard, too, yet they form the foundations of the hills. Man introduces benevolence, mercy, altruism, into the world, and he pays the price in his added burdens, and he reaps his reward in the vast social and civic organizations that were impossible without these things.—John Burroughs in Century.

## YOUR RHEUMATISM

is probably due to uric acid in the system—the blood must be purified—the poisonous acid driven out and general health must be improved.

Thousands testify that **Scott's Emulsion** rids the system of poisonous acid by enriching the impoverished blood, and its concentrated nourishment is converted into red blood corpuscles which drive out rheumatism.

It is especially valuable to aged people.

## Becker Is Guilty of Rosenthal Murder

New York, Oct. 24.—Police Lieut. Charles Becker was found guilty Thursday night of murder in the first degree for instigating the death of Herman Rosenthal, the gambler. Becker was remanded for sentence to the Tombs by Justice Goff until Oct. 30.

Becker did not flinch when he heard the verdict, but Mrs. Becker, sitting outside the door of the courtroom, fell in a swoon.

John F. McIntyre, Becker's chief counsel, announced that he would take an immediate appeal.

The twelve jurors with solemn faces and measured steps, left the court room at 2.20 o'clock, and returned at 11.55 o'clock. A minute later the defendant was brought in from the Tombs. Justice Goff arrived at 11.58 and bowing low to counsel, took his seat. The jury roll was called. The clerk then asked the jurors if they had reached a verdict.

"We have," announced Foreman Skinner. The jury rose to its feet.

"We find the defendant guilty as charged in the indictment," Mr. Skinner said, slowly and evenly, looking squarely at Justice Goff.

"Do you find the defendant guilty of murder in the first degree as charged in the indictment?" asked the clerk.

"We do," the foreman replied.

The court then directed that the roll of the jurors be called for their individual verdicts.
