**Distressing Headaches**

Headaches are largely the result of disordered kidneys.  
 Mrs. Hall, 84 Flora Street, St. Flora St., St. Thomas, Ont., says "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to any house duties. My back was weak and caused me much suffering through the night. I had doctored for years, but all to no avail. Nothing benefited me

and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."  
 Booth's Kidney Pills are sold by all druggists, 50c box, under a guarantee to refund your money if they fail to relieve any disease

**Turkish Army Moves Forward**

Constantinople, Oct. 17—Hostilities were opened at half past two this morning by the Turkish troops at various points on the Bulgarian and Servian frontiers. The divisions of the Turkish army were ordered to take a simultaneous forward movement.

In giving the order for a general advance, the Ottoman war minister mentioned only that the movement was to be made along the frontiers of Bulgaria and Servia. There is a powerful Turkish army concentrated near the Greek frontier, but this has not yet been put into motion. The Ottoman government handed the Servian and Bulgarian ministers here their passports, and they will leave immediately.

London, Oct. 17—The Daily Mail's Constantinople correspondent says he is informed by the war ministry that a division of Montenegrins descending to the west of Lake Scutari, des-

**Mothers!**

**Preserve Your children's Hair**

Every mother should see that her children's hair is dressed with Parisian Sage, the wonderful hair restorer and germicide. A little neglect on your part now, may mean much loss of beauty when your girl grows up.

**Prevention Better Than Cure**

Parisian Sage is a rigidly guaranteed hair restorer and cures all scalp diseases, prevents hair from falling out and creates a rich luxuriant growth of hair, a glory to woman and the pride of man.

A pleasant hair dressing—ladies like it, and your druggist E. W. Mair guarantees every bottle that he sells at 50c, and stands ready to refund your money if it fails to do its work. By mail postpaid from Giroux Manufacturing Co., Fort Erie, Ont. See that the Girl with the Auburn Hair is on each package. Sold and guaranteed by E. W. Mair.

**A MOVING FOREST IN WALES**

(London Chronicle.)

A strange story of a moving wood near Llandaff was told at a meeting of the district council yesterday by one of the members (Mr. William Hopkins).

The wood, he said, was situated on a steep slope and was gradually moving toward the road at the foot. The wood is quite 400 yards long, and consists of stately elm trees. It had 'left its moorings,' he said, and was moving bodily toward Llanvithyn road. A cut had been left at the top, which was full of water.

Some of the trees were leaning down bodily, while others were leaning in all directions. The wood had been moving now eight or nine days, and it was some little distance from the road but was in danger of coming on to it.

**Militant Suffragists Agree To Disagree**

New York, Oct. 17.—A cable from London says: "A suffragette cleavage is revealed by the announcement that Mr. and Mrs. Pethick Lawrence, who have a vaiaon with which Mrs. Pankhurst and the Misses Pankhurst are identified, have broken away from the organization. The cause has not yet been revealed, but Mrs. Pankhurst, who made this announcement, says that Pethick Lawrence's association with the controlling organization has ceased owing to divergent views concerning its policy. The suffragette organ, Votes for Women, remains in the hands of Mr. and Mrs. Lawrence, but the women's social and political union will bring out another paper entitled The Suffragette, with Mrs. Christabel Pankhurst as editor.

troyed on Tuesday all the villages between the land and the sea, massacring women and children, but this Turkish report is not confirmed from other sources.

Loudon, Oct. 16—The Montenegrins have eucaptrd Berana after ten days' fighting. Seven hundred Turkish soldiers were made prisoners. Fourteen guns were taken and large quantities of ammunition and provisions.

General Martinovitch, after a short engagement today, occupied the fortified section of Mount Mouritch, opposite Tarabosch.

The Balkan fighting remains limited to the Montenegrin border, and neither Bulgaria nor Servia has made any forward movement.

Athens, Greece, Oct. 17—A daring feat was accomplished this morning by the commanders of the Greek gunboats A and D. At 2 o'clock they made a dash to force the Turkish blockade at the narrow entrance to the Gulf of Arta, one side of which is Turkish and the other Greek. They were observed from the Turkish fort at Prevousa which dominates the entrance, and a heavy fire was directed on them which they returned. They succeeded in fighting their way through and at half past four reached the Greek town of Vonitza on the southern shore of the bay, with very little damage.

Constantinople, Oct. 17—The formal declaration of war against Servia and Bulgaria was published by the Turkish government today.

Sofia, Oct. 17—King Ferdinand, with staff, has left for the headquarters of the Bulgarian army near the Turkish frontier. It is believed he will issue a proclamation to the nation or make a formal declaration of war from that position.

Athens, Oct. 17—The Turkish minister to Greece left Athens to-day without complying with the formalities usual in such cases and without asking for his passports.

Algiers, Oct. 17—An escort of four Greek destroyers is conveying the Greek steamer Macedonia with a number of Greeks Bulgarians and Servians on board, who are returning from America, to join their regiments to fight against the Turks. She carries also a large cargo of ammunition.

The Macedonia arrived here last night from New York and found the four destroyers recently purchased by Greece in England, waiting to accompany her on her voyage.

Athens, Greece, Oct. 17—Fighting between the Greek army and the Turkish forces stationed along the frontier began early to-day.

**THEODORE ROOSEVELT SHOT**

Milwaukee, Wis., Oct. 14—Theodore Roosevelt was shot and slightly wounded as he was leaving the Gilpatrick Hotel for the auditorium to make a speech. The Colonel went on to the hotel and began his speech after he had seen the assailant arrested and taken to the police station.

Colonel Roosevelt felt no pain at the time the shot was fired, and was not aware that he was shot until he was on the way to the auditorium.

A superficial examination of the wound made when he reached the auditorium by three physicians showed that he was in no immediate danger.

**\$100 Reward \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

**Forty-Five Men Perished In Mine**

Hobart, Tasmania, Oct. 18.—It is now believed that forty-five miners perished in the North Mount Lyell mine near here, which caught fire last Saturday. Rescuers are still trying to reach the lower levels, but as the men imprisoned there have been without food, water and fresh air since the fire broke out, little hope for their safety is entertained.

The flames now are confined to the lower portion of the mine. The fifty-one workers imprisoned on the 1,000 foot level, have been rescued. Mining men state that the Mount Lyell fire is the worst disaster in Australian mining history.

**Garden Freshness of "SALADA"**

fresh and fragrant from the gardens of the finest tea-producing country in the world. Ask your grocer for a package to-day—you'll like it.

There is an unpleasant tradition that when all the niches in Canterbury cathedral are filled with statues of English kings and queens the throne of England will fall. There are four vacant niches. It is rumored that Queen Victoria refused to have her statue erected in the cathedral because she was unwilling to reduce the margin. Some are wondering whether King George will be daunted by the superstition.

**Colonel Expects to Quit Hospital Monday.**

Chicago, Oct. 18—The first vivid impressions of Colonel Roosevelt on the night on which he was shot in Milwaukee was related tonight from the colonel's own lips. The colonel said that on Monday he expected to leave for Oyster Bay and hoped to be back in the campaign making speeches again week after next. "I feel as lively as a bulldog," said the colonel.

**Persian Capital Menaced By Force Under Shah's Son**

Teheran, Persia, Oct. 18—The Persian capital is to-day menaced by a force of 800 horsemen under the command of Salar-Ed-Dowleh the rebellious son of the reigning Shah. He arrived close to the city today and it is believed the people sympathize with him, as they are dissatisfied with the present government. The national council is hastily collecting cannons and troops for the defense of the city.

**MONSTER WHALES.**

**A Dozen Men Might Stand Upright In the Blue's Big Mouth.**

Specimens of the blue or sulphur bottom whale weighing seventy-five tons and measuring eighty-seven feet have been known. The mouth is sufficiently large to permit ten or twelve men to stand upright in it, but the throat measures only about nine inches in diameter.

The "finback," closely related to the blue whale, has been called the "greyhound of the sea," for its long, slender body is built on the lines of a racing yacht, and the animal can equal the speed of the fastest steamship.

The "humpback" is the most interesting of our large whales, because of the fact that its habits are more easily studied than are those of other members of the family.

But most extraordinary of all is the square nosed sperm whale. Instead of having plates of baleen, this whale carries a row of twenty to twenty-five heavy teeth on each side of the lower jaw. These fit into sockets in the roof of the mouth and assist in holding the giant squid and cuttlefish on which the enormous animal feeds. The squid seldom gets away from the warm currents; hence the sperm usually remains in the tropics and in the gulf of Japan streams.—London Family Herald.

**VALUE OF A PASSPORT.**

**The Odd Experience of a Stranded Tourist In Paris.**

"Until you go broke in a foreign country, you never can realize just what a useful thing a passport is," said the returned traveler. "It not only enables you to get into a country; it also helps you to get out, sometimes in a most unexpected way. Everybody abroad thinks well of a passport, but nobody sets quite so high a value on it as a pawnbroker. "Owing to a delayed remittance I

had occasion to visit one of those men in Paris. The article I offered for security was worth many times the loan requested, but he refused an advance on account of unsatisfactory references. My temporary address in Paris and my permanent address in Washington were not sufficient guarantee of my honesty.

"Just as the case assumed a desperate complexion the broker suggested a solution of the difficulty.

"Have you a passport?" he asked. "I had, at the hotel. "Fetch it," he said. "If that looks all right, I'll let you have the money." "Up to that time my passport had been a useless piece of luggage; then I blessed the foresight that had bidden me secure it."—Washington Star.

**His Conquest.**

He was a simon pure, edition de luxe lady killer. The girl in the seat opposite him was easy to look at. Further, she looked demure and shy and impressionable. It wasn't long before he had things going right—he thought. He had raised the window for her and readjusted the blind; he had fished her bag from under the seat, where the porter had shoved it; he had placed her pillow in a better position for her; he had handed her a magazine; he had looked after her comfort in every way he possibly could, and she had been very sweet about it besides. He thought he was coming along splendidly. She started to get off the train before he expected her to leave, but he carried her luggage to the platform for her. Then she turned and handed him a nickel with a sweet smile and the remark, "I think it is so nice of the railway company to furnish an assistant porter."—Argonaut.

**How the Katydid Sings.**

Everybody is familiar with the rasping notes known as the katydid's "song." It is the male only that is capable of emitting the well known sounds, and he does it in a most peculiar manner. His "vocal organs" are at the base of his wings and consist of two flat excrescences of thin, dry membrane. It is the rubbing of these two membranous plates together which produces the "song." If your shoulder blades were so loosely put together that one could be slipped under the other and the underside of one and the upper side of the other were so rough that the operation of slipping them past each other would cause a rasping sound you could imitate the katydid's musical efforts very nicely.

**Setting Her Right.**

A newly married woman made a pie for dinner. "I am afraid," the bride said, "that I left something out, and that it's not very good."

The husband tried it and said: "There is nothing you could leave out that would make a pie taste like that. It's something you've put in."—Argonaut.

**Matthew Arnold.**

"Matthew Arnold had a curious way of telling little stories against himself," writes Sir H. W. Lucy in the Cornhill.

"Talking about Mrs. Arnold, he said: "Ah, you should know my wife. She has all my charm of manner and none of my conceit."

**Badly Smitten.**

"I wish there were ten days in the week," sighed Gladys. "Why?" asked Grace. "Jack could call oftener then."—London Answers.

When our hatred is too bitter it places us below those whom we hate.—La Rochefoucauld.

**Progress at Panama.**

At the close of the month of September the halfway mark had been reached in the huge job of excavation at the Panama canal. By that time 87,172,058 cubic yards, or about one-half of the total excavation, had been removed. The grand total for September was 2,836,385 cubic yards, which is 1,043,952 cubic yards less than the highest record, which was made in March, 1900.
