You Can Never Tell.

(Milwaukee Sentinel) He rocked the boot one summer day, The boat refuse to tip, He reached old age and passed away, A victim of the pip.

A fool there was who gazed into The muzzle of a gun, His age was then but twenty-two-

He died at eighty-one. Herskated where the ice was weak, When he was but a lad.

And now he is an aged geek, And grown men call him "Dad." Of dynamite he had a store,

He placed it by the fire; But that was twenty years before He played a golden lyre.

And then there was a careful guy, Whose ways were wise and prim, And from a cloudless summer sky An airship fell on him.

Wanted His Money's Worth.

Mr. McNaughton, millionaire lumber merchant, gazed at the check which had just been handed him with a solemn face.

"Dosen't it look big enough? asked the man who had made out the check. "Oh, its big enough," said MacNaugh-

ton. "but there's nothing looks very big these days. I'm minded of the first days I spent in this country, -no matter how many years ago, - that was when money booked big to me.

"When I landed, I went with a friend that had been over here six months to the house where he boarded and lodged, and, well, too, for a sum that appears of extreme nervousness and excitability. redic'lous to me now, as I look back Each of these complaints exists because to it.

"When we were in the midst o' the dinner that was my first meal, Sandy McLaughlin put his mouth close to my ear, and whispered to me.

"Put butter on your pie, Augus. Three dollars a week is nae joke. "An I can tell ye I put a good bit on!"

The Meduxnekeag has not as yet frezen over but it is expected that it will within a few days. In the meantime it would be wise to keep the boys at home. It is better to be safe than sorry. In 1816 there was no summer at all it may be the same this year. But cheer up-the thermometer has not reached 40 below.

The wet weather of the present season has its compensations after all. While in May, 1911, there were 61 forest fires in Maine, burning over an area of 53,079 acres, in May just passed there were only three such fire of sufficient size to be reported to the department at Augusta in the entire state and two of these were in Washington county, covering two acres.—Aroostook Pioneer.

A DAILY THOUGHT

Lord, enlighten us to see the beam that is in our own eye, and blind us to the mote that is in our brothers. Let us all carry and measure with the false balances of love, and be in our own eyes and in all conjunctions the most guilty. Help us at the same time with the grace of courage, that we be not cast down. When we sit commenting amid the ruins of our happiness or our integrity, touch it being the occassion of her birth us with the fire from the altar, that we anniversary. Mrs. Wiggins was quite be up and doing to rebuild our city; in the name and by the method of Him in whose words of prayer we now conclude.

SEVERE NEURALGIA Cured Through the Use of Dr. Williams' Pink Pills

There is an excellent reason way Dr.

Williams' Pink Pills have cured the most sewere cases of neuralgia, sciatica and others complaints in the group known as disorders of the nerves. This group also includes St. Vitus dance, partial paralysis and the common state there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints. The reason why Dr. Williams' Pink Pills cure nervous disorders is, that they restore weak, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are toned when the blood is renewed. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble. The following is an instance. Miss Annie Jones, London, Ont., says:-"For over a year I was an intense sufferer from neuralgia, which located in my face and head. The pain time. at times was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. As time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had not known for years, and only those who have suffered from neuralgic pains can realize what a blessing the Pills have been to me."

If you are suffering from any blood or to-day with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

YOUNG'S COVE ROAD

A very fine lifesized portrait of Mrs. Stone Wiggins left as a bequest by the late Prof. E. Stone Wiggins to the natural History Society of New Brunswick, was presented at their annual meeting on the 4th., inst. by William MacIntosh, curator of the society. This portrait was painted by H. Clarke, a Canadian artist and presented to Prof. Wiggins by Lady MacPherson wife of Sir David MacPherson and other ladies of note in Canada at the time of the passage of the marriage bill through the Canadian Senate, the passage of which bill having been secured through Parliament by "Gunhilda," Mrs. E. Stone Wiggins the author of the celebrated "Gunhilda' Letters." This occurred in the early eighties. Sir David MacPherson was the Speaker of the Senate at Ottawa at the time. There are also Liberal Senators still occupying seats who were present on that memorable occassion.

Rainfall Nearly Equals That of All June of Last Year

From June 1 until today, the 17th, the total rainfall has been three and one-tenth inches. The total rainfall for all June last year was three and twotenth inches, and if this rain storm continues, last year's record will be beaten easily.

Since last night three-tenths o an inch of rain had fallen. According to the probabilities, however, we are going to have a little better weather in the next few days. The probabilities say clearing weather with north and north westerly winds. The almanac states that the wet weather is to stop today, so with all these promises, hope is not yet lost for some fine weather.

Waste Of Opportunities In Maritime Provinces

British Manufacturer's Impressions Ottawa, June 17-The British manufacturers arrived here yesterday, and are being entertained by members of the government. "One thing that impresses me with the general run of Canadians I have met," said Mr. James Deuchar, president of James Deuchar, L'd., a Scottish corporation capitalised at \$4,000,000. "is that Canada does not require brains. What is needed is capital. Canadians have impressed me as being an exceptionally brainy people." Speaking of farming in the Maritime Provinces, he said: 'I never saw such a waste of opportunity. The farmers do not get all they should out of the land. I fancy one reason is that the farms are so small, most of them being between 100 and 200 acres with the farmer necessarily having a limited capital. There are only one or two small holdings of this kind on my land and I have more trouble with them than all the rest put together. In the east of Canada I have gained the impression

that the farmers do not make the most of their opportunities at all events. There is very little scientific farming, excepting at the experimental stations and agricultural colleges."

REVISING HISTORY.

Readers, who remember the financial panic in New York in 1907, when some banks went down and some financiers were crippled, will recall the praise that was lavished all over America on Mr. J. Pierpoot Morgan, because, it was believed, he had taken twenty-five million dollars from his strong box and loaned it to the banks in order to end the crisis. Mr. Morgan's public spirit, and patriotism were lauded, and he wa hailed as the saviour of his country. Disclosures before a congressional committee, referred to in Friday's Globe. are putting an entirely new face on this historic transaction. It has been alleged before this committee, aud some proof of the statement offered, that Mr. Morgan did not loan the money at all, that he simply used his influence with the United States treasury, and that the treasury advanced the millions to the banks. The banks paid no interest on the money thus advanced, and charged, enormous rates for loans. The result was, however, that hundreds of members of the stock exchange were saved from ruin, and the panic was brought to an end. If Mr. Morgan did not supply the money it is to his credit that he used his influence so efficiently that order was brought out of chaos in the world of finance.
