INVITING SICKNESS

People Whose Blood Supply is Scanty are in Danger of a Breakdown

Thin or impure blood is an invitation to sickness. The blood is at work day and night to maintain the health and any lack of strength or purity in the blood is a weakness in the defence against diseases. Anaemia is the doctor's name for lack of blood. Its surest symptom is palor. Anaemia does not confine itself to age or sex, though it is particularly common to young girls between the ages of 14 and 17, when nature makes peculiar demand upon the blood supply. The same lack of blood, however, prevents full recovery after la grippe, fevers, malaria, and operations, is present in old age, and in persons who have been under unusual mental or physical strain. In all cases of bloodlessness Dr. Williams' Pink Pills are the best medicine known to medical science. They actually make new pure blood, which brings with it a healthy appetite and new strength and vitality. Mrs. George Roy, Clair, Sask., says: 'I have tested the value of Dr. Williams' Pink Pills time and again when a poor condition of the blood might have led to more serious trouble. I am a woman of forty and as occasion required I have used the Pills off and on since girlhood. I have proved their value in the ailments that afflict my sex, and I have never known them to fail. I also gave them to my son for nerve trou-

ble which we thought would result in St. Vitus dance, but the use of the Pills prevented this and made him well and strong. I do not know any better investment than to keep half a dozen boxes of Dr. Williams' Pink Pills in the house, as they will save more expensive doctor's bills.'

You can get Dr. Williams' Pink Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
