

Sure Signs Of Kidney Trouble

If your back is constantly aching and if you experience dull shooting pains, your kidneys are out of order. If your urine is thick and cloudy or your passages frequent scanty and painful, your kidneys and bladder are out of order. Neglect quickly brings on rheumatism, diabetes, lumbago sciatica and etc.,

Mrs. John Wagner of 110 Hollis St., Halifax, N. S., says: "Dull shooting pains would catch me across the small part of my back and extend into my shoulders and neck, often causing me to suffer with severe headaches and spells of dizziness. Spots would dance before my eyes and everything would turn black. I would fall to the floor and be unable to get up again without assistance. A friend told me of Booth's Kidney Pills and I began their use. The first box gave me relief and I am now well and strong."

All druggists sell Booth's kidney pills 50c. a box with a guarantee to relieve or your money back. They are the world's greatest specific for kidney and bladder trouble. Postpaid from the proprietors, The R. T. Booth Co. Ltd. Fort Erie. Sold and guaranteed by E. W. Mair.

Royal Academician (displaying a picture of a convict-looking yokel working with a spade)—The critics accuse me of repeating myself year after year; isn't it absurd? Last year, you remember, the man had whiskers, and he was digging with a fork!—Bystander.

"Here, Tammy," said the busy merchant, handing his office boy some silver, "run out and get me 50 postcards. Be quick about it." The boy went, but did not return. Time passed; 4 o'clock came but the boy did not. At last, on the stroke of 5, the lad entered, with the confident air of one who had done his duty nobly. "Goodness, Tommy, you've been a long time getting those cards!" exclaimed the merchant—only he didn't say "goodness!" "Well, sir," explained the lad, "I had to pick 'em out. You wanted pretty ones, didn't you?"—Answers.

GETS 'EM EVERY TIME

Richeson Buried In Family Plot In Virginia

Amherst, Va., May 24—The body of Clarence V. T. Richeson was buried in the Richeson family burying ground at Amherst Court House at 5 o'clock last evening.

No burial service was held. Only the family and a few friends stood around the opened grave with bare heads as the coffin was lowered to its last resting place.

Find Richeson's Brain Normal

Boston, May 21—The body of Clarence V. T. Richeson, who was executed in the electric chair at the state prison in Charlestown early today for the murder of Avis Linnell, lay at the North Grove street morgue tonight.

Earlier in the day Dr. George B. McGloth, medical examiner of Suffolk county, performed the autopsy required by law in the case of executed murderers and declared that Richeson's brain was normal.

Douglas Richeson, of Chicago, brother of the dead man, was undecided regarding the disposition of the body, and the matter will be settled tomorrow, it is expected, at a conference in the office of Attorney William A. Morse, who was Richeson's counsel.

It was the understanding, previous to the execution, that the body of the former Baptist minister, would be taken to his boyhood home in Virginia for burial, but circumstances arose today which prevented the plan from being carried out.

Funeral of King Frederick

Roskilde, May 24—The burial of the late King Frederick VIII in the castle chapel where practically all the Danish kings are buried was an imposing ceremony today. Many members of royal families from other nations were present while the route of the funeral procession was crowded by thousands with bare heads.

FARM AND FIELD

AN ACRE TO SIXTEEN PIGS

Can Hogs Be Raised Cheaper With or Without Pasture?

Can hogs be raised cheaper with or without pasture? There is only one answer to this question. Most assuredly, by using a pasture. In planning the hog pasture each individual must be governed by his circumstances and the conditions on his farm. If one is situated in the timber or bush districts it is well to fence a field and depend upon the natural vegetation of grass, weeds, vetches, wild pea vine and roots, which grow upon all bush land. On the open prairie, where one is using every available acre for grain, a field should be fenced and sown to mixed barley and rape for pasture—an acre to every sixteen growing pigs.

It is best to divide the pasture and keep your hogs in each half week about. By using woven wire fencing, the field can be easily moved each year, and by doing this they will manure the field as well as gather their own feed. It is well to keep a field of parsnips for late fall and spring pasture, allowing the hogs to root up and gather the whole plant.

Along with the pasture hogs should receive a small amount of grain, plenty of pure water and some sort of shade. If for any cause one is unable to fence a pasture, he should by all means grow some green stuff to cut and feed in the pens—all the hogs will eat.

Another good practice is to grow a supply of green feed, such as alfalfa and pea vines; also roots, such as turnips, sugar beets and parsnips, to feed during the winter. This will balance up the grain ration and keep the hogs thrifty and growing.

BEWARE OF NEW WEEDS

"Ragwort" Caused Death of Hundreds of Cattle

In Pictou Co., N.S., the death of hundreds of cattle has been caused in past years by a disease brought on by eating "Stinking Willie" or "Ragwort," a weed that when first found in Nova Scotia was not regarded as serious. All of the "Stinking Willie" in Pictou and adjoining counties has been traced to a single plant that grew on the shores of Northumberland Strait, probably coming there from drift wood. Had that one weed been plucked by some observing farmer thousands of dollars would have been saved to the farmers of Pictou county.

We must recognize new weeds as a menace. Many of our worst weeds when first introduced were not regarded as serious because they were so few in number. On this point Mr. Glendinning recently in conversation remarked: "I take even greater precautions to keep the farm free from new weeds than in fighting the old ones already there. In the old weeds, we know what we have to cope with and we do with them the best we can. The new weeds may or may not become serious, but we are on the safe side and may save ourselves much future trouble by getting rid of them."

It is to our interest to view with suspicion any new weed that appears. We need to study the weed problem and keep clear of new weeds? Any weeds that may appear, and we know not their nature, should be sent to either the Dominion or Provincial Department of Agriculture, there to be identified for us. We are well advised to take no chances with any new weeds, since often a weed that has existed for years in one district without becoming a serious pest may soon be numbered with the most injurious in another section.

The wives of two Sikhs who were detained at Vancouver for deportation will be allowed to remain in Canada.

LAME BACK

Just the Sort of Case That Proves to the World That the Best Liniment Ever Made Is

NERVILINE

When it comes to determining the real merit of a medicine, no weight of evidence is more convincing than the straightforward statement of some reliable and well-known person that has been cured. For this reason we print the verbatim statement of Juan E. Powell, written from his home in Carleton: "I am a strong, powerful man, six feet tall, and weigh nearly two hundred. I have been accustomed all my life to lift great weight, but one day I overdid it and wrenched my back badly. Every tendon and muscle was sore. To stoop or bend was agony. I had a whole bottle of Nerviline rubbed on in one day, and by night I was well again. I know of no liniment possessing one-half the penetration and pain-subduing properties of Nerviline. I urge its use strongly as an invaluable liniment and household cure for all minor ailments, such as strains, sprains, swellings, neuralgia, sciatica, lumbago, rheumatism, and muscular pain."

No better medicine for curing pain was ever put in a bottle than Nerviline—over one million bottles used every year—better try it yourself. 25c or five for \$1. At all dealers.

World's Greatest Liner Was Launched Friday

German Ship Imperator Breaks All Records

COMPARATIVE TABLE OF OCEAN LINERS.

Name.	Date.	Length. Feet	Tonnage.
Great Eastern	1858	680	27,000
Britannic	1874	455	8,500
Umbria	1885	500	10,500
Campania	1893	600	18,000
Kaiser Wilhelm			
der Grosse	1899	625	20,800
Deutschland	1900	662	23,600
Kaiser Wil-			
helm II	1903	678	26,000
Adriatic	1907	725	38,000
Lusitania	1907	790	45,000
Olympic	1910	882	45,324
Imperator	1912	900	50,000

Berlin, May 23.—A party of distinguished engineers, newspaper representatives and others left here to-day for Stettin, the guests of the Hamburg-American Steamship Company, to attend the launching of the company's new liner Imperator. The new vessel, which is larger than any craft afloat, is to be launched to-morrow from the yards of the Vulcan Shipbuilding Company on the Elbe. The ship will probably be ready to make her first trans-Atlantic voyage early next winter.

The Imperator is designed to eclipse all previous records of ocean grayhounds for size and splendor. She is to be about 20 feet longer than the Olympic and her sister ship, the ill-fated Titanic, and will have a displacement exceeding those vessels by about 5,000 tons. The length of the Imperator over all will be 900 feet, and when complete and fully laden she will displace about 500,000 tons. There will be eleven decks on the new liner, and she will be fitted out in the most luxurious style.

The deck of the new liner will have the beam of Broadway, New York's leading thoroughfare, at its widest part—99 feet. Nine of her eleven decks will be above the water line, equal to the height of the largest apartment houses. If the Imperator were set up on end beside the Cathedral of Cologne, the famous tower would come only to the second funnel of the steamship. Nearly 2,000,000 feet of Oregon fir were used for her decks one.

With so much space available, features are possible that have never before been introduced. There will be a promenade deck nearly a quarter of a mile long, a great entertainment hall, two stories high, holding 700 guests; a conversation room, a smoking room, a ladies' hall, a winter garden, a Ritz-Carlton restaurant, a reproduction of ancient Roman baths in bronze, marble and ivory, rathskeller, womens salons in different decorative periods and national styles, "universal" telephones, the biggest gymnasium yet, running track of tan bark, squash court, submarine signals and powerful air pumps to waft below currents of the purest air and afforded equable temperature throughout.

The Imperator will, when completed, not only be the largest vessel in the world, but will in addition insure her passengers against the terrors of seasickness. This happy condition is to be brought about by the installation of the Frahn decks on board the new "Goliath of the Oceans," a device that reduces the motion of a ship to a minimum. It has been tried out by the Hamburg-American Line on a small ship, and so it is averred, has reduced the oscillation in heavy weather from 63 to 3 degrees.

The new liner will not be a fast boat, being built more for solid comfort than great speed. Her time across the Atlantic will be in the neighborhood of seven days. Her engines will be of the reciprocating type.

It goes without saying that the company is preparing to equip the Imper-

ator with a sufficient number of lifeboats to accommodate all of the passengers and crew, numbering altogether about 5,000 persons. The most powerful Marconi apparatus ever used at sea will be installed on the vessel, the unusual height of her masts making it possible to receive or transmit messages across the broad expanse of the Atlantic ocean. It is expected that she will always be in direct communication with either Europe or America.

A Magnificent Memory. (Washington Star)

At a little dinner the other night the ascertain was made that the negro race had longer memories than white folk. Ex-Governor Bunn of Pennsylvania, who was present, agreed with the remark, and to prove it told the following: "Some years ago, when South, I met an old colored man who claimed to have known George Washington. I asked him whether he was in the boat when George Washington crossed the Delaware, and he instantly replied: 'Lor, massa, I steered dat boat.' 'Well said I, 'do you remember when George took the hack at the cherry tree?' He looked worried a minute, and then, with a beautiful smile, said: 'Why, suah, massa; I dun drove dat hack myself.'"

General Booth Under The Knife

London, May 24—General Booth, of the Salvation Army, was operated on yesterday for cataract by Chas. Higgins, the senior consulting ophthalmic surgeon of Guy's Hospital.

After the operation Dr. Higgins issued the following bulletin:

"The operation on General Booth was completely successful, and the ultimate restoration of his eyesight depends only on the recuperative powers of the general himself."

Bacon Toast

Cut some bacon into rather thin slices; place them in a frying pan with just enough water to cover, and boil for a few seconds. Then drain the slices and fry quickly over a hot fire until the bacon is a delicate brown. Have ready some slices of well-buttered, toasted brown bread, trimmed to the size of the bacon; put the hot bacon on the toast. Place a small slice of fried tomato (this can be fried in the bacon fat) on the top of each slice of bacon, and send to the table very hot.

WOMAN'S NEEDLESS SUFFERING

Tull of Aches, Frightful Back Pains, Pale and Nervous.

With the Use of Dr. Hamilton's Pills a Wife and Mother Saved from Death.

A few years ago doctors considered that only back pains and bladder disorders were traceable to the kidneys—but to-day, science proves that many of the most fatal and dreaded diseases have their sources in irregular kidney action.

Such was the case with Mrs. Anna A. Rodriguez, a well-known resident of Valencia—read her experience: "For a long time I suffered with falling strength and nagging headaches. My condition grew steadily worse. My limbs became bloated and shaky, I was pale and thin, felt rheumatic pains, dizziness, and chills. I unfortunately didn't suspect my kidneys, and was nearly dead when I discovered the true cause of my sufferings. I read so much about the wonderful health and strength that come to all who use Dr. Hamilton's Pills that I felt sure they would help me. Such blessings of health and comfort I got from Dr. Hamilton's Pills I can't describe. They speedily put me right and their steady use keeps the active, energetic, strong, and happy. I strongly urge others to regulate and tone their system with Dr. Hamilton's Pills of Mandrake and Butternut." Refuse substitutes for Dr. Hamilton's Pills, 25c per box, or five boxes for \$1. At all dealers, or the Catarrhose Company, Kingston, Ont.
