TO CONSIDER MATTER.

Mr. H. A. Connell, of Woodstock, and Mr. R. G. Lee of this city, appeared before the City Council at an informal meeting Wednesday afternoon, Jan. 10th., and presented the proposition of the Eel River Light, Heat & Power Company with regard to furnishing current for use in Fredericton. The rates mentioned were as follows: for 1,000,000 kilowatts, 2 cents per kilowatt; for 2,000,000 kilowatts, 1.34 cents per kilowatt; for 3,000,000 kilowatts, 1.1-2 cents per kilowatt. To use the current for the operation of the various city plants extensive alterations in them would have to be made. The council will consider the matter further and a report from an expert electrical engineer will probably be obtained.

Fear Richeson Will Attempt Suicide Again

Boston, Jan. 15.—Fearing that Clarence V. T. Richeson may make another attempt to injure himself, Sheriff Quinn has ordered the prisoner's eyeglasses to be removed from his cell. It was with a piece of tin can that the prisoner seriously injured himself, and the sheriff announced he was taking no chances that his prisoner would commit suicide.

Richeson will be permitted to use his glasses for reading, but even then he will be observed closely by officers in his cell at Suffolk county jail. The guard has been doubled by the sheriff. Day and night Richeson is watched by two of the most stalwart officers of the institution.

When one of the officers took Richeson's glasses from his bunk, the latter made a violent protest. He stormed about his cell demanding to know by what right he was being deprived of his property. The guards, in haste, summoned the sheriff, who calmed the prisoner.

The question of commuting Richeson's sentence has been laid by a newspaper before twelve Massachusetts clergymen, for their opinion. They stood nine to three for the death sentence. Three who voted against it did so because they are opposed to capital punishment, and not because there is, in their view, any saving grace attached to Richeson or his act. Nearly all the clergymen declare that Richeson, because of his profession, his education and his position in society, is deserving all the punishment the law allows. Not one of the twelve men cited a redeeming feature in Richeson or in his crime.

Great Britain's Largest Battleship

PORTSMOUTH, Eng., Jan. 15.—The steel plate of Great Britain's twenty-eight ship of the dreadnought class was laid to-day in Portsmouth dockyards. The new vessel is the first to be begun of the five armored ships provided for in the British naval programme of 1911-12. She will be completed in the course of the year 1914, and when she has been added to the navy, Great Britain will possess thirty-two dreadnoughts or super-dreadnoughts, half of which will be armed with 13.5 inch guns.

The vessel laid down to-day has not as yet been named. She will be the largest battleship ever constructed in England, displacing between 25,000 and 26,000 tons. Although the dreadnought cruisers of the Lion class are much longer, the new vessels will be slightly heavier, besides throwing heavier shells than her immediate predecessors. A number of improvements have been introduced by the constructors in the arrangement of the internal sub-divisions intended to minimize the danger of a torpedo attack, while her anti-torpedo battery will consist of sixteen six-inch guns, whereas her predecessors have been armed with only four-inch guns for the purpose of encountering torpedo boats.
