Her Daughter Saved

Stricken With Acute Rheumatism Recovery Scarcely Expected

Mrs. Dolina J. Lawlor, writing from Oxbow, Sask., says: "I would be lacking in gratitude if I did not write you and let you know of the wonderful good your Dr. Williams' Pink Pills have done for my daughter, Belle Lawlor. Indeed I think I may safely say that they have been the means of saving her life. For many years my home has been in Bruce Mines, Ont. Something over a year ago my son and daughter, then in her sixteenth year, left for the west. When leaving here my daughter was in the best of health, but in the following spring she was stricken with what the doctor said was inflammatory rheumatism in its worst form. After a few weeks she was able to get up, but her hands and limbs were so swollen that she could not dress herself. She continued in this way for some time, and then a second attack, worse than the first, set in, and my son telegraphed me, as she was very low. While I was getting ready to make the trip of eighteen hundred miles I got a second message to come at once, as they feared she could not live. When I reached her I found her even worse than I had expected. She was so weak and emaciated that I would not have known her, and she could only speak in a whisper. Her hands and fingers were all twisted and her limbs swollen to twice their natural size. The doctor had then been attending her for two months, and she seemed steadily growing worse. We did not dare move her in bed for fear of her heart giving out. She was as pale as a corpse, and her lips and face always cold. We had to fan her continually, and if we ceased even for a little while she would gasp for breath, and no one who saw her thought it possible she could get better. She suffered such pain that I used to go out of the room and put my fingers in my ears to shut out her gasping and moaning. I had known before of Dr. Williams' Pink Pills, and as we could gradually see her sinking I told my son I was going to give her the Pills. He was opposed to my idea for he thought a change in the medicine might prove fatal. However it was finally decided to give her the Pills. In a week's time she showed some improvement and felt like eating. From that time on she began to gain steadily. Gradually her hands and fingers became straight, the swelling in the limbs went down, and her heart-beats became regular, and the color returned to her face, and soon the cure was complete. She is now as strong and healthy as any girl of her age, and to see her you would never think she had passed through an illness from which none of her friends thought she could recover. You have my sincerest thanks for what Dr. Williams' Pink Pills have done for my daughter, and you may be sure I shall always warmly recommend them."

Samuel Everett, 84 years young, recently called on friends in Woodstock, N. B., . . . W. E. Crockett's power house at Otter brook, near Caribou, was destroyed by fire Friday morning. The loss is estimated at about \$400, partially covered by insurance.
