## Cost of Living Steadily Increases

Ottawa, Feb. 14—The Department of Labor's record for January shows the general price level the highest on record. Since the middle of June last a pronounced and continuous upward movement has been in progress, reaching its zenith in January. The department's index number which is based on the observation of fluctuations in 261 commodities selected for their representative character, rose to 131.0 in January; that is, general prices were 31 per cent higher in that month than was the average for the decade of 1890-1899, which is taken by the department as the standard of comparison in constructing its number. Compared with prices in 1897, the lowest year in the past quarter century, prices are now at least 45 per cent higher.

There were nine trade disputes during January, involving 1,130 employees and records show 86 fatal accidents.

## NO STATE DINNER AT LEGISLATURE OPENING

Fredericton, Feb. 17—Official announcement is made to-day that there will not be a state dinner on the evening of the opening of the next session of the provincial legislature on Thursday, March 7th. The reason given is that it would be impossible for the new Lieutenant Governor to issue invitations for an official function before he has been sworn in. The state dinner, therefore, will be given on Thursday, March 14th, at the Barker House. It is understood that Hon. Mr. Wood will be sworn in as Lieutenant Governor at noon on Thursday, March 7th, and that the necessary oaths will be administered to the new members of the legislature about the same time. To-day the official military orders for the opening of the legislature were announced, and the arrangements will be the same as already stated in the Globe.

## VALLEY RAILWAY LEASE DISCUSSED

Fredericton, Feb. 17—Hon. H. F. McLeod, Provincial Secretary, returned to-day from Ottawa, where, with Attorney General Grimmer, he held conferences with Hon. Frank Cochrane, Minister of Railways, during which the provisions of the agreement for the lease of the St. John Valley Railway to the Dominion government were discussed. Substantial progress was made, and it is expected that within a short time the lease will be executed.

## The Temperance Cause.

Temperance sentiment continues to grow in Ontario, and the temperance people show a disposition not to be satisfied with halfway measures. Early in the week representatives of the Dominion Alliance called on the leader of the Conservative government and the leader of the Liberal opposition in order to impress their views on these gentlemen and on the causes they represent. Abolition of the bar and of treating were the main features in their demand. Sir James Whitney did not give the delegation much encouragement, but Mr. Rowell said the temperance question is now being considered, investigation is being made, and the result would be made public during the present session of the legislature. Since then the Dominion Alliance has declared definitely in favor of prohibition as an issue in politics, and announced its determination to test public opinion at the first provincial by-election. I would

not be surprising if the Liberals take up the prohibition cause. Practical politicians have maintained that Mr. Rowell missed a great opportunity when he failed to declare for prohibition at the recent general election, and that his appeal on that issue would have meant victory. Mr. Rowell became leader only a short time before the election, and had little opportunity to study the situation. If he does not declare for prohibition he is sure to have an advanced temperance programme.

## Perfect Coffee Every Time

Unlike common coffees, RED ROSE has the same rare flavor when it reaches your table as it had when it left the roaster. For it is sold only in air-tight tins, hence none of its strength or flavor is lost.

Crushed (not ground) So Brews Clear

Our new process crushes this coffee into grains of uniform size and takes away the chaff which makes most coffees bitter. Thus Red Rose Coffee is as easily made as Red Rose Tea, and pours clear without any "settling." For a "full-bodied," bright, brisk coffee we commend
