Brown's Nurseries, Welland Co. Ontario.

Are you going to plant Potatoes this Spring?

BENN & TURNER
are Agents for
Buffalo Fertilizer Co's

New Brunswick Potato Special.

Also for
Bradley's Fertilizer and Complete Manure.

It will pay you to see them before you buy your Fertilizer.

Prison Life Of The M'Namaras

LOS ANGELES, Cal., March 9.—J. B. McNamara, serving a life sentence at San Quentin for dynamiting the Times building and the murder of a score of employes is dying from tuberculosis, and J. J. McNamara, his brother, serving a fifteen year sentence for the same offence, is in poor health, according to Malcolm McLaren, a Burns detective, who to-day returned from a visit to the prison. According to McLaren, J. B. McNamara has lost fifteen pounds since he commenced serving his sentence. During his trial, McNamara was frequently ill in the county jail. Since his incarceration in San Quentin he has been employed exclusively in the jute mill. The flying dust has seriously aggravated the disease, and it is believed that little hope is entertained for his recovery. J. J. McNamara has fallen off in weight, according to McLaren. He has also lost the pink baby hue in his cheeks, and his brow is beginning to show the worry wrinkles that usually come to a man who deems his position hopeless. It is stated that the prison pallor has spread over his features and his step has lost much of its old time elasticity.

McLaren said: "Both brothers are looking very badly. Neither one has been accustomed to confinement, let alone the treacherous dust of the jute mill. To a healthy man, work day after day in the mill would prove injurious, so it is not hard to realize what it will do to J. B. McNamara's health. Though J. B. McNamara is constructed on slender lines, he has lost about fifteen pounds since his trip north. He is a sick man, and owing to the fact that he is suffering from tuberculosis, it is probable that he will never recover."

"J. J. McNamara is stronger and bigger than his brother, but he has lost more weight than the latter. The prison pallor is already apparent on his cheeks. In fact, his whole demeanor has been changed by prison life."

Mothers!

Preserve Your Children's Hair

Every mother should see that her children's hair is dressed with Parisian Sage, the wonderful hair restorer and germicide. A little neglect on your part now, may mean much loss of beauty when your girl grows up.

Prevention Better Than Cure

Parisian Sage is a rigidly guaranteed hair restorer and cures all scalp diseases, prevents hair from falling out and creates a rich luxuriant growth of hair, a glory to woman and the pride of man.

A pleasant hair dressing—ladies like it, and your druggist E. W. Mair guarantees every bottle that he sells at 50c. and stands ready to refund your money if it fails to do its work. By mail postpaid from Gironx Manufacturing Co., Fort Erie, Ont. See that the Girl with the Auburn Hair is on each package. Sold and guaranteed by E. W. Mair.

Church Union Question At Fredericton

FREDERICTON, March 9.—The first returns of voting on the church union question by the Methodists of Fredericton were announced to-day. Full returns of votes by the local quarterly board have been received, and show 16 votes in favor of union of Presbyterian, Methodist and Congregational churches, and three votes against the proposed union. When Rev. Neil McLaughlan announced the returns this morning, he was asked if the vote of the board would form an indication of the way members of the congregation would probably vote, and he said he believed it would.

The depositing of ballots by members of the congregations of both Fredericton and Gibson Methodist churches will commence to-morrow, and will continue again the following Sunday, when it will be completed.

Mr. Blake's Will

Toronto, March 7.—Under the will of the late Hon. Edward Blake, which will be filled for probate soon, Professor George M. Wrong, of Toronto University, and Samuel V. Blake, of London, England, have been appointed literary executors. The will provides that the speeches, legal documents, and dispatches to the Colonial Office when he was Minister of Justice at Ottawa, be published. Apart from this literary proviso the will relates entirely to family matters.

Mr. Blake always stood for the complete self-government of Canada; within the limits of the constitution, said Professor Wrong, this morning. While he was Minister of Justice Lord Dufferin pardoned a man by the name of LeBlanc, who had taken part in the Western Rebellion, without consulting his

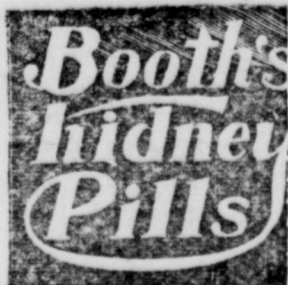

Canadian ministers. Mr. Blake objected because of the infringement of Canadian self-government, and was instrumental in having the instructions to Canadian governors from the Colonial Office changed to prevent a future abuse of the kind.

The work of assembling the Blake papers will be proceeded with at once, but it may be a year before they are published.

Distressing Headaches

Headaches are largely the result of disordered kidneys.

Mrs. Hall, 84 Flora Street, St. Flora St., St. Thomas, Ont., says: "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to any house duties. My back was weak and caused me much suffering through the night. I had doctored for years, but all to no avail. Nothing benefited me

and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me a complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Booth's Kidney Pills are sold by all druggists, 50c. box, under a guarantee to refund your money if they fail to relieve any disease having its origin in the kidneys or bladder. Postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

Problem of Unthreshed Grain

(By A Winnipeg Correspondent)

There is little doubt that the mild weather of a week ago, with the accompanying thaw, which was followed by a snow storm more or less general of very damp snow, has further complicated the problem of the unthreshed grain in the West. Reports are also coming in of grain heating in elevator bins, and it would now seem that it is quite impossible to save more than a fractional part of the unthreshed crop, while the threshed grain, which is in temporary storage, is subject to daily depreciation. A very considerable amount of grain is being moved east from Fort William and from the West to Duluth and Minneapolis, but when all this is accounted for, the percentage of unthreshed grain is very large, and oats and flax are practically untouched. Under the most favorable conditions it is difficult to see how much threshing could be done in the spring. Every available man will be required to get in the seed owing to the very small area of old land that was plowed last fall. It is quite probable that many farmers will seek to stack what grain is still on the ground and get the seed in before they make any attempt to thrash, and

by the time seeding is over, it is highly probable that they will want to burn the major portion of what they have stacked. It is just as well for all parties concerned to realize the fact that the unthreshed grain now in the Canadian west will be very nearly a total loss. As to how much there is of this unthreshed grain, of course it is impossible to say, but it can scarcely be less than 5,000,000 or 6,000,000 bushels.

Canadian Farmer

Why Production Falls Off

Orchards slowly dying from the ravages of San Jose scale; dairying giving place to wheat and bean farming with consequent reduction in crop yields owing to failure to return fertility to the soil and absence of proper rotation.

That is the picture of conditions in one of the best sections of Ontario (East Kent) presented by one of last week's visitors at The Sun Office. These conditions are duplicated, with some variations as to form, in more than one part of the Province. Up about Forest, where the land is especially fertile and exceptionally well adapted to intensive agriculture, farm after farm is in grass and consequently not giving over a tenth the income it ought to yield. In parts of Huron and Middlesex it is the same.

What is the cause? The draining of population from rural Ontario to be scattered over the prairies of the West or crowded into Toronto and other cities. This drain, in so far as the cities are concerned, finds its chief cause in legislation which has enabled the city to outbid the farm in the labor market. And still the cities, which support the policies under which these conditions are brought about, profess to wonder at the steady increase in the cost of food, an increase that is necessarily more marked in an exceptionally unfavorable year such as was that of 1911.

Toronto Weekly Sun

A Bad Stomach

Mrs. S. Keast, of Clarksburg, Ont., says "A bad stomach trouble that had bothered me for years, baffled and puzzled skilled physicians, was nicely relieved by Mi-o-na. My food would not digest but fermented in my stomach, forming a gas that gave me untold suffering and pain and also made me weak, nervous, irritable and unable to rest. Since using Mi-o-na I can go to bed at night and sleep and wake up in the morning refreshed. I cannot speak too highly of Mi-o-na."

The dyspeptic nervous or otherwise, who does not give Mi-o-na a trial is losing an opportunity to regain health, for Mi-o-na Tablets are guaranteed to cure dyspepsia and all stomach disturbances, such as vomiting of pregnancy, sea or ear sickness and the stomach sickness after excessive indulgence. All druggists, 50c. or from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

"Do you mean that girl with the spots on her face?"

Overheard in a Street-Car. There's a lesson right there!

Little blemishes of complexion, small sores, eruptions, spots, are not only unpleasant to the person afflicted, but are the first thing noticed by other people.

A little Zam-Buk applied at night to spots, eruptions, sores of any kind will do wonders.

Zam-Buk is not a greasy preparation which will go rancid on your dressing table. It is made from healing, herbal extracts and essences. Always pure, fresh and ready for use. Doesn't lose its power. Keeps indefinitely. Healing, soothing and antiseptic all the time. Try it!

50c. box all druggists and stores.

Letters From Roosevelt Used Against Him.

Washington, March 4.—Much interest was aroused here when part of a letter written as late as June 27, 1911, by Col. Roosevelt, and declaring that he would not be a candidate in 1912, and "had no intention of taking any part in the nomination for or against any candidate," was made public to-day. The letter concludes as follows:

"I have expressed myself perfectly freely to a large number of men in this matter, always to the same effect, telling you, for instance, personally, and those who were with you at lunch, at my house, and telling Gifford Pinchot, Jim Garfield and Congressman Madison and Billy Loeb and Secretary Meyer and Secretary Stimson, all alike, just exactly what I have said always, that I would not be a candidate in 1912 myself, and that I had no intention of taking any part in the nomination for or against any candidate.

"Sincerely yours,
"THEODORE ROOSEVELT."

God send everyone their heart's desire.
—Shakespeare.

Concrete-mixing is Easily Learned

It is no more difficult than mixing bran mash, once the simple instructions have been read.

The materials—sand, crushed rock or gravel and cement—each play a separate part. The rock provides the bulk of volume at very low cost. The sand fills in all crevices between the pieces of rock or gravel. The cement, mixed with water, forms a "bond," in other words a rocky "glue," that binds the other materials firmly together.

with a strength that increases with time. Concrete is really artificial rock, more firmly bound together than natural rock, which often has cracks, veins, fissures and other weaknesses.

Any farmer can learn how to mix Concrete and to apply it to the hundreds of uses to which it is fitted.

But in order to be absolutely sure that his proportions are correct and that his materials are properly suited to the purpose, he should send for the book,

"WHAT THE FARMER CAN DO WITH CONCRETE."

and read the careful directions for mixing Concrete for all purposes. It also describes in detail hundreds of ways in which Concrete may be used to make the farm more comfortable, more convenient, more profitable and more valuable.

Just send us your name and address—in a letter or on a postal card—and the book will be sent to you by return mail free. Address

Canada Cement Company, Ltd., National Bank Building, Montreal.
