Parsons' Pills regulate the bowels and keep the liver active.

Holloway Prison in An Uproar

London, March 6.—Bitterly resenting the action of the authorities in tacking a hard labor clause on their prison sentences, the convicted suffragettes have set Holloway prison in an uproar. Led by Alice Wright, the Albany, N. Y., girl, who came from Paris to assist in the window breaking campaign, and who was given a two months' sentence, while the majority of her accomplices got only thirty days, the suffragettes attempted to defy the prison officials.

When they were ordered to the robing room, to remove their ordinary clothing, take their compulsory bath, and don prison garments, the women rebelled. The wardresses of Holloway prison are chosen for their muscular ability rather than for their good looks, and they started to make the prisoners obey the prison rules. While the details are carefully guarded, and difficult to obtain, it is alleged that the riot which followed was the greatest in the recent history of the noted prison. Two wardresses, it is asserted, had their clothing torn almost completely from their bodies, while they had to use fetters to subdue the warring suffragettes, and make them take their baths and put on prison uniforms.

Afterwards when the suffragette leaders were ordered into the work room to sew on bags, according to the prison rules, and the terms of their sentence, another row followed. They had learned of the intention of the authorities to prosecute all the leader under the conspiracy act, and, were exceedingly angry.

At a given signal, all the suffragettes jumped out; those who were working at the machines smashed them up as well as they could, without tools, and for a time the entire workroom was in an uproar.

Finally, the wardresses regained control of the situation. The suffragettes were returned to their cells, and shortly afterwards the prison governor ordered all the ringleaders in the disturbance placed in solitary confinement, where it is understood they still are. Solitary confinement is extremely severe under the rules of Holloway prison. The solitary cells are under ground, and very dismal places. It is said they are also very cold, so that those incarcerated there, garbed as they must be, in only rough prison clothing are likely to suffer severely, at this time of the year, the suffragettes say.

While friends of Miss Wright fear that she is now undergoing solitary confinement, it is impossible to ascertain the facts. When a request was made for a list of the suffragettes who are held in solitary confinement for violation of the prison rule, it was refused.

DEAF.

For Thirteen Years. Catarrh cured.

Mr. Geo. Warner, publisher of The Masonic Register, Toronto, was almost totally deaf in both ears for a number of years.

Mr. Warner says: "For the past thirteen years my hearing has been badly affected. The streets were as quiet to me as if I lived in the city of the dead. I could neither hear the noise of street cars nor sound of horses' feet on the pavement. Before I had used Catarrhose Inhaler three days I was able to notice a great change in my condition, which gradually improved until now I can hear a whisper across the room. I cannot tell you how much I appreciate Catarrhose, or of the wonderful results I have derived from using it. Catarrhose has my strongest endorsement, and I am quite willing that you should use it."

Mr. Warner's unsolicited testimonial furnishes abundant proof that deafness can be cured, even in old age, if Catarrhose is used. This remedy is scientific in its application, and meets with the endorsement of prominent ministers and doctors all over Canada. Our best equipped health institutions always keep it on hand, and cases are recorded where it has been used with great success in the Government deaf and dumb institutions where other means proved futile. Complete outfit, price \$1.00. All dealers or the Catarrhose Co., Kingston, Ont.

KIRKLAND

too late for last week

We have had quite a storm the roads are not very good at present.

Olive Carr has returned home from Fairville St John.

J A McIsaac Manager for the International Harvester Co of America made a business trip to this place quite recently.

Mrs Margaret McAllister, of Temple, York Co is visiting her daughter Mrs James Dinnin, of Maxwell.

Miss A Jean Bustard is at McAdam at present.

Bishop Richardson will attend the services at the Anglican church March 10.

Misses Victoria Anderson and Jean Bustard were appointed as delegates to go to St John April 30 where they will attend a meeting of the Anglican church.

Work Of The Horticultural Branch

During the past two weeks a number of the illustration orchards have been visited and pruned by R. P. Gorham. Work was begun at Waweig, Charlotte County, in the orchard of Mr. W. E. Armstrong. The Hoyt Station, Golden Grove, Sussex, Salisbury, Sackville, Baie Verte, Upper Queensbury and Stanley orchards were visited successively. In general the trees appeared to have passed through the winter remarkably well, only a few branches being found broken by snow, and no evidence of girdling by vermin noticed.

The character of the winter has been very uniform over the whole southern section of the province where the above mentioned orchards are situated. The fall remained open and mild so long that even where the trees made a late growth the wood had a chance to ripen up well before cold weather came in. No storms of any consequence occurred until after the beginning of the New Year and up to the present there has been no great depth of snow in any of the orchards. Only one sleet storm occurred during the winter and it was so slight that no damage was done. The temperature was very low in all parts of the province but so far as can be determined at present none of the trees have been seriously injured. All the illustration orchards have been supplied with spraying outfits and materials and will this year be in good shape to resist the attacks of the insects and fungi. The prospects for a good season of growth and a fair crop of fruit on the older orchards looks particularly bright at present.

The 1911 report on Horticulture and the proceedings of the Fruit Growers Association will be ready for mailing in a few

days. A thirty-two page pamphlet on "Orchard Opportunities in New Brunswick" has been prepared by A. G. Turney, provincial horticulturist and is now being printed. It is splendidly illustrated and 10,000 copies are to be issued, many of which will be distributed in the British Isles. A small illustrated leaflet on "The Forest-Tent caterpillar" will also be issued shortly and should prove timely and useful as this pest has become quite serious during the last few years, especially in Charlotte County and portions of York, Sunbury and Queens and gives every promise of being exceptionally numerous this season. Arrangements will be made for spraying demonstrations in the districts where this pest promises to be very destructive.

FLORENCEVILLE

(Too late for last week.)

Mrs. John Glass and little son, Blake, who have been visiting her daughter, Mrs. R. L. Simms, returned home on Friday.

Miss Myrtle Jones, of Bath, is visiting her sister, Mrs. James Peters, who is convalescent.

The supper held at the Methodist Parsonage on Wednesday evening, was largely attended, and the sum of fifty-one dollars and five cents was raised.

Mr. and Mrs. Allison McCain and family have moved from their farm to the village.

Mrs. F. E. McNally, of Beechwood, was in the village on Tuesday and attended the At Home at Centreville.

Miss Clara Wheeler, of Bath, also Miss Carrie and Donald Wheeler, of Wicklow, were guests of their aunt, Mrs. W. L. McCain on Friday.

James Turner, of Stickney, was visiting friends in the village on Saturday.

An At Home was held in Sherwood's Opera House, Centreville, on Tuesday evening for the Masons. Quite a number from this place attended.

The death of William Turner, of Connell, occurred at his home on Wednesday. The funeral was held on Friday. Rev. J. A. Cahill officiated.

Mr. and Mrs. Stephen Fox, of Fort Fairfield, were guests of Mrs. W. L. McCain on Friday.

Mr. MacTavish attended a christening where the hospitality of the host knew no bounds except the several capacities of the guests. In the midst of the celebration Mr. MacTavish rose up and made the rounds of the company, bidding each a profound farewell. "But, Sandy, mon," objected the host, "ye're not goin' yet, with the evenin' just started?"

"Nay," said the prudent MacTavish: "I'm no' goin' yet. But I'm tellin' ye good-night while I know ye."

Saturday Evening Post

"If Mr. Smith or Mrs. Montague should telephone that he or she is going to church in his or her automobile, I wish you would ask him or her to stop by on his or her way and take me with him or her."

"Constipation for Three Years"

Bad Dizziness, Bad Breath, Headaches, Bad Color, Poor Appetite.

Dr. Hamilton's Pills Cured Quickly.

Those who doubt if constipation and chronic stomach trouble can be cured, need only read the striking testimony of Mrs. B. C. Curran, of Westport, to know that even if all else had failed, certain cure attends the use of Dr. Hamilton's Pills.

"For full three years I have suffered the torture of biliousness, constipation, and stomach disorders. I had terrible pains in my head. My appetite faded away, and when I did eat anything it disagreed and made me very sick for hours after each meal. The active pains in my stomach and the dizzy headaches I had to endure almost set me wild. Sometimes attacks came on so severely that I had to go to bed. I would feel so worn, depressed, and utterly miserable that for hours I wouldn't speak to my family. My system was poisoned with wastes and nothing helped me till I used Dr. Hamilton's Pills. Without this grand system-cleaning remedy I would still be sick, but each day brought me better health and spirits. I was cured and made as strong, ruddy, and healthy looking as one could wish, and will always use and recommend Dr. Hamilton's Pills."

Thousands who are in an ailing, low state of health need nothing else but Dr. Hamilton's Pills. They cure blood disorders, pimples, rashes, bad color, biliousness, liver, stomach, and kidney troubles—25c per box at all dealers.

Great Britain Fully Prepared for War

London, March 13.—A dramatic scene was enacted in the House of Commons yesterday. The government was being criticized for its alleged unpreparedness for war, whereupon the Rt. Hon. J. B. Seely, under secretary for war, held up a sealed envelope, which contained, he said, information which any member could have under pledge of secrecy, as to how within a few days, on an order for mobilization, 150,000 men could be despatched abroad, with ammunition and stores for three months, and, he added, in the opinion of the general staff, when this expeditionary force had left the country, taking into account the relative strength of the navy and the surrounding circumstances, the country would be quite safe from invasion.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

United States and Panama Canal

New York, March 13.—Before several hundred members of the Canadian Club, who assembled at the Waldorf Astoria last night, for an informal smoker, John F. Wallace, the first engineer of the new Panama canal, paid his respects to Wm. Nelson Cromwell and indirectly to ex-President Roosevelt in no uncertain tones. Of Mr. Cromwell the speaker said that he was "the bunt who pulled the strings of the Roosevelt administration in all affairs pertaining to the canal." Mr. Wallace characterized the inaction of the United States in the matter of Columbia's claim for reparation for fomenting the Panama revolution and the seizure of the canal zone, as "the blackest stain on this country's history."

"Until we take off our hat," he declared, "and apologize to that government, we have no right to pride ourselves on our achievements in the canal zone."

Ten Suffragettes Given Severe Sentences

LONDON, March 13.—Ten of the suffragettes who were committed for trial by the police magistrate at the Bow Street court on March 2, on a charge of smashing windows during the women's suffrage demonstration on March 1, were sentenced to-day at the London Sessions court to terms ranging from four to six months in prison. The women were tried in the superior court on account of the damage caused by each of them having exceeded the value of \$25.

Wreck Of Twentieth Century Express

NEW YORK, March 13.—Several persons were seriously injured in a wreck of the Twentieth Century express at Hyde Park, according to reports received here to-day by the New York Central Railroad, but no one was killed. Despatches from Hyde Park were to the effect that four cars had been derailed and fallen to the ice on the river, and that the engine and first car had remained on the track. The accident occurred just south of Hyde Park.

Pure Air and Horses.

The "oldest inhabitant" never remembers a time when the street odour has been less unpleasant than was the case in towns during the recent heat. In the pre-motor days the smell of horse manure was at times quite unbearable, and we therefore have to thank the motor with all its faults, for this improvement. Without it the intense heat we have lately experienced would have been much more terrible. Possibly also there is more oxygen available for human use now that the equine ranks have been so greatly thinned. During the 24 hours a man will breathe about 1750 cubic feet of air to the extent of 1 per cent. A horse (as, of course, a motor) will do much more than this, so perhaps it is just as well he is gone or going—so far as the streets are concerned.

First Railroad Signalling

It was not until the year 1846 that the present system of signalling was first thought of. Up to that date the pointsman used to have to sit in a hut near the switch for which he was responsible, and, at a given signal, get up and alter it by hand. It is to the laziness of one of these old-time pointsmen that we have to look for the present-day system of signalling. He had to attend to two sets of switches some distance from each other, and in order to save himself the trouble and exertion of walking to and fro between them he fastened the levers together by a long piece of wire. A broken iron chair served as a counter-weight. The wire ran on into his hut, and there he sat nightly and worked the two signals without setting a foot outside. This went on for several months, but one day the old signalman was discovered, severely reprimanded, and afterwards promoted.

Queen Ant and Queen Bee

It is claimed that the queen ant has not had justice done her by naturalists. As compared with the famous queen bee, she is regarded by Dr. W. M. Wheeler as a far more admirable creature. In fact, they are, in many important respects, diametrical opposites. The queen bee is, it is pointed out, a degenerate creature, unable to nourish either herself or her young, to visit flowers, to build combs or to store them with honey. With the queen ant quite the reverse is true. She is held to be a perfect exemplar and embodiment of her species, and the worker ant suffers from incomplete and retarded development. The queen ant is a very industrious and intelligent worker, and, in the opinion of the authority mentioned, she forms an exceedingly interesting subject for study, and has not hitherto been well understood.

Judge—"You are a freeholder?" Witness—"Yes, sir, I'm." Judge—"Married or single?" Witness—"Married three years last June." Judge—"Have you formed or expressed any opinion?" Witness—"Not for three years, your honour."

Wind on the Stomach

A Well-Known Westerner Tells of Suffering, Misery, and Pain That He Cured With "Nerviline."

"A few weeks ago I ate some green vegetables and some fruit that was not quite ripe. It first brought on a fit of indigestion, but unfortunately it developed into hiccoughs, accompanied by nausea and cramps. I was dreadfully ill for two days—my head ached and throbbed; I belched gas continually, and I was unable to sleep at night. A neighbor happened in to see me and urged me to try Nerviline. Well, I wouldn't have believed that any preparation could help so quickly. I took half a teaspoonful of Nerviline in hot sweetened water, and my stomach felt better at once. I used Nerviline several times, and was completely restored."

The above is from a letter written by G. E. Braun, a well-known stockman and farmer near Lethbridge, Alta. Mr. Braun's favorable opinion of the high merit of Nerviline is shared by thousands of Canadians who have proved Nerviline is simply a marvel for cramps, diarrhoea, flatulence, nausea, and stomach disorders. Safe to use, guaranteed to cure—you can make no mistake in keeping Nerviline for your family remedy. Large 25c bottles; five for \$1.00. Sold everywhere, or The Catarrhose Co., Kingston, Ont.

NERVILINE STRENGTHENS WEAK STOMACHS
