BENN & TURNEY
are Agents for
Buffalo Fertilizer Co's
New Brunswick Potato Special.
Also for
Bradley's Fertilizer and Complete Manure.

It will pay you to see them before you buy your Fertilizer

That Bald Spot

Don't let that bald spot grow! Go to your druggist at once and get a bottle of Parisian Sage and if that don't check the falling hair, and cause new hair to grow, nothing will!

Dandruff is the cause of baldness; dandruff germs cause dandruff. Parisian Sage kills the germs; eradicates dandruff, stops falling hair and itching scalp. We will refund your money, if it fails to do this in two weeks. Parisian Sage will cause the hair to grow, if the hair root be not dead. It causes the hair to grow thicker, more luxuriant, and puts new life into it.

The girl with the Auburn hair is on every package of Parisian Sage. It is sold for 50c. by all druggists or sent postpaid by The Giroux Mfg. Co., Fort Erie, Ont., on receipt of price. Sold and guaranteed by E. W. Mair.

Brought Out Alive From Coal Mine

DULUTH, Minn., May 15.—Six men were taken alive from the Oliver Iron Mining Company's mine at Ironwood, last night, the last man being rescued at 11 o'clock. Two bodies of dead miners have been recovered. Thirteen men were entombed by the cave-in. Five bodies are still in the mine.

Death of The King of Denmark.

By the death of King Frederick VIII., of Denmark, more grief is added to the lot of the royal house of Great Britain, for the dead monarch was a brother of Queen Alexandra, widow of King Edward, and beloved in every quarter of the British Empire, and his second son is married to a sister of King George. King Frederick's death was quite unexpected, although he had not been in good health for some time. The monarch was renowned for his democratic manners, and he was exceedingly popular with the people over whom he had reigned six years. It is pointed out as a "curiosity of fate" that he saw his younger brother and his own son become reigning monarchs before he himself ascended the throne of Denmark. His brother William was elected King of Greece in 1863, and Frederick's second son, Prince Charles, was elected King of Norway, under the name of Haakon VII., after the separation of Norway from Sweden in 1905. Through his brothers and sisters and his own children, Frederick was connected with most of the royal houses of Europe. One became Queen of Great Britain, another the wife of the late Czar Alexander III., and a third the wife of the Duke of Cumberland. Of his two brothers, William became King of Greece, while Prince Waldemar allied the family by marrying Marie d'Orleans, eldest daughter of the Duc de Chartres. While not a brilliant man, King Frederick was a wise and judicious ruler.—St. John Globe.

A New Break in Mississippi Levee

NEW ORLEANS, May 15.—Approximately 60,000 persons and 1,000 square miles of territory will be affected by a break in the Mississippi levee on the west bank, 25 miles north of here.

Early this morning the crevasse was started. It was 200 feet wide. This and the Hymelia levee was the scene of the worst break of the flood of 1804.

A boat, with laborers, has gone to try to make repairs. The revenue cutter Windom probably will be rushed to the scene with supplies during the day.

Quebec Boom Breaks and 100,000 Logs are Carried Away

Quebec, May 14—As a result of the violent south wind blowing today the boom of the Baie St. Paul Lumber Company broke at about noon today carrying away one hundred thousand logs. The loss will be heavy as it is quite probable that scarcely half the logs will be saved.

Does Your Stomach Work Properly?

There is no complaint so humiliating and tiresome as stomach complaint. The reason so many people suffer with their stomach is because they overwork it and do not give it a tonic.

Mi-o-na Tablets will tone the stomach and speedily remove the disagreeable belching (gas on the stomach), sour taste and foul breath. Dizziness, biliousness and headache all disappear when you begin to take Mi-o-na.

Mi-o-na is guaranteed by E. W. Mair who will refund your money if they fail to cure or do what we claim. Postpaid from The R. T. Roach Co., Limited, Fort Erie, Ont., on receipt of price, 50c.

WHO'S WHO IN CANADA

HON. G. H. MURRAY,

Nobody visits Cape Breton without carrying away lasting impressions of its picturesque scenery. But wealth and beauty are not its only pride and glory. From that island, divided by lake and canal into two islands, have gone forth sons and daughters whose names stand high among Canada's good and great. Hon. George Henry Murray, Nova Scotia's premier, is one of these.

Premier Murray was born at Grand Narrows, N.S., in the island of Cape Breton, in 1861. He is of Scotch descent, a Presbyterian in religion and a Liberal in politics; a combination quite palatable in Victoria County, of which he is one of the representatives. Mr. Murray received his elementary training in the public schools of his native place and then entered the profession of law under the firm name of Murray & McKenzie in North Sydney. In 1889 he was appointed to the Legislative Council. Later he was an unsuccessful candidate for the House of Commons in the country of Cape Breton. Political success came to him in 1891 when he was appointed Member of the Fielding Administration, without portfolio. In 1895 he was created Q. C. When Hon. William S. Fielding resigned, Lieut-Governor Daly called upon Mr. Murray to form a new administration. This was done by the premier in a creditable manner,

HON. G. H. MURRAY
Premier of Nova Scotia.

he himself taking the portfolio of Provincial Secretary. Hon. George H. Murray has retained his seat in the local House with practically no opposition, being either re-elected by acclamation or by a large majority.

HON. A. K. McLEAN

A prominent young member of the Nova Scotia Government, Hon. A. K. McLean is surely destined for yet higher honors in the land of his nativity. During the present parliament Mr. McLean has filled the responsible position of Attorney General, and it may perhaps not be too

HON. A. K. McLEAN
Attorney General for Nova Scotia

much to recognize his selection as Acting Premier during severe illness last winter of Premier Murray as a finger-post that points the way to more than a temporary honor whenever the opportunity should arise.

C. F. HAMILTON, M.A.

A well known member of the Canadian Fourth Estate, Mr. Charles Frederick Hamilton, M.A., saw the light at Roslin, Hastings Co., Ontario, near the close of 1869, the son of Mr. Charles Samuel Hamilton, M.D., C.M., his mother being a daughter of the late George Edward Jaques of Montreal. Educated at Picton and Campbellford High School he graduated to Queens University, and at the age of 24 entered the journalistic field as a member of the staff of the Toronto "Globe". He had some interesting stories to tell the readers of that paper of the South African war where he acted as special cor-

respondent, as close up on the firing line as circumstances and the military commanders would permit, and on return to the more prosaic things that go to make up the life of the modern Torontian, Mr. Hamilton resumed his staff duties on the "Globe". Here he remained until 1903 in which year he crossed over to the Toronto "News" and is now parliamentary representative at Ottawa for the Publishers Press of Canada, the Morning Post, London Eng., and other important publications.

CONSERVING VITALITY

Taking Care of Men Means Maximum of Results With Minimum of Effort.

What has long been considered one of the most important principles in the realm of mechanical and engineering science is finally beginning to be looked upon as an equally vital principle in the realm of human development. This is the conservation of energy. The best thinkers and the greatest leaders in the industrial world are awakening to a realization of the fact that it pays not only to take care of machinery but also to take care of men. And taking care of a man means giving him the right chance and the right instruction to produce the maximum of results with the minimum of effort — to use to the best advantage what energy he has, and to conserve his energy in such a way that it will not be taxed unduly. Further, to protect employees from greedy and cruel employers who drive a man to death because it is easy to get another one to take his place, we are constantly passing more and more stringent laws regulating hours of labor, conditions in which people work in various establishments, the employment of women and children, and other common factors in industry of different kinds. In other words, we are coming to see that we can not afford to waste humanity any more than we can afford to waste our forests or any of our natural resources. Happily, too, we are going still further along this

FATAL CATARRH

Pneumonia, Consumption, and Kindred Evils Follow in its Trail.

Have you ever had Catarrh? Have you been subject to coughs and colds lately? Are you all run down? Do you take a cold easily?

Catarrhone is the greatest protection against these complaints ever known. You just breathe it, that's all, and it cures. The Inhaler is suitable to carry in the vest pocket or purse, and can be used while at work, in the church, theatre, any place, any time. Carry a Catarrhone Inhaler, use it now and again, it is quite pleasant, and you won't have colds or catarrh.

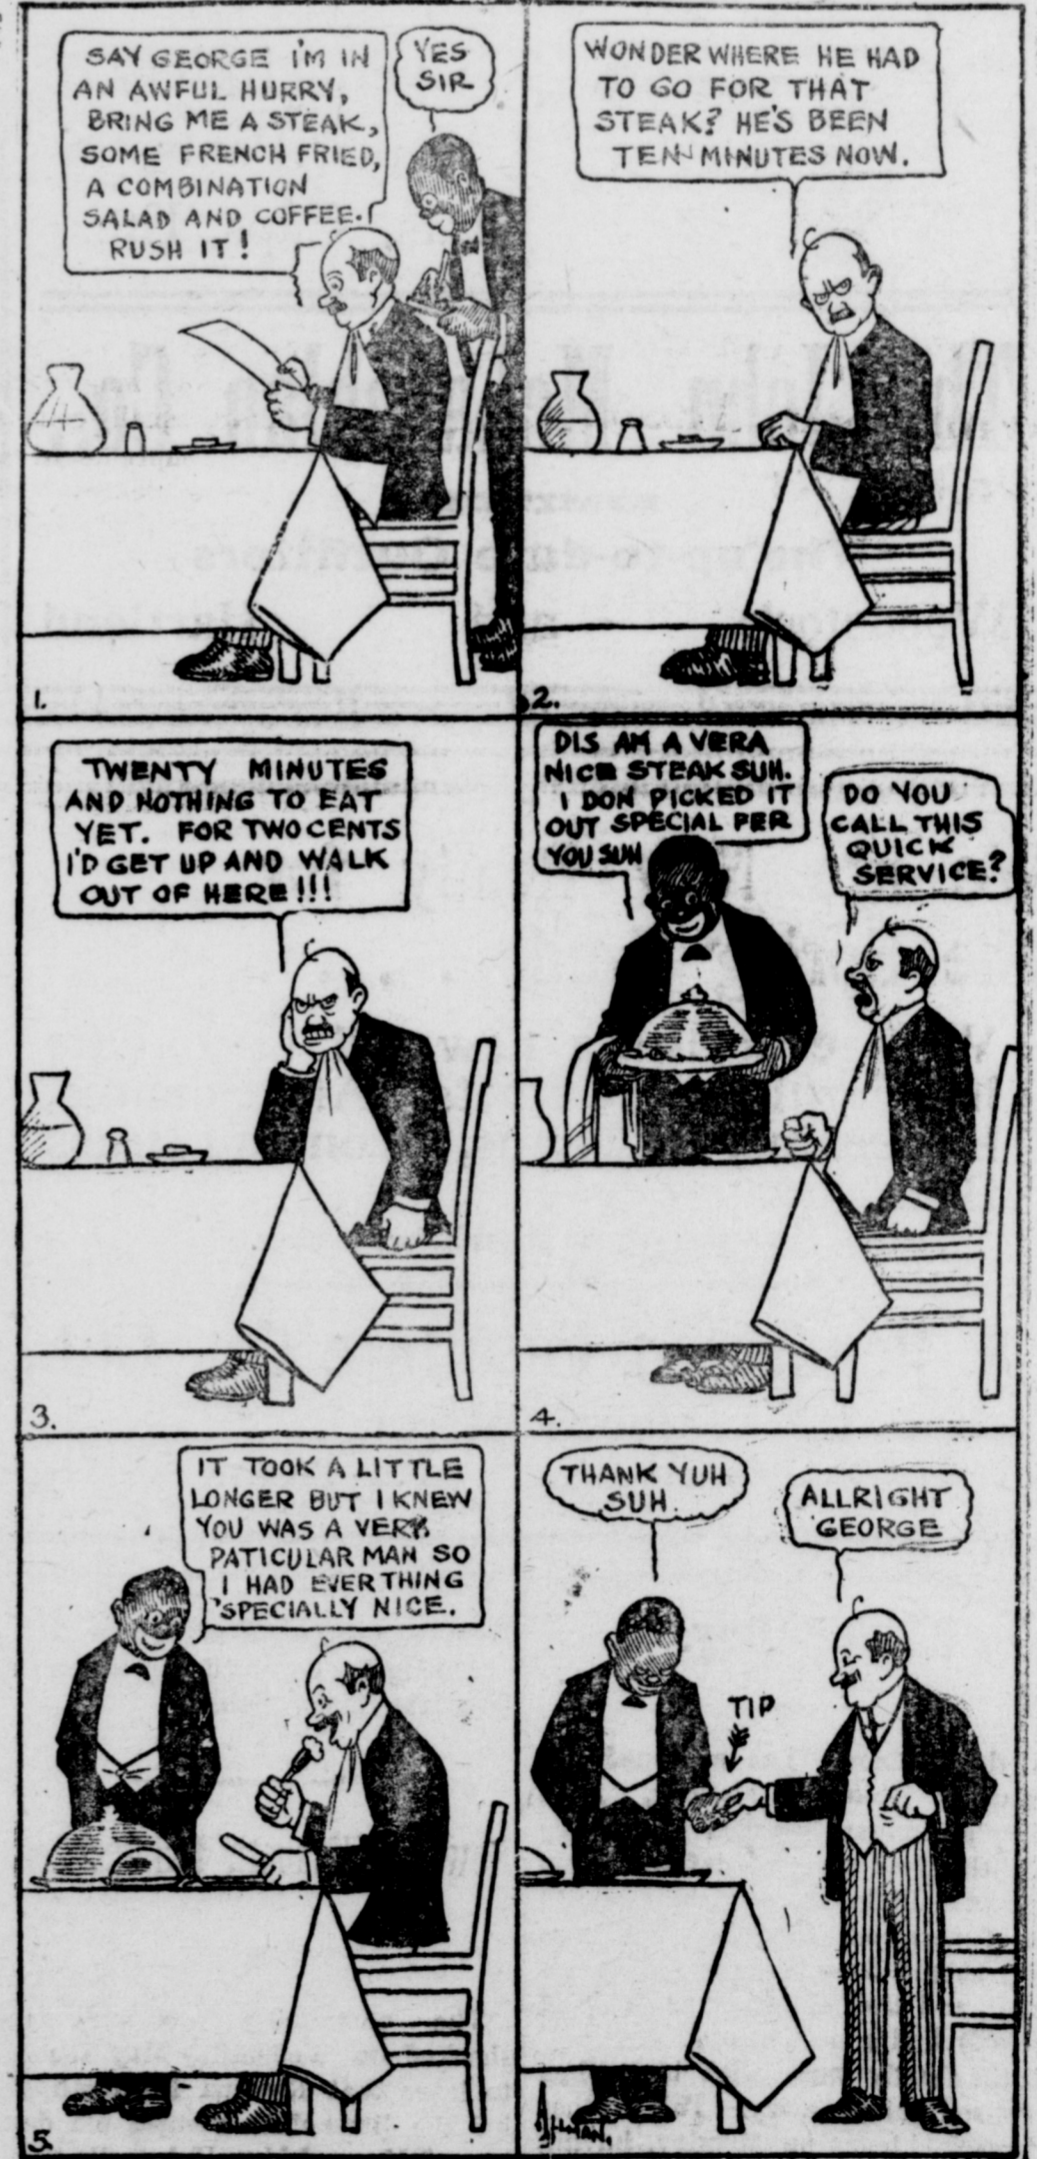

Breathe Catarrhone for five minutes occasionally, and it cures coughs and colds.

Breathe it five minutes four times a day and it cures Bronchitis and Catarrh.

Don't let your cold run on any farther. Cure it now by Catarrhone. Complete outfit, hard rubber inhaler, and sufficient liquid for three months' use, costs but one dollar; small size 50 cents. At druggists. The Catarrhone Co., Kingston, Ont.

One of human conservation, and are making extensive provisions of a practical sort for the preservation of health through simple, natural, healthful manners of living. We are striving to interest everybody in the value of fresh air, wholesome food, proper exercise, bathing, and other health-building factors, and we are striving also to give everybody a chance to take advantage of all these things. The greatest movement of all the ages is this new movement for conserving human vitality.

THEY ALL FALL FOR IT.

Oriental

Abrass II, Khedive of Egypt, is growing very fat, a circumstance the more noticeable because His Highness is so short. His physical condition makes him unpopular with his subjects, who see in it evidence that he apes the English. They were the first to fatten on the country.

The Gumless Stenographer.

Prof. Burton N. Gates of Amherst college is trying to develop the stingless bee. Why not have him try for the gumless stenographer while he's at it.

Reliable

The number of men and women who don't know what they are talking about is increasing in Canada. "Where do you get your information from?" "From the census report."

Hushaby, baby, lie still with your daddy;

Your mammy has gone to the club. She's giving a reading upon infant feeding.

In the meantime I'll fix you your grub.
