The Salmon Run About Springhill Reported Good

Residents of Springhill who were in the city May 16th., state that the first run of salmon has already passed that place and good catches were made by the local fishermen. There are still a few salmon there yet, however, and occasional catches are being made. Fly fishing will not start for some time yet.

The names of the special fishery guardians who have been appointed for the ensuing year as given out by Fishery Inspector H. E. Harrison, of this city, today, for the counties of Sunbury, Queens and Victoria and Madawaska and Carleton, are as follows:

Sunbury County—James Goan, H. H. Smith, Blissville. Mr. Fred Babbitt has been appointed acting overseer for Sunbury County.

Queens County—James Parks, Jas. Nelson, Asa Ryder, William Fox and John Palmer. Mr. A. C. Worden, of Cody's has been appointed overseer for Queens County.

Victoria and Madawaska—Frank Baird, George Wilson, Walter Hitchcock, Owen Goodine, Florent Martin, Joseph R. Levesque, Joyime Therrieu, Hippolyte Martin Victor Albert and Joseph Rousel.

Carleton County—Newcomb Parker, Chester; Russell L. Boyer, Victoria Corner; Robert Squires, Bath; John Arnold, Woodstock; Frank O. Porter, Meductic; Wm. E. Bell, Oakville, and John T. McBride; Lindsay.

The Department of Marine and Fisheries at Ottawa has appointed two fishery guardians at Meduxnekeag, in consequence of reports having reached them from residents of that vicinity that residents cross from Maine and dynamite the stream. The department are determined to put a sudden stop to this nefarious practice and will punish offenders to the full limit of the law.

The fishery guardians for York County were sworn into office by Fishery Inspector Harrison in the city yesterday and were also given instructions for carrying out their work.

Gleaner

NEWBURG

As I have not seen any items in our little paper for some time I thought I would write a few.

Farming is the order of the day with our men, and boys and house-cleaning with the ladies.

Mrs. Thomas Hourigan was visiting her friends at the corner Friday.

Arbour day was celebrated at our school here Friday.

Jimmie Gallagher, we are sorry to say is no better.

Mrs. John McLaughlin was visiting her daughter Mrs. Joe. Mitchel, Danville, recently.

Miss Geneva Montague, has returned home from a trip to town.

Mr. Jack McLaughlin is home for a few weeks from Upham's mill.

Ed. Jennings was delivering fruit trees around here to-day.

Mr. and Mrs. Arritus Cummings were visiting friends in Hartland last week.

KINGSCLEAR

We are happy in experiencing the beautiful May weather after the passing away of the cold dreary winter. The singing of the birds, croaking of the frogs, the roar of the brooks, and the singing of the "old songs" by the men as they float by on their rafts to Springhill, causes a cheerful wave to rest on this place as favoured with beautiful scenery.

The people in this community are in great sympathy with Mr. Charles Courser and family in their loss, the burning of their home a few days ago. Great bravery was manifested by the men of Kingsclear and Queensbury in saving the barns from destruction.

A very pretty wedding took place in the home of Mrs. G. A. Hammond the 8th when Mr. Joseph Morris and Miss Alice Sutton were married by Pastor C. N. Burton. The large number of presents received is evidence of the popularity of the bride. Miss Sutton's native home is Birmingham Eng.

Miss Myrtle I. Kelly, of Provincial Normal School, visited her parents at Long Creek the 10th, 11th, 12th of this month.

Mrs. Elisha Nevers, we are glad to learn is improving in health. We hope for her a rapid recovery.

Mr. W. Benjamin Long, a highly respected farmer of Kingsclear, passed away on the 10th. The funeral services were held in his late home on the following Lord's day, Pastor C. N. Barton conducting the services. Burial took place in Long's Creek Cemetery.

Tyler Kitchen, who has a contract on the Minto R. R. purchased a large team in Fredericton this week.

Mrs. Bertram H. Kelly is spending a few days with her parents at Swan Creek Queens Co. N. B.

Ernest Holyoke and sons expect to increase their potato business having purchased a potato planter from J. Clarke and Son, Fredericton. We wish them success.

The people of Kingsclear are rejoicing over the sure prospect of Railway Communication.

We are glad to see with us, if only for a few weeks, Harry Long of Minnesota. Mr. Long is one of our young men who has "made good" in the West. We hope to see him permanently settled in his native province.

Boston Advertiser: The movement on the part of American women to erect a memorial in honor of the men who lost their lives in the great Titanic disaster has for its secretary Mrs. John Hays Hammond. The idea originated with the women survivors of the wreck, who felt that there should be some public demonstration of their gratitude to the heroes who stood back and faced death that the women and children might reach safety. Mrs. Hammond has received a letter from Cardinal Gibbons approving the plan and gladly adding his endorsement. As yet plans are only tentative, and no definite place has been selected for the memorial.

The Reflections of X

How our worrying over the evil things tomorrow may bring us, or the good things it may not bring us, prevents us from enjoying the many good things of to-day. Indeed one of the most unfortunate phases of human nature is this propensity to forebode evils and ills which may, and in ninety-nine cases out of the hundred, never come. Perhaps the hundredth case would less seldom materialize were it not for our everlasting looking forward toward its coming. Furthermore this fretting over what the future may hold for one can in no wise serve any good end; it is wholly fruitless and foolish, and only tends to blind us to life's real values. The wise man or woman endeavors to make the most of to-day and some are wise enough to be quite happy in the very presences of what others call over-burdening troubles. Let us not darken to-day with the future, but brighten the future with to-day.

TWO YEARS SUFFERING

Brought on by a Severe Strain—How a cure was Found.

Mr. Joseph Stephens, Rosemount, Ont., is one of the great host who continually sound the praises of Dr. Williams' Pink Pills, and he has much reason to do so as they brought him from suffering to health, after he had spent much money and two years of time experimenting with other treatments. Mr. Stephens tells his experience as follows: "In the month of January, 1908, while working in a logging camp at Creston, B. C., I got my back badly injured. I suffered a great deal of pain and was almost helpless. I tried plasters, thinking they would help me, but they were of no use. I took several medicines, equally without benefit. Then I was advised to try electrical treatment and did so for a time, but without getting any permanent relief, and it began to look as though I was going to be permanently crippled. Then I was advised to undergo treatment with a specialist at Spokane, Wash. After examining me he said I was in a very bad shape and that the trouble was likely to result in Bright's disease. However he told me that he felt sure he could cure me. At a heavy expense I was under his treatment for three months, but did not get the least benefit. I was almost in despair, work was plentiful and wages good, but I could not work, as I was quite unable to bend. I was in this condition for about two years, when my brother, who was with me all the time, came across one of Dr. Williams' pamphlets and read of the great work Dr. Williams' Pink Pills were doing. He urged me to try them, but I thought it would be useless to spend more money after all the other treatment had failed. He insisted, however, and got a dozen boxes of the Pills and I began to take them. Before I had used a half dozen boxes I felt relief, and I continued taking the Pills until every vestige of the pain was gone, and I could raise my hands above my head and then bend until I could touch my toes with my fingers, something I had not been able to do for over two years. My cure was a great surprise to my comrades, and you may be sure I told them what brought it about. I am now as well and strong as any man in the country and I owe it all to Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Liberal Wins By Acclamation In Gaspé County

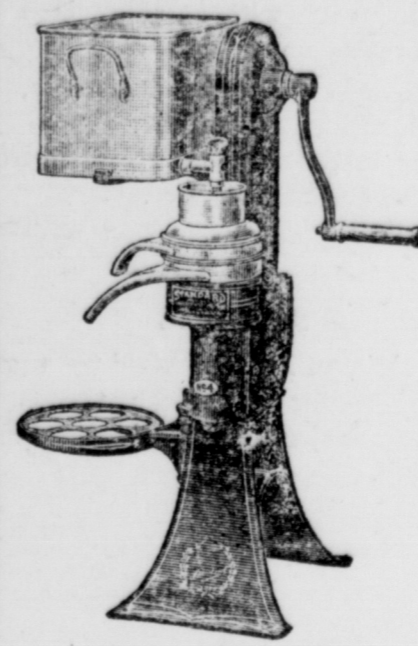

Grand River, Gaspé, Que., May 20—David Duguay, opposition candidate in Gaspé county, has retired, thus permitting the election of Gustave Lemieux, Liberal, by acclamation.

Gustave Lemieux is a brother of the Hon. Rodolphe, who was defeated in the federal election in Gaspé. The election in Magdalen Islands is still to be held.

Mrs. I Newton Thorne

The death of Mrs. Thorne, wife of Rev. I. Newton Thorne, mother of the late Mayor Newton Foster Thorne of Woodstock, took place on May 12th., at Cody's Queens County. Mrs. Thorne had been attending church and was on the way home when she was suddenly stricken and died almost immediately. Mrs. Thorne was formerly Miss Kirkpatrick of Hoyt Station and was the

Gains More \$\$ For You Because Skims Closer

The difference in using a separator that skims to .10 per cent. and the

Standard

cream separator which skims to .01 per cent. amounts to \$27 in one year with a herd of 20 cows. In other words the Standard cream separator gains 27 more dollars for you than the other machine, because the Standard skims that much closer. The amount of this gain is not guessed at by us. We have the figures to show you, the correctness of which are certified by one of Canada's leading dairy experts. The difference between .10 per cent. and .01 per cent. is small on paper but it amounts to a big listful of dollars at the end of a year. Very few makes of separators skim to .01 per cent. even under the most favorable conditions, whereas the Standard Cream Separator has averaged .01 per cent. tested under various conditions. In fact, adverse conditions have been found to affect the standard very little. Its records at dairy schools and agricultural colleges show that it is indeed a remarkable separator. You may have to pay a little more for the Standard than for other machines but the Standard soon makes up the difference by the extra dollars it gains for you by its closer skimming.

Free Booklet

Write for it. It shows tests of the Standard under various conditions and gives the figures referred to above proving the Standard's gain over others to be \$27.00 per year. Also get catalog explaining construction of the Standard in detail.

daughter of the late David Kirkpatrick She is survived by one stepson, George Thorne of Cody's; two brothers Edward Kirkpatrick and George of St. John and one sister, Mame, of Denver. Her mother, who resides at Gaspereaux, also survives.

All Ready For Opening

A meeting of the executive of the New Brunswick & Maine League, took place in Fredericton Friday evening. Everything has been arranged for the opening of the league. Joe Neptune, who was wanted by both Houlton and Woodstock, was awarded to Houlton. Umpires Murray and Hassett were selected as officials of the league Secretary Donald wired each of these men. He received a reply from Hassett, who said that he would be in St. John for the game next Friday. It is understood that Murray will be in St. John for opening games also. Both these men were recommended by President Barrow of the International League.

Those present at the meeting were Charles McCluskey and H Shaw, Houlton; J W Gallagher, Woodstock; J Farrell, Fredericton; D B Donald and Joe Page, St. John.

The Houlton manager opened negotiations with Frank Hughes of last year's Fredericton team, and it is likely he will wear the Houlton uniform during the coming season.

The men selected as umpires have been highly recommended by President Barrow of the International League Murray has been handling games in Boston and is considered one of the best outside of the big leagues. Hassett has been working in Maine, and is said to have given satisfaction in all his games

St. John River Commission In Session

(Bangor Commercial) The International St. John River Commission was in session Friday and Saturday at Van Buren and while there was no evidence taken the meeting of the commission was an important one, the members being given an opportunity to witness the sorting of logs

on the river at the St. John Lumber Company's mills. It was the delay in sorting of the logs of the spring drives that led to the bloodless "Van Buren War" of several years ago, and was the climax of a series of river difficulties that led to the appointment of the present commission by the governments of the United States and the Dominion of Canada to investigate the conditions and uses of the river. The commission started out to investigate the river in connection with its navigation for log driving purposes, but its authority was extended to a broader field and it was instructed to look into the question of the advisability and feasibility of conserving the waters of the river and the tributaries.

All the members of the commission were present at Van Buren Friday and Saturday, with their counsel. The board of consulting engineers, which has been working in connection with the commission, making an important survey of the river in order to furnish the necessary data upon which the commission will base a large part of its report, was not represented.

The commission visited the plant of the St. John Lumber Company and watched the work of sorting the logs of the drive as they passed through the sorting gaps and on down the river. In addition to that they made an inspection of the river from Woodstock to Van Buren.

It was arranged at this meeting to have another session in Van Buren, June 18. This will be an important meeting as the two consulting engineers, Hardy S. Ferguson of New York, and S. J. Chappleau of Ottawa, are to file their report before the commission. This report will represent the result of many months' work done by a large engineering crew under the direction of M. H. Ranney, of Mohawk, N. Y., who was field engineer for the commission.
