### COUNTY COUNCIL

Continued from last week

ft plank for staging \$4.75	
helpers \$12.00	28.75
To the Board of School Trustees, Woodstock, for flag pole	5.00
To Hull & Glidden, making irons for flag pole	3.00
To Woodstock Woodworking Factory for lumber for building stairs in attic of Court House, for flag pole \$9.00, to lumber for repairs on jail \$4.47	19.47
To Hamilton Bros. for 2 galvanized collars, 65, fittings 50, vent tap 75, time \$5.50, flag pole work	\$6.80
To Harry Walker for removing coal, ashes and dirt from basement of jail	8.00
	\$1410.29

H. A. PHILLIPS,  
EDWIN W. MELVILLE

The report was received and placed on file.

Coun. Williams on behalf of the Scott Act Committee said that they advanced Mr. Colpitts the sum of \$275.00. There was a large deficit and more money was required. We advanced him that sum or about it. It will appear in the account.

Mr. Colpitts, Scott Act Inspector was on motion heard and submitted his report as follows.

To the Warden and Councillors of the Municipality of Carleton.

I have placed my Account as Inspector under the Canada Temperance Act for the year 1911 in the hands of the Auditor.

The expenses incurred in the administration of the law are \$548.15 less than the year before, but we have not collected as much in fines. It is becoming more difficult to collect fines owing to the character of parties who have been selling liquor. Those who were able to pay have been driven out of business, and what business is done is in the hands of irresponsible parties who have no property.

The present law should be amended so that the Police Magistrate could issue a search warrant to be executed at night. As it now stands the search can only be made in the day time. The late train which runs through the County every night carries liquor contrary to law but it is delivered and ta-

ken away from the station before morning and we cannot reach it. I would recommend that the Council ask the Dominion Government to amend the law.

Seventy cases were tried during the year and thirty five convictions were made. Hereto annexed is a detailed statement of the same.

I also append a statement of the general financial result of the year's operations, which shows that the net cost of administering the law was \$1447.25. This is \$324.70 less than the year before.

Dated the 15th. day of January, A. D. 1912.

Respectfully submitted,  
B. COLPITTS,  
Inspector,

### Lecture on Apple Growing a Great Success

An Illustration Orchard Assured for Woodstock

A large audience assembled in the Court House on Wednesday evening to listen to a lecture on Apple Growing by Provincial Horticulturist, A. G. Turney and Premier J. K. Flemming. Mr. J. T. Allan Dibblee, President of the Board of Trade, occupied the chair and in a few well-chosen words introduced the speakers.

Mr. Turney expressed his pleasure at meeting such a large audience in this, the centre of the largest commercial apple-growing section of the province. But he said there was no reason why we should rest content with what we had done. Our supremacy in this respect was being threatened. Our export trade in apples had declined, and no new orchards of any size had been planted for many years. It was necessary, if Carleton County was to retain its place in the forefront of the apple-growing sections of the province, that new orchards should be set out and cultivated intelligently.

He then gave a number of lantern views showing the detail work in the three illustration orchards in the province. The Illustration Orchard at Maugerville, consisting of about 12-3 acres of old uncared for trees gave the lowest returns of any of the three orchards under his care, and yet it yielded a net profit of \$95, or about 14 per cent on the valuation put upon it by the owner.

The second orchard was in York County. Many of the trees were suffering from sun-scald. These were brought into better condition and the orchard yielded a net profit of \$89 per acre. The orchard on the farm of Lorne Steeves, Albert County, yielded the largest profit of the three, equal to \$181 per acre, or over 36 per cent on the owners valuation.

When the views had been shown, Mr. Turney put forward a proposition for the establishment of an Illustration Orchard near Woodstock. This was that the Board of Trade should raise the funds to purchase 10 or 12 acres of suitable land, pay for the trees and the cost of fitting and planting, which would amount to about \$1000. The Department of Agriculture would then operate it for six years, returning to the board any profit from the intercropping, and at the end of that time hand over the orchard to the Board of Trade. This should be a good business venture and he hoped the Board would undertake it.

Mr. Turney had with him a box of MacIntosh Reds which had been grown on one of the illustration orchards and these were passed around the audience.

In reply to questions Mr. Turney said the MacIntosh Red was an excellent apple for commercial orcharding, but would not advise planting it alone as it is a self-sterile variety and should be planted with other varieties which blossom at the same time. In regard to young trees, he knew it was difficult to get good stock and would advise co-operation in this. Where possible it was better to buy from local nurseries, but unfortunately we have not enough of these to supply the demand.

Concerning the railroad worm he said spraying would not remedy it. It is caused by an insect which lays its eggs under the skin of the fruit in August. This hatches into the tiny worm which makes its way through the apple in many directions finally emerging and passing the winter in the ground in a different state. Prevention is better than cure in this case and the apples should not be allowed to lie and rot on the ground but should be gathered up and destroyed.

Hon. J. K. Flemming was delighted with the hold the idea of fruit growing was getting on the people of the Province, and he was especially pleased with the interest taken in it in the County of Carleton. Our possibilities along this line are just becoming known, but already outsiders are enquiring for large acreage for fruit growing in New Brunswick. We have the soil and the climate to produce the very best apples, and all we now want is intelligent cultivation. Fruit-growing is both pleasant and profitable and if the idea gets a firm hold of the people it would help check the exodus from the farm.

### Helpful Hints on Hair Health

Scalp and Hair Troubles Generally Caused by Carelessness

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Woodstock only at our store—The Rexall Store. E. W. Mair.

The Government had been very fortunate in securing the services of Mr. Turney. He had worked along the right line and the work had grown so rapidly that they had had to appoint him an assistant. He hoped the demand would continue to grow.

In other parts of the province the Boards of Trade had taken up the proposition as laid down by Mr. Turney and he hoped the Woodstock Board of Trade would do the same, as we have no better fruit lands in the Province than in Carleton County.

He was very optimistic regarding the future of New Brunswick, and delighted with the spirit of co-operation that was being exhibited everywhere. Fifteen thousand families have to leave rural England every year and he believed we should undertake an energetic campaign to bring men from the old land to help re-create the abandoned farms of our province.

Chairman Dibblee expressed the pleasure of the Board of Trade in having the Premier and the Horticulturist address them, and assured them that Woodstock would not be behind the other parts of the Province, but would accept the proposition for an illustration orchard as laid down by Mr. Turney and Premier Flemming.

### Miss Jessie Macdonald

Miss Jessie Macdonald died at her home on Saturday, Jan. 27th., at 3.30 o'clock, after an illness of three months of paralysis, aged 56 years. She was the youngest daughter of the late Mr. and Mrs. James Macdonald. She leaves to mourn her loss two sisters, Mrs. W. W. Belyea, of Woodstock, and Mrs. Edward Ryan, of Unionville, Conn. The funeral took place on Tuesday afternoon at 2.30 o'clock from her late residence. Service was conducted by Rev. R. W. Weddall. Interment was made in the family lot in the cemetery. The pall bearers were: D. Munro, H. Lockwood, W. Loane and Dr. Pugsley.

**Shiloh's Cure**  
quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

### On The Line Of The Valley Railway

The building of the proposed Valley Railway should bring new life to many towns through which it will run. Some of these have already begun to feel an awakening thrill, among them is Meductic. This progressive little town is well located to become the centre of a considerable population. It is an old historic spot, and near it some stirring event occurred in early days. It has a beautiful location and excellent hunting and fishing privileges, and is well supplied with springs of crystal clearness. The soil is fertile and well adapted to farming and fruit growing. Near it are large tracks of spruce and hardwood, and cheap power can in the near future be obtained from the proposed plant of the Eel River Light and Power Company. With these two important factors at hand important manufactures should spring up there as soon as the Valley Railway is completed to give an outlet for the goods. The people are energetic and enterprising and have excellent schools and churches. They have an enthusiastic Board of Trade which has played in important part in urging the construction of the Valley Railway.

Many legends and traditions cling about this spot. One is to the effect that this was in early days a favorite place for holding a Potlatch after a treaty had been made. It is rumored that the present dwellers keep the custom alive in the form of banquets.

### Destructive Fire.

Fire broke out on Thursday morning about 12.45 in the shed of the Queen Hotel. The fireman were quickly on the scene and worked until nearly morning before the flames were under control. They worked under great difficulties as the night was bitterly cold, the thermometer registering 28 or 30 below zero. The Queen Hotel was entirely destroyed and the owners lost most of their furniture.

Miss Stephenson's Hotel was also entirely destroyed and she lost a large amount of furniture. She also lost all her vegetables and other provision which was in the cellar. Geo. W. Boyer proprietor of the Victoria Hotel, had his barn and shed burned. The ell of his house was damaged by fire and water and the main part of the house was damaged considerably by water, and some of their furniture was destroyed. The horses and cows were got out of the barn, but all the hay and oats was destroyed. Mr. Boyer was in Perth on the night of the fire. Glidden's Stable was saved with difficulty.

The insurance is as follows:—Geo. W. Boyer \$4,000; \$3,000 on house \$500 on barn and \$500 on furniture in the Royal C. M. Aughterton agent.

Marston and Monteith \$2500; \$1,000 in Phoenix; \$1,000 in Royal on the house J. C. Hartley agent. \$200 on house and \$300 on barn and shed in British and Canadian Underwriters, P. S. Marsten agent.

Miss Stephenson \$2200; \$1200 on house in Phoenix J. C. Hartley agent. \$600 on house in Germain American, C. M. Aughterton agent. And \$400 on furniture in New York Underwriters, Perley S. Marsten agent.

### Last Chance For Free Land

A reservation of fertile valley land is now open in Mexico. Homesteads Free. Only requirement is to have 5 acres of bananas planted within 5 years. An authorized company will plant the bananas and market them on shares. Your share should bring \$200 per acre annually. The Jantha Plantation Co., Block 2064, Pittsburg, Pa., U. S. A., distribute Mexican land in the U. S. and Canada. Write for particulars. You need not go to Mexico.

### BORN

LEPAGE.—At Winnipeg, on Saturday, Jan. 27th., to Mr. and Mrs. John T. Lepage, a daughter.

### DIED

COLE.—Mrs. Bridgett Cole, Friday, Jan. 26th., at the home of her daughter, Mrs. Daniel McCann, Union St., Bangor. The remains were taken to Cape Breton, N. S., her former home for burial.—Bangor Commercial.
