Nervous Diseases

In The Spring

Cured by Toning the Blood and Strengthening the Nerves

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs the strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfaillingly bring new health and strength to weak, tired and depressed men, women and children.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. William's Medicine Co., Brockville, Ont.

Three Mail Bags Stolen
From Porch at
Post-Office

Three bags of mail were stolen from the porch at the rear of the Fredericton post office Friday at some time between nine and ten o'clock. The mail was that which had arrived on the Woodstock train via the Gibson Branch of the C. P. R. The bags had been brought from the railway station and delivered at the porch in the usual way and the robbery evidently occurred shortly after they were left there as the bags were gone when the clerks went to get them.

The police were notified of what had taken place and now are working on the case. Chief Hawthorn stated this afternoon that nothing had been learned up to that time concerning the identity of the person or persons who had committed the crime.

This robbery is the first of the kind that has taken place at the local post office and keen public interest has been excited. It is realized that whoever is responsible for the theft of the mail-bags had a pretty good idea of the arrangement by which the mail from the Woodstock train was handled and was ready to act as soon as the bags were delivered at the post office.

The nature of the contents of the bags and the amount of registered mail contained in them is not yet known but it is expected that a report on this matter will be received soon. The mail which was stolen originated at points on the upper river from Edmundston to Woodstock.

It was reported this morning that letters which had evidently been taken from mail bags had been found on Shore Street and at other places in the eastern end of the city.

Great Stores of Wheat At
Fort William

Duluth, Minn., April 6—Fort William (Ont.) is awaiting the first chance to push its first steamer, laden with Canadian grain, toward the Soo. In the harbor there are 5,000,00 bushels of wheat stored in boats, the elevators are filled to capacity and 3,000 cars are standing in the railroad yards loaded with grain, aggregating something like 40,000,000 bushels waiting

to be moved. Meanwhile two big tugs that have been breaking a lane through the heavy ice are proceeding several miles a day.

Gale Carried House and Seven
People 200 Feet

Chicago, April 6—Eighteen persons were injured, many green houses were wrecked and a dwelling containing seven persons was blown 200 feet by a wind storm which swept across Niles Centre, north of Chicago late today.

Are Microbes In Your Scalp?

It Has Been Proved That Microbes
Aause Baldness

Professor Unna of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe caused baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebum, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it in Woodstock only at our store—The Rexall Store. E. W. Mair.
