SYSTEM IN BUSINESS.

Advantage of the Man Who Knows Where to Find Things.

Among twenty clerks employed by a New York importing house it was no easy matter for one to attract the attention of the manager. And it was not with any such idea, in fact, that young Gaven kept his desk and the papers in his care in the most neat and careful order. He did it just because he had a systematic mind and liked things in place.

He was always able at a moment's notice to put his hand on anything he needed. So when the manager happened to need a certain price list, copies of which had been given not only to Gaven, but to every one of the other nineteen clerks, it was Gaven who placed his hand on his copy while the others were just beginning to wonder where they had put theirs.

There was no comment on that, but a few days later when the manager again needed certain papers Gaven found them first.

"Aren't you the man who gave me that price list on Monday?" asked the manager. "Yes!" "Well, my private secretary has just been promoted, and I need a new one, a man who will know where to find things. Would you like the place?"

There was only one answer to that. That was how Gaven got his first step. —New York World.

After the Doctor's Call bring your Prescriptions to us

Effect of the prescription of the best doctor in existence is lost unless the medicines he orders are properly prepared. The druggist is just as important as the doctor.

Bring your prescriptions to us and know that they will be filled with the right drugs in the right way.

Each drug we dispense is pure and of the correct medicinal value, and our work is according to the highest scientific standards.

It is certainly true that here no chances are taken. Our drugs and our work produce the best results.

These things you should know.

Mrs Robert King

St. Stephen, N. B., Jan. 9.—Word was received here this afternoon from London, Ontario, announcing the death of Mrs. King, wife of Robert King, who was for several years a divisional superintendent on the C. P. R. in this province.

Mrs. King was the daughter of the late Mr. and Mrs. John Robinson, of this town. She had been operated on at the hospital and seemingly for a time was progressing favorably but suffered a relapse and passed away today. Besides her husband she leaves a daughter, Elsie, and a son, Frank. Three sisters, Mrs. Ada Paterson, Lois Robinson and Emma Robinson, and three brothers L. M. Robinson, of this town; Del Robinson, an engineer on the Maine Central, and Stanley, of St. Andrews, survive her.

At the close of the morning service on Sunday, the Rev. R. W. Weddall, on behalf of Mrs. Dr. Kinsman of Truro, N. S. presented to the congregation of the Methodist Church in Woodstock, a beautiful White Marble Baptismal font, of rich design, suitably inscribed to the memory of her father, the late George H. Connell, M. P. and the late J. C. A. Connell, Mrs. Kinsman, who was Miss Ida Connell, was for many years an active member of the Methodist congregation in this town, and after making her home in Truro, kept up her interest in the Church of her early youth the Methodist people of Woodstock will greatly appreciate the kindly interest of Mrs. Kinsman in their church.

Dust Extractor For Coal Mines.

A new coal dust extractor, consisting of a combination of pressure air jets worked by electricity directed upon the surface to be cleaned in order to raise the dust and simultaneous withdrawal of the dust by suction, has been given a successful demonstration by a Scottish electrical engineer, following a series of experiments conducted during the past winter. The apparatus is designed to be operated either by electric motor or by compressed air. It is said it will soon be introduced in some of the coal mines of the Dunfermline district.—Consular Report.

New Waterproofing Material.

Seeking a waterproofing suitable for military cloaks as well as tents, French army officials have decided that acetate of aluminium is better than rubber, boiled linseed oil, insoluble gelatin, shellac or any other of the many materials to be had. M. Ballard adds forty parts of water to one part of commercial acetate of aluminium solution, and fabrics are soaked in the mixture for twenty-four hours, then dried in air. It is claimed that the cloth is not only made waterproof, but is left supple and sufficiently porous for air to pass through it.

Wheat in Spain.

About 75 per cent of the total land under cultivation in Spain is given up to cereals. During the past decade the crop of cereals exceeded 3,000,000 tons. The land, however, is susceptible of a far larger production, and in fact enough wheat could be grown in Spain not only to exceed the consumption of its present population, but for a large export. There are vast tracts of arid land in the interior of the country which could be brought under cultivation by sinking artesian wells for irrigating purposes, for water is found in all parts of the peninsula at a small depth. That much has been done in this respect in recent years is evidenced by the fact that in 1906 the import of wheat and flour into Spain amounted to about \$21,000,000 and \$325,000 respectively, and in 1908 the import of wheat amounted to only \$2,900,000 and flour less than \$1,000.

The Deepest Well.

What is supposed to be the deepest boring in the world is at the little village of Osuchow, in Silesia, Germany, to a depth of almost a mile and a half below the surface. The bore is seventeen and one-third inches in diameter at the mouth and a little short of two inches at the bottom. The exact depth of the hole is said to be 7,348 feet. The experiments that have so far been made with the bore show that the temperature of the earth increases at the rate of 1 degree F. with each section of fifty-eight feet, or 1 degree C. for each 104.3 feet.

La Grippe's Victims.

Left Weak, Miserable and Prey to Disease in many forms.

One of the most treacherous diseases afflicting the people of Canada during the winter months is la grippe, or influenza. It almost invariably ends with a complication of troubles. It tortures its victims with alternate fevers and chills, headaches and backaches. It leaves him an easy prey to pneumonia, bronchitis, and even consumption. Indeed the deadly after-effects of la grippe may leave the victim a chronic invalid. You can avoid la grippe entirely by keeping the blood rich and red by an occasional use of Dr. Williams' Pink Pills. If you have not done this and the disease attacks you, you can banish its deadly after-effects through the use of this same great blood-building nerve-restoring medicine. Here is proof of the wonderful power of Dr. Williams' Pink Pills over this trouble.

Mr. Emmanuel Laurin, St. Jerome, Que., says, "I was seized with a severe attack of la grippe. I was obliged to stop work and remain in my bed for several weeks, and while I appeared to get over the first stages of the trouble, I did not regain my usual health. I suffered from headaches, loss of appetite and extreme weakness. I did not sleep well at nights, and would arise in the morning feeling tired and worn out. This continued for about two months during which time I was taking treatment but apparently without avail. Then I was advised to try Dr. Williams' Pink Pills, and I got a half dozen boxes. By the time I had taken three boxes there was a decided improvement, and actually before I had completed the sixth box I was enjoying my old-time health. I was strong as ever, could sleep well and eat well and no longer suffered from lassitude and headaches. I have proved the value of Dr. Williams' Pink Pills for the pernicious after-effects of la grippe, and can therefore recommend them to other sufferers.

Dr. Williams' Pink Pills cure by going to the root of the trouble in the blood, which they enrich, and make red and pure. These pills cure all troubles due to ad blood, and if you are ailing you should start to cure yourself to-day by taking this great medicine. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Flemming DeLong

The marriage of Miss D. Myrtle DeLong, only daughter of Mr. and Mrs. W. B. DeLong of Woodstock, N. B. to Warren K. Flemming was celebrated at the home of the bride's parents, at three o'clock, Wednesday afternoon, Jan 8th. Rev. A. C. Berrie conducted the ceremony. The bride, who was given away by her father, looked charming, gowned in cream colored satin with lace bertha and carried a large bouquet of white roses and maiden hair fern. The parlors were tastefully decorated with evergreen intermingled with white roses. During the ceremony the bridal couple stood beneath an evergreen arch and wedding bell.

Among the out of town guests were Miss Scribner of St. John and Mr. Boyd of Winnipeg.

The bride received many beautiful gifts including cut glass, sterling silver, fine china and hand embroidered linen.

Mr. and Mrs. Flemming left by the evening express for St. John. A number of friends were at the depot to see them off and extend congratulations.
