 AND DESTRUCTION\***  
**COUNTRY**

Continued from page 3]  
 Coming up out of the south-  
 west early on Friday morning,  
 just as spring was ushered in,  
 the storm swept with startling  
 suddenness diagonally across the  
 country from Northern Texas to  
 Western Pennsylvania, bisect-  
 ing the Mississippi Valley and  
 moving northeastward across  
 the Ohio into the great lake re-  
 gion.  
 Shifting winds of great vio-  
 lence, accompanied in various  
 sections by snow, sleet and hail,  
 characterized the storm, easily  
 the most destructive of the year,  
 and rarely equalled in the ex-  
 tent of its sweep and the dam-  
 age it did. Buildings toppled  
 before the blow in nearly a dozen  
 states, and death lay all along  
 in its wake.

The property loss was heavy all along  
 the storm's track. Besides demolishing  
 or unroofing buildings and felling trees,  
 the high winds, rain, hail and sleet did  
 serious damage to early crops, accord-  
 ing to reports from some of the affect-  
 ed sections. Estimates of loss by dam-  
 age to property of all sorts from Indi-  
 ana and Michigan alone total \$2,000,000,  
 about evenly divided between the two  
 states. Early exports of losses rang-  
 ing from \$25,000 to \$500,000 or more  
 from various cities and sections scat-  
 tered over the region indicated that  
 the sum total would reach large figures.

Wires fell in all directions before the  
 blow. Not in many years has there  
 been such prostration of telegraph and  
 telephone service. Chicago was cut off  
 for hours communication with points  
 east. Only by devious routes was con-  
 nection finally established. Last night  
 conditions had improved materially, but  
 it will be several days before normal  
 service is restored. Railroad traffic  
 was seriously delayed in many districts  
 where wire communication was crippled  
 and washouts occurred.

The wind, which wiped out so much  
 property and cost so many lives, attained  
 record velocities at some points. Det-  
 roit reported 88 miles an hour, the Wea-  
 ther Bureau high record in that city.  
 A velocity of 84 miles was recorded at  
 Toledo, and the wind was blowing 88  
 miles an hour at Buffalo at 8 o'clock  
 last night. Memphis reported 64 miles  
 and Louisville 52 miles.

Cold Weather is trailing the destruc-  
 tive blow. The storm seems to have  
 spent its force, and to be taking the ac-  
 customed route of such disturbances,  
 out via the St. Lawrence Valley.

Two lives were lost on Cuba Lake,  
 says a Buffalo telegram, and a score of  
 fishermen narrowly escaped death on  
 Lake Erie off Buffalo Harbor through  
 the sudden breaking up of the ice under  
 the tremendous wind pressure.

Probably fifty people are dead from  
 the violence of the storm in the Mis-  
 sissippi and Ohio Valley States, sweep-  
 ing northward to the Great Lakes. The  
 property loss is impossible to estimate  
 until remoter points, now shut off from  
 communication, are heard from, and re-  
 ports from such place, it is feared, will

increase the death list.  
 In Tennessee, the storm swept up  
 from the south-west, through the heart  
 of Middle Tennessee, and concentra-  
 ting its fury on Murfreesboro, injuring  
 one man fatally, and doing damage es-  
 timated at half a million dollars.  
 The storm in Middle Tennessee prac-  
 tically followed the track of the hurri-  
 cane which cost twenty lives last week.  
 In Indiana the storm was of tornado  
 proportions, and it did damage estimat-  
 ed at a million dollars. Late reports  
 from over the state increased the dam-  
 age, but the death list remained at two  
 although several were reported fatally  
 injured.

**SERIOUS DAMAGE RESULTS IN  
 CANADA.**

TORONTO, March 2.—Toronto was in  
 the throes yesterday of the fiercest  
 equinoxial gale that has visited this dis-  
 trict in years. From the south-west  
 and west a fifty mile wind raged through-  
 out the day. Numerous buildings in the  
 course of destruction were damaged.  
 Shacks were overturned, and roofs were  
 lifted off in the outskirts of the city.  
 Trees were uprooted. Awaing were  
 ripped from store fronts. Windows  
 were smashed, signs were torn from  
 their hangings, and telephone and elec-  
 tric light wires were broken in all parts  
 of the city.

Passengers from Southampton to  
 Toronto were spectators of such scenes  
 as they cannot hope to ever see again  
 in their lives. At 2.30 in the afternoon  
 some telegraph wires were blown  
 down and across the carriages when  
 in motion. The engineer stopped the  
 train as soon as possible, and it was  
 found that the wires had wound around  
 the ventilators and had become gener-  
 ally entangled in the carriages. Large  
 numbers of the passengers assisted in  
 removing the entanglements, but it was  
 some time before the train moved on  
 again. All the way along the tracks on  
 both sides of the road hundreds of big  
 trees were lying down, torn and twisted.  
 Others were splintered into matchwood  
 and lay about in quivering fragments.  
 Some were turned upside down, the  
 roots gyrating in the gale, the branches  
 running into the soft ground.

At Paisley the roof of Knox Church  
 was lifted clean off and carried away  
 for a quarter of a mile, sailing like an  
 aeroplane.

At Southampton a large part of the  
 roof of the Knetchel Furniture Com-  
 pany building was torn out and thrown  
 away like a piece of paper. From  
 Wingham, Durham and Owen Sound

great damage is reported.  
 At Hamilton no loss of life occurred,  
 but many miraculous escapes have been  
 reported. Thousands of dollars of  
 damage was done.  
 In Western Ontario this afternoon  
 and not a country escaped damage.  
 Everywhere wires were down and the full  
 extent of the damage will not be known  
 for some days.  
 At Sarnia and Windsor the water  
 fronts were badly damaged. At Chat-  
 ham the tower of the big Central  
 School was demolished. At Watford  
 the roof of the Dominion Hotel was  
 carried a block over the heads of the  
 people in the streets. At Berlin the  
 roofs of St. Jerome's College and the  
 Kimmel Felt Company were damaged.  
 The Mooney Biscuit Company plant  
 at Stratford suffered.  
 In London a warehouse attached to  
 the London Concrete Machinery Com-  
 pany was demolished, and hanging signs  
 of all descriptions were wrecked, while  
 several store windows were blown in.

Ottawa, March 22.—The tail end of  
 the cyclone came screeching and howl-  
 ing into Ottawa yesterday afternoon  
 but fortunately did not do any serious  
 damage, although a number of tele-  
 phone, telegraph, electric light and  
 street car poles were blown down. Miss  
 Rebecca Fine had a remarkable es-  
 cape. A storm window, blowing from  
 a building on Metcalfe street as she  
 was passing, fell over her head, her  
 head going through the panel of glass.  
 She was slightly cut about the face.  
 Had the sash hit her it would have  
 been instantaneous death.  
 A wash-out occurred on the Mont-  
 real-Ottawa line of the Canada Pa-  
 cific Railway between Navan and  
 Hammon, which delayed traffic for  
 over four hours.

 intentions.
