

ZAM-BUK PROVED BEST Ambulance Brigades Adopt It.

Zam-Buk has now been selected as the balm to be carried by the members of the St. John Ambulance Brigade. This is further proof of its superiority.

Mr. G. W. Pratt, of 16 Southview Avenue, Toronto, Superintendent of the Riverdale Division of the St. John Ambulance Brigade, writes: "Both in personal use and in first-aid work, I have proved Zam-Buk to be of great value. I have used it for the past five years, and do not believe there is any other balm to come up to it."

Mr. Geo. H. Westmore, of 127 Yonge Street, Toronto, Divisional Superintendent of the St. John Ambulance Brigade also writes: "I am pleased to report that the members of this Brigade use Zam-Buk when on public duty, and find it very useful. It is a wonderful healer. Personally, I constantly use Zam-Buk in my calling as a chiropodist, and find it very helpful in healing sore feet, and as a dressing for corns and bunions after treatment and extraction."

Surely a balm that is worthy of a place in the wallet of an ambulance officer should find a place in your home! You may not require it to-day or next week, but as accidents don't give warning, be prepared. Zam-Buk is compounded on the latest scientific lines. It is at the same time soothing, healing and antiseptic; keeps good, Zam-Buk is a sure cure for skin diseases, eczema, piles, old sores, cut, burns, poisoned wounds, ringworms, abscesses, sprains, scalds, boils, ulcers, blood-poison, etc. 50 cents, as all druggists and stores. Refuse harmful substitutes and imitations. There is nothing "Just as good."

Wisdom of Solomon

The ministers of Chicago were asked recently by the Chicago Tribune to compile what they considered the ten wisest sayings of King Solomon. The result in the order named was for the following ten proverbs:

He that is slow to anger is better than the mighty; and he that ruleth his spirit than he that taketh a city.—Proverbs 6: 32

Go to the ant, thou sluggard; consider her ways, and be wise.—Proverb 6: 6.

Wine is a mocker; strong drink is raging; and whosoever is deceived thereby is not wise.—Proverbs 20: 1.

A soft answer turneth away wrath; but grievous words stir up anger.—Proverbs 15, 1.

There are three things which are too wonderful for me, yea

four, which I know not, The way of an eagle in the air, the way of a serpent upon a rock, the way of a ship in the midst of the sea, and the way of a man with a maid.—Proverbs 30: 18, 19.

old in the way when he is old from it.—Proverbs 22: 6.

A good name is rather to be desired than riches, and love is better than silver and gold.—Proverbs 22, 1

The fear of the Lord is the beginning of knowledge, but fools despise wisdom and instruction.—Proverbs 1, 7.

Righteousness exalteth a nation but sin is a reproach to any people.—Proverbs 14, 34.

Only 20 Years of Forest Supply Left in United States.

The number of wage earners in the United States employed in the lumber industry is over 800,000; the value of the product each year is over \$1,200,000,000. Forests in the United States cover over 555,000,000 acres. Forests publicly owned contain one-fifth of all timber standing; forests privately owned contain at least four-fifths of all standing timber. The timber privately owned is not only four times that publicly owned, but it is generally more valuable.

The present rate of cutting is three times the annual growth of the forests in the United States. Many people estimate that because of the use of steel and concrete less lumber is being used, but this is an error. Statistics show that because of constant increase in population more lumber is consumed every year, and unless steps are taken in the near future to reforest and conserve timber, twenty years hence forests in the United States will have been practically eliminated.

CHAMPION STALLION DIES.

Reading, Pa., Sept. 12—"Go Between," the famous racing stallion, winner of the Suburban handicap in 1906, fell dead under the wire as he won the mile running race at the Berks County Fair here yesterday.

Will Be Cancer's Turn Next.

At the close of the recent World's Medical Congress, a congress which drew 7,400 of the World's most famous physicians to London, after a recapitulation of man's triumphs over the ills to which the flesh is heir, the sobering thought remained that cancer is yet unvanquished, and the savants adjourned with the resolve, unexpressed but heartfelt, to add the cure of cancer to the other triumphs of medicine before the convening of the next Congress at Munich in 1917.

Beyond diplomatic protests, Japan will take no action against China until she has exchanged views with the British government. The Yang-Tse Valley, it is pointed out, is the subject of a special agreement between the allies.

Bearing Down Pains

What woman at sometime or other does not experience these dreadful bearing down pains. Mrs. E. Griffith, of Main street, Hepworth, Ont., says: "A heavy bearing-down pain had settled across my back and sides. I was often unable to stoop or straighten myself up. Many times each night I would have to leave my bed with the irregular and frequent secretions of the kidney and just as done out in the morning as on retiring."

I was languid and would have to let my housework stand. Nothing I had tried would benefit me. I learned of Booth's Kidney Pills and concluded I would try them, which I did and soon found the long sought relief. My back strengthened and I began to feel better and stronger. I now enjoy my sleep without being disturbed and feel grateful to Booth's Kidney Pills for what they did for me."

Booth's Kidney Pills are a boon to women. She would know less of backaches if she took more of these wonderful pills. They are nature's greatest specific for all diseases of the kidneys and bladder. All druggists, 50c. box or postpaid from The R. T. Booth Co. Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

SUGAR KING DEAD.

New York, Sept. 8—Wm. F. Havemeyer one of the organizers of the American Sugar Refining Company that absorbed the business of the Havemeyer Bros. refineries founded by his father, died suddenly yesterday, at the home of his son-in-law, W. R. Wilcox, former chairman of New York Public Utilities Commission. He was 63 years old.

Ocean Going Zeppelin Filled For First Flight

FRIEDRICHSHAFEN, Germany, Sept. 4—Zeppelin 12, a new marine dirigible and the biggest yet, was filled to-day for its first flight on Monday. It is nearly 525 feet long and just over 54 feet in diameter, and has 820 horse power.

The company's engineers think it could cross the Atlantic Ocean without undue risk.

The dirigible fills the company's largest hall here.

That Count Zeppelin intends to build still larger air cruisers is indicated by plans under consideration for a larger revolving balloon shed.

Of the ocean going steamships plying between New York and Europe those nearest in size to the new Zeppeline are the Prinzess Irene, 525 feet long and 60 broad having 9,000 horse power engines; the Koenig Albert, a sister ship; the Moltke and the Bluecher, each 525 feet long and 62 broad, with 9,500 horse power engine, and the Chicago of the French line 524 feet long and 57 broad, with 9,200 horse power engines.

ANOTHER ROMAN FIND IN BRITAIN.

Two Roman graves, containing very fine examples of pottery, were found during excavations on the Syndale estate, which belongs to the family of G. C. H. Wheeler, M. P. for the Faversham division of Kent, in which the estate stands.

The articles found in the graves include two jars (intact), one of them of very graceful design; several pieces of pseudo-samian ware (two or three of these also being intact), and some fragments of a tear-glass, a glass vase, and a bronze ornament.

A Roman camp was located near the site of the discovery, and it is probable that the graves were those of Roman soldiers, the site being, perhaps the camp burial ground.

HARRY ORCHARD TO APPLY FOR A PARDON

Boise, Idaho, Sept. 6.—Harry Orchard, self-confessed assassin of former Governor Frank Steunenberg, and at one time sentenced to be hanged, has published the required notice in a Caldwell paper that he will apply to the Board of Pardons at the October meeting for a full and absolute pardon. A church of Waukesha, Wis., is at the head of the movement for pardon. Orchard is a Canadian.

Contrary to popular belief forest fires seldom travel more than two or three miles an hour. Even in extreme cases it is questionable whether the burn at a rate of more than six to ten miles an hour.

The supply of talk, exceeds the demand.

The best meal will be spoiled if the coffee be of poor quality.

Seal Brand Coffee

will save even a poor meal from being a failure.

Narrow Escape For Caribou.

Caribou village had a narrow escape Tuesday night from being burned up. Johnston Brothers' barn, on the Washburn road, three quarters of a mile from the village, was wholly destroyed, loss, \$1,000, no insurance. Just across the road Mrs. John Rogers home was burned; loss \$1,800, with \$1,000 insurance. The next house on the road, E. B. Kinney's, was also burned, loss, \$1,200; insurance, \$600. The fire started in the Johnston barn from the playing with matches by children. The wind was blowing strongly at the time right onto the most thickly built part of Caribou village, and many roofs and other places caught, but the people were alive to the danger, making strenuous and successful efforts to kill the various fires as soon as they started. It seems only the merest chance that the village was saved. Congratulations to Caribou.

—Fort Fairfield Review.

World's Biggest Hotel To Be Built In New York.

NEW YORK, Sept. 10—Title to the large plot extending along the east side of Broadway between Forty-fourth and Forty-fifth streets changed hands to-day. The greater part of the plot is now occupied by the New York and Criterion theatres and has been owned by a syndicate of which Klaw and Erlanger have been in the largest stockholders. The new owner is the Century Holding Company, which purposes to erect a twenty-four storey hotel on the site. The hotel is designed to be the largest in the world, containing 1,800 guest rooms. It will represent an investment of \$12,500,000. If the plans of the promoters do not miscarry the hotel will be completed and ready for opening within fifteen months.

A few wagonloads of ashes scattered anywhere on the farm makes an immense amount of difference in the crop.

Opposed To Immigration Of Orientals

VANCOUVER, Sept. 5—The Westminster Presbyterian, representing the Presbyterian denomination in Vancouver and all the lower mainland, yesterday passed a long resolution as their policy on Oriental Immigration. They view with alarm the ever-increasing army of Orientals whose influence is felt in social, economic and even moral conditions. It says:

"The situation is already exceedingly serious. One in every nine of our population is an Oriental, and as a large proportion of the number are men, it means that one man out of five in British Columbia is an Oriental."

The Presbyterian proposed the exclusion of Oriental laborers until the proportion of Orientals to Occidentals is one to thirty of the population of British Columbia.

One hundred and thirty pilgrims from Mexico, who are relying on the efficacy of prayer as the means of bringing about peace and prosperity in that country, arrived in New York on their way to Rome and the Holy Land Monday on board the Montserrat, of the Spanish Line. The party is in charge of Archbishop Leopoldo Ruiz, of the diocese of Michoacan, Mexico, who said that the pilgrimage was the result of a widespread belief in Mexico that prayer would bring peace to the country. There were no men of fighting age in the party.

Russian women have now taken violently to sport, football, the high jump and rowing being in favor.

Concrete is the best building material

A BROAD statement—Yet literally true. The aim of man from the beginning has been to make his building materials as nearly like natural stone as possible. The great labor required to quarry stone led him to seek various manufactured substitutes. The only reason he ever used wood was that it was easiest to get and most convenient to use. Wood is no longer easy to get. Like most building material, its cost is increasing at an alarming rate. The cost of concrete is decreasing. So, from the standpoint of either service or economy, Concrete is the best building material. Canada's farmers are using more concrete, in proportion to their numbers, than the farmers of any other country. Why? Because they are being supplied with

Canada Cement —

a cement of the highest possible quality, which insures the success of their concrete work. The secret of concrete's popularity in Canada lies in the fact that while we have been producing the use of concrete, we have also been producing, by scientific methods, a cement so uniformly high in quality that the concrete made with it gives the complete satisfaction our advertisements promised. Concrete would not have been in such universal use today, had an inferior grade of cement been supplied. Insist upon getting Canada Cement. It is your best assurance of thoroughly satisfactory results from your concrete work. There is a Canada Cement dealer in your neighborhood.

Without this label it is not "Canada" Cement.

Write for our Free 160-page book "What The Farmer Can Do With Concrete". No farmer can afford to be without a copy.
