We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. AGRICULTURAL SOCIETY.

There will be a meeting of the Agricultural Society at the Council Chambers in Woodstock at 3 p. m. Saturday 25th Inst.

The Committee appointed re site for the new grounds will probably report at this meeting.

Mr. and Mrs. Charles Buxton and little son who have been visiting his parents left Monday for their home in Cabano, Que.

Meeting of Agricultural Society

A meeting of Carleton County Agricultural Society was held in the Council Chamber on Wednesday afternoon, President Strong in the chair, when the question of new grounds was discussed.

A committee reported that it could not secure the grounds, near the old site of Drysdale's factory, inasmuch as the Bull estate did not wish to sell a part but all the property. The Smith estate was willing to sell its part of the land referred to.

The following gentlemen were appointed to wait upon Mr. A. B. Connell and find out what arrangements could be made for a sufficient amount of ground necessary for the Agricultural Society, now held in trust for the town by the mayor and A. B. Connell, and situated in the vicinity of the golf links: James W. Gallagher, J. T. A. Dibblee, Dr. Rankin, J. R. Brown, Wm. Balmain, A. D. Holyoke and T. C. Strong. The committee will report at a meeting to be held in the town hall on the 25th inst.

It is thought that after securing the ground there will be no difficulty in getting the buildings erected and the trotting park levelled and graded as some of the Valley Railway contractors will be finishing their sub-contracts in the early summer and they have the facilities to do the work quickly.

The largest amount ever collected from the water department in one year was received last year under the efficient chairman of the committee E. W. Mair.

Strike On Bangor & Arcoostock Railway.

BANGOR, Me. Jan. 18.—The engineers and firemen of the Bangor and Arcoostock Railway struck today. The directors yesterday refused to grant an increase in wages, insisting that the earnings of the road would not permit it, and were at once notified that the men would go out in 24 hours.

The road extends through the eastern part of the state from the Canadian border to Penobscot Bay, affording the chief outlet for the product of the great print paper mills of Northeastern Maine. The possible effect of the strike on the shipment of paper gives the movement an importance outside the state. The road also carries the extensive potato crop from the same territory.

The men demand the standard scale paid by other roads.

CENTREVILLE

The people of this place who have invested a small amount for electric lights along the street in front of their dwellings seem well satisfied with the small investment.

James White has been in failing health for some time and of late has been compelled to keep his bed. His son Murry came home from the West a few days ago on account of his father's illness.

J. B. Daggett has purchased the old school building and is preparing to move it on the lot now occupied by his store. The store now used will be moved across the street.

Rev. Mr. Waldon has been considering with the Centreville church the advisability of holding special meetings for a time here.

Charles Cahill reports a thriving business in the Restaurant line and will no doubt by his genial ways and unstinted attention attract to himself many customers.

There is large quantities of farm produce being hauled to the station although prices have dropped a little.

There is considerable quantities of lumber being got out for the Railway contractors at various points along the line.
