After any Sickness

nothing so rapidly restores health and vigor as SCOTT'S EMULSION. It is the essence of natural body-nourishment, so medically perfect that nature immediately appropriates and distributes it to every organ, every tissue—feeding, nourishing and restoring them to normal activity.

SCOTT'S EMULSION is not a patent medicine, but is nature's body-nourishment with curative, upbuilding properties and without a drop of drug or alcohol. It contains superior cod liver oil, the hypophosphites of lime and soda with glycerine, and is so delicately emulsified that it enters the system without digestive effort—builds, tones and sustains.

After croup, whooping cough, measles and other child ailments it is nature's ally in restoring health.

After grippe or pneumonia it imparts strength and health, and for colds, coughs, sore, tight chests and throat troubles SCOTT'S EMULSION gives the greatest relief known.

Peace Note Terms Not Made Known

London, Jan. 18.—The greatest reserve is maintained by the Turkish peace plenipotentiaries here in regard to the note handed to the Ottoman government yesterday by the European ambassadors at Constantinople. All discussion of the merits of the note is avoided by them on the ground that the Porte alone has all the facts for an exhaustive judgment.

Osman Nazami Pasha, the Turkish ambassador to Germany, said, however, he could not help remarking that Europe, which four months ago had proclaimed the principle of the maintenance of the state of things existing before the war, whatever the result of the conflict might be, has now taken the strange course of demonstrating its neutrality by making in the note open allusions to the possible loss by Turkey of Constantinople and some of her Asiatic provinces when it says that a resumption of the war would "bring into question the fate of the Turkish capital and perhaps an extension of hostilities to the provinces of Asiatic Turkey."

With such evidence of European sympathy Osman Nazami Pasha added:

"Nobody could consider the Porte too exacting if it asked for an explanation of what the powers mean by moral and material support judged by the efficacy of the benevolent support so lavishly pointed out in the ambassadorial note."

The same can, he said, from the Turkish point of view, be asked about the power's attitude concerning the islands in the Aegean Sea. He continued:

"Even admitting for the sake of an argument that Turkey is ready to yield the islands in the Aegean Sea, how can she cede them to the powers on the simple promise that their settlement will exclude all menace to the security of Turkey when Europe has just given such tangible proof of how little her promises are worth."

The delegates of the Balkan allies as a whole are relatively satisfied with the situation, but they do not believe the end of the negotiations is near as the Porte is not likely to give a categorical answer to the note of the powers.

The Greeks hope to be able to demonstrate to the powers that Greece can occupy the islands giving such guarantees as will secure the execution of the will of Europe, namely, "to exclude all menace to the security of Turkey," in the future. The Montenegrin government in a long note addressed to the powers to-day, relative to the delimitation of Albania, declares that the annexation of Scutari, Ipek and Jakova by Montenegro is necessary to that kingdom's security and political and economic development and rather than renounce this logical and

Pale Anaemic Girls.

Find New Health Through Dr. Williams' Pink Pills for Pale People.

There must be no guesswork in the treatment of pale, anaemic girls. If your daughter is languid, has a pale, sallow complexion, is short of breath, especially on going upstairs; if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anaemia—which means poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life—delay may even result in consumption, the most hopeless of diseases. When the blood is poor and watery, there is only one certain cure—that is Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. Dr. Williams' Pink Pills actually make new blood, which flowing through the veins stimulate the nerves, increases the appetite, give brightness to the eye, a glow of health to the cheek, and makes weak, despondent girls full of healthy activity. The case of Miss J. H. Lassalle, Sorel, Que., is typical of the cures made by Dr. Williams' Pink Pills. She says: "I was weak and all run down. My face was pale and covered with pimples. My lips were pale. I suffered from pains in all my limbs, which would at times be swollen. I was hardly ever free from headaches, and I found work about the house a burden, as the least effort left me fatigued and breathless. I had no appetite, and notwithstanding that I was constantly doctoring I seemed to be growing worse all the time. One day mother said that she thought I ought to try Dr. Williams' Pink Pills, and I decided to do so. I soon discovered that I had found the right medicine and after using nine boxes I was once more enjoying the best of health, and I have not been unwell a day since."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
