TOWN OF SOLOMAN  
 WIPED OFF THE MAP.

Nome, Alaska, Oct. 10.—The storm that destroyed Nome, wiped the town of Solomon entirely off the map. Not a building of any sort in the settlement, which had a population of 300, remained standing after the gale. It is reported all the inhabitants escaped with their lives when the town was blown away.

SEVERAL DEATHS CAUSED BY  
 VIOLENT WIND STORM.

LACROSSE, Wis., Oct. 11.—A violent wind storm which swept over southeastern Wisconsin last night caused the death of several persons and heavy property damage.

Death In Trail Of Jap  
 Typhoon.

London, Oct. 11.—The recent typhoon over the east and northern parts of Japan, caused great damage. The total death-roll is put at 360.

The most serious single disaster was on the Hokkaido Railway, where a passenger train fell into a river. The driver was entering a tunnel, and noticed that in parts it had cracked. On nearing the centre he found that it had totally collapsed. Fearing the rest of the tunnel would fall in and bury his train, he backed out. Unfortunately there were no means of communicating with the signal-box, and the signalman had shifted the points, with the result that the train, instead of keeping to the main track, ran on to a siding and thence into the river.

Another disaster was that which overtook a school treat, which was ascending Mount Fujiyama, the sacred Mount of Japan. They lost their way in the blinding mist, and most were frozen to death. When the rescue party came upon them they found the three teachers frozen stiff, each with one of their young charges tied on his back.

As no cloud is without a silver lining, it is pleasant to report that the storm did immense good to the rice crop.

The Militants Horsewhip The  
 Jail Governor

London, Oct. 11.—Militant suffragettes today attacked and severely maltreated Dr. Francis Edwad Forward, the deputy governor and chief medical officer of Holloway jail, where so many of them have been imprisoned. Dr. Forward was walking along the street when he was assailed and he was heavily belabored and bruised, but he was able to make his escape. Two women caught hold of him and held him, while a third beat him with a horsewhip. The suffragettes accused Dr. Forward of being responsible for the forcible feeding system, which he denies.

FIRST LAND AND APPLE SHOW  
 OPENED AT WINNIPEG.

WINEIPEG, Man., Oct. 11.—Canada's first land and apple show opened in Winnipeg last night, the exhibition drawing visitors from all parts of the west. The principal display of fruit are made by Ontario and British Columbia.

A band of women on Friday raided Harley street in the West End of London, a medical centre, which is almost entirely occupied by the offices of specialists. The women smashed windows left and right along the street. The secretary of the Women's Social and Political Union says the attack is merely a commencement of the women's protests against the revival of the torture of forcible feeding.

When the Chinese government troops entered Tsaoing they found the two missionaries, Rev. George Holm and Rev. H. Fauske, were merely living skeletons. The children had been for ten days hidden under a heap of manure. For the first three days they were without water. Afterward's water was obtainable, but the captives were killed on several occasions.

Mr. Fraes, of Philadelphia, who was in uniform and posed for a photograph, which is to be erected to the memory of Mr. Fraes is 73 years old. He was a member of the "Buckeye Regiment" in the Civil War.

For Sale

FOR SALE—Watson Sprayers and Repairs. For Sale by Benn & Turney. 6-1f.

FOR SALE—Mare for sale. Two year old, perfectly sound and kind. Furcheron stock. Howard L. Cox, Rosedale, Ca Co

To Rent

TO RENT—One or two furnished rooms in house near C. P. R. Station. Apply at The "Dispatch Office."

Wanted

WANTED—To Rent—Small unfurnished house or part, Central. Apply to, H. E. Burt's Hardware Store.

WANTED—A good Bread and Roll Baker Best of Wages. Steady employment. Apply to W. R. Dunbar Fredericton Box 75

Now Open and Ready for You.

A few months spent in our school will fit YOU for a good position. Our methods get results. Ask some of your friends that we have assisted, and write us at the same time what you want to do.

O. A. Hodgins, Prin., Houlton, Me.

Public Officials Visit Woodstock

Three automobiles containing Hon. John Morrissy, Minister of Public Works, Mr Harry M Blair, Secretary of Board of Works, Mr S B Wass, Assistant Chief Engineer of the St John and Quebec Railway Company, Mr D F Maxwell, Provincial Government Engineer, Mr J J Taylor, Dominion Government Engineer, Mr N P McLeod of Hibbard Construction Co., E C Colby, managing director of Concrete Constructions, Limited, Dr B M Mullin, Mr J Fred Ryan and Mr A B Kitchen arrived in Woodstock from Fredericton on Tuesday night. They were on a tour of inspection of the highways and road diversion on the Valley Railway route between Fredericton and Andover. The railway is nearly finished between Fredericton and Woodstock; after an examination of the road near Meductic, it was thought that the proper place for the proposed ferry was across the river from the proposed new railway station. At Woodstock they interviewed Mr Nelson, the C P R engineer, in regard to placing a "Y" at Plaster Rock. On Thursday the party left for Andover, returning to Woodstock on Thursday night and leaving the next morning for Fredericton.

A SERIOUS OUTLOOK FOR  
 WESTERN STOCKMEN.

Regina, Sask. Oct. 10.—Increased difficulty in obtaining stocked cattle from Eastern Canada will be experienced by the stock men of the west as the outcome of the abolition of the United States tariff on imported cattle under the new law. In the opinion of J. C. Smith, live stock commissioner for Saskatchewan, placing cattle, sheep and swine on the free list will have a marked effect on the stock industry in the prairie provinces with-in the next few months, while to cattlemen the change will be of special importance.

WOODSTOCK SCHOOL OF MUSIC

The most successful Music School in Canada

THE WOODSTOCK SCHOOL OF MUSIC was started by Mrs. Adney simply as a Name under which the scope of work of the most successful teacher of music in this Province might be extended. We shall not here refer to the course of study offered, except in a passing way, but to those more personal matters which so far out-weigh all other considerations as to make the list of truly successful schools of any kind very few in number. It is altogether a matter of the TEACHER.

The secret of Mrs. Adney's widely known success is that resolved upon having the best instruction at any cost she had the wisdom to select or the good fortune to be directed to the BEST TEACHERS IN AMERICA, and has the faculty of imparting what they taught her. William Mason, our greatest teacher of Piano and admitted as the equal of the best of Europe. He was a pupil of the immortal Liszt. Her lessons, over an extended period, were cheap at six dollars apiece. Previously, she had instruction from Gonzalo Nunez, a distinguished graduate of the Paris Conservatory, where Prof. Le Coupey was Instructor on Piano. This world's greatest music school also perpetuates the musical theories of Liszt. These ideas led to a technique in contrast with that of the dry, mechanical German technique. We criticize German execution, not German music. The influence, however, of this nation of musicians is such that their "method" is the one nearly everywhere met with. Combining Mason's "Touch & Technic" with the thus rarely taught "Conservatoire method," it is worthy of note that Mrs. Adney's steady use of "Le Coupey" has exhausted the American edition, and a new one is being printed for her use.

In Voice, Mrs. Adney was in a sense almost equally fortunate. After some instruction from a famous (that is to say, well advertised) teacher, whose method was not as great as his celebrity, nor his charges, she took lessons under Mr. A. A. Tattou, a distinguished French singer and teacher, who with the finest credentials that France had to offer, came to New York to make his debut where German influence controlled everything from orchestra members to press critics, and it being shortly after the Franco-Prussian war his reception was so hostile that he abandoned his intended career in Grand Opera, and retired to the routine work of a teacher. Later she studied at the N. Y. Vocal Institute, under the talented Mr. Tubbs, editor of The Vocalist, and derived many ideas that have proven of great value here. So it happened that, by accident or otherwise, Mrs. Adney acquired the method in singing of the great Garcia, and the almost equally famous Shakespeare—the only true method of voice production and that which has produced the great singers of Italian and French Opera.

When deciding to carry on her well known private work in Piano, Singing, Musical Theory, etc., under the name at the head of this section, it was with the idea of extending its scope as opportunity might offer. It perhaps did not occur that Woodstock could not maintain a Victoria Conservatory of Music, which during her three years after its establishment became an institution of such recognized importance in the music world of Canada, that a special publication entitled "Musical Toronto" gave her and her work extended space. Perhaps it was because one of her pupils, solely instructed by her, went to the Toronto College of Music and in the same year took the Gold Medal in Piano. Two other pupils sisters, one fifteen and one thirteen years of age, after studying with Mrs. Adney entered one of the foremost Conservatories in Europe and began immediately to play in public recitals. The head master writing to their parents said "they have had the perfection of piano forte training and are artists already." Today her work has become so well recognized in the United States, that she has been invited to become a member of the International Musica Society, formed thirteen years ago by the very leading musical professors and patrons of the world, and only seeking membership of those identified with "advanced musical research and its results."

There is a point relating to "Diplomas," "Graduation," etc., upon which Mrs. Adney needs again to remind the public. Except for theoretical studies such as harmony, this School gives no "Diplomas," has no "Graduates." In all practical, artistic work, the only test of proficiency recognized among artists is that of the actual work itself, except for the degree of Doctor of music, for which only the masters ever qualify, and which is recognition of exceptional proficiency and musical learning. For all others the only recognized test is ability to perform, from memory, to say, two recitals, a program of pieces of certain grades of difficulty, one of ordinary music, and one from the representative works of the great Masters. The program itself is the "certificate" and no teacher of high standing ever offers anything else; and whatever institutions hold forth as an inducement the prospect of a "Diploma" for a certain length of time in study, it may be taken as certain that the actual teacher is indifferent—any person whom the institution finds it convenient from time to time to employ. Even a school or institution becomes famous only through some exceptional TEACHER in it. An artist of real distinction offers only his program: no one asks or cares WHAT school he studied at, but who was his TEACHER. The aim of this school is not to grind out graduates with diplomas: we offer the best musical instruction, in our lines, that can be obtained in the Maritime Provinces, if not in Canada, and better than will be obtained by going to any but the few greater masters in the large cities of the United States.

Thus Woodstock offers advantages for musical study that one may go to any city in Canada, or to New York or London, and perchance not get. Mrs. Adney did not in the first instance select Woodstock as furnishing the full scope for her exceptional talents as a teacher, but she has made it and the work done here by pupils who are now successful teachers in various parts of United States and Canada, a credit to Town and Province.

Harmony, History and Theory of Music, taught in classes which are free to pupils of the school. Ensemble classes taught by Mrs. Adney are also free.

Prospects on application.

ACROSS OCEAN BY OIL.

New York, Oct. 4.—The German oil burning vessel Wotan, declared by her owners to be the largest screw motor tank vessel in the world, completed her maiden voyage to-day when she was made fast to the Standard Oil pier in Bayonne, N. J. where she will take on a cargo of oil for Germany. The type of engine used by the Wotan, was the invention of Dr. Rudolph Diesel, who was recently reported lost at sea.

The arrival of the Wotan marks the addition of a new type of craft to the trans-Atlantic cargo carrying traffic.

She was completed in Hamburg thirty days ago and, starting from the German city eighteen days ago she developed 2,500 horse power,

NOTICE

Will Those who have choruses or other Music belonging to Mrs. Adney kindly return to her? This includes both Children and Adults.

BORN

Haynes—At Plymouth, Oct. 1st., to Mr. and Mrs. Ernest D. Haynes, a son, Robert Gerald.

MARRIED

BOYER-SMITH—At Woodstock, N. B., October 7th, by Rev. A. C. Berrie, William C. Boyer and Isabell M. Smith, both of Florenceville.

DEMERCHANT-WALDRON—At the residence of the bride on September 24th, by Rev. Richard Opie, pastor of the Methodist Church at Oak Bay, Hiram E. Demerchant of Bath, Carleton county, and Miss Myrtle H. Waldron of Tower Hill.

BROAD-CLARK—At the residence of the officiating minister, Bath, Oct. 1st, by Rev. G. A. Giberson, Edgar C. Broad and Mellie Clark, both of Holmesville, Carleton county.

MCINTOSH-MCINTOSH—At Glassville, Manse, on the 1st of October, Mr. Kenneth J. McIntosh, son of Kenneth McIntosh of Kenneth, was married to Miss Effie Dawson McIntosh, daughter of Alexander McIntosh of Glassville. The marriage was performed by Rev. James Colhoun, minister of the congregation of Glassville.

Trouble in the Balkans has had an opposite effect of immigration from those countries to Canada than was expected. There has been a steady increase of settlers from those countries and from Austro-Hungary to Canada.

marking a 1 unbroken voyage of 8 1-4 knots the hour. The engines of the vessel never were stopped once during the trans-Atlantic trip, save when she picked up the pilot, her master reported.

The Wotan carries no boilers, being propelled by the internal combustion of oil burned in the cylinders.

MYSTERIOUS MALADY PREVALENT AT BALLINGHAM.

Ballingham, Wash., Oct. 8.—Nearly a dozen children have died here within a few days from a mysterious malady, and a number of others are not expected to recover. Dr. Eugene Kelly, State Health Commissioner, said in a warning issued to-day, that the disease resembles an Oriental plague introduced into this country by rats.

"Little things, but faithfulness is some fine."
