

MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always. 50c. Box at All Druggists and Stores.

TAPLEY MILLS

We are having lovely weather at present.

Mrs Frank Tapley is visiting Mr and Mrs Osmond Tapley.

Miss Florence Watson is staying with her aunt Mrs Geo Tapley.

Mr and Mrs Everett Colwell gave a birthday party in honor of their son, Clayton, on Monday; all report a good time.

Geo Mullis and niece, Miss Lottie Tapley were visiting his sister, Mrs Wolhaupter, at Oakville last week.

Mr and Mrs Almer Lutz are receiving congratulations on the arrival of a daughter.

Herbert Graham is up to Caribou digging spuds.

We are all glad to hear that Miss Jennie McIntyre is able to attend school again.

Miss Gladys Stone was visiting Miss Mettie Colwell last week.

Harold Colwell and sister Stella were visiting their uncle and aunt Mr and Mrs E Colwell.

Don Parks and sister E'da and Miss Faye King were calling on friends at Tapleys Mills Sunday.

We are glad Mrs Herbert Graham has taken up dress making as we are greatly in need of a dressmaker at Tapleys Mills.

E Colwell is away hunting.

Mrs Everett Colwell and family attended the missionary meeting at Debec, also John Graham.

As actions speak louder than words, mutes make a lot of noise.

He who reads will run against a lot of information that he who runs will never read.

Some men never weary of talking about the things they used to do.

School Exhibit at the Centreville Exhibition

Insects, 1st Evelyn Lewis, East centerville; 2d, Pauline Toms, Long sett. Drawing, 1st Leo Hartley, Tracy mills; 2d, Vivian Ketch, Charleston.

Writing, two verses, grade III, 1st Iva Cox, Lower Knoxford; 2d, Pauline Peterson, Tracy Mills.

Writing, one verse, grades II. and III, 1st Vera Sloat, Gregg settlement; 2d, Howard Walton, Charleston.

Seeds, 1st Russell Kennedy, Long settlement; 2d Evelyn Lewis, East centerville.

Map of N. B., 1st Georgia Green, Greenfield; 2d, Leshe Pryor, Pioneer.

Woods, 1st Douglas Downey, centerville; 2d, Lydia Grant, East centerville.

Botanical specimens, 1st Florence White, East centerville; 2d, Gaynell Page, Pioneer.

Map of Scotland, 1st Douglas Downey, centerville; 2d Lydia Grant, East centerville.

Best Display, Hazel Margison teacher, East centerville, 1st; Harold Davidson and Pearl Akerley, teachers, centerville, 2d; Mary Gallas, teacher, Greenfield, 3d.

Essay, class II. and III., grades IV and V. Beatrice Antworth, I, Greenfield. Essay, class III. and IV., grade VI. and VII. Marguerite Campbell, 1st, centerville.

Essay, class V. grade 8, 9, 10 and 11, Eva Kennedy, 1st, Long settlement.

Letter, class I., grade IV., 1st Velma Nelson, Charleston.

Letter, class II., grade III. and IV., 1st, Beatrice Antworth, Greenfield.

Letter, class III., grade 5 and 6, 1st Vera Sloat, Gregg Settlement.

Letter, Class 5, Grade 9, 10 and 11, Jessie Reid, 1st, Centerville.

Nearly two million little children in the United States are wage-earners. Of these children 10,000 are little boys employed in coal mines and breakers, 6,400 children work in glass factories, hundreds of them working all night, 50,000 toil in Southern cotton mills, and many thousands more are employed in canneries and in the sweat shop industries of large cities.

But an ounce of flattery beats a pound of truth if you have an axe to grind.

Usually the charity that begins a home is easily discouraged.

There is no duty we so much under-rate as the duty of being happy.—R. L. Stevenson.

The whistle on the engine makes the most noise, but it doesn't help to pull the train.

In every 1,000 marriages solemnized in Great Britain 21 are between first cousins. Among the nobility the rate is much higher, amounting to 45 in 1,000.

Forget It.

If you see a tall fellow ahead of a crowd A leader of men marching fearless and proud,

And you know of a tale whose mere telling aloud

Would cause his proud head to in anguish be bowed.

It's a pretty good plan to forget it.

If you know of a skeleton hidden away In a closet, and guarded, and kept from the day

In the dark! and whose showing, whose sudden display

Would cause grief and sorrow and life long dismay,

It's a pretty good plan to forget it.

If you know of a thing that will darken the joy

Of a man or a woman, a girl or a boy, That will wipe out a smile or the least way annoy

A fellow, or cause any gladness to cloy, It's a pretty good plan to forget it.

Destroying Gamboa Dike at The Panama Canal

WASHINGTON, D. C., Oct. 10.

—Pressing a key at the White House at two o'clock this afternoon Eastern time, President Wilson, will release an electric current that will travel overland and under sea to the Panama Canal to discharge a charge of dynamite and destroy Gamboa dike. This dike is the last physical obstruction to the opening of water communication between the two oceans, although the wreckage of the dike and two earth slides, one at Cucaracha and another at Gold Hill, must be cut through before the canal actually can be opened.

A fleet of dredges will attack the slides as soon as they have cleared the wreckage of the dike, and although Col. Goethals, in his telegram to the canal commission to-day made no prediction, it is believed it will be possible to have the lighter barges used by the canal diggers to pass from ocean to ocean in a few weeks.

Many a man's idea of a happy home is one in which his wife poses as a dressmaker, cook and maid of all work.

Few folks look in mirrors to see if their morals are not straight.

Honesty is the best policy, but he who acts on that principle is not an honest man.—Whately.

Stetson, Cutler & Co in Control of Van Buren Co

(Bangor Commercial.)

It is stated in lumber circles of eastern Maine that the Stetson, Cutler Company of St. John, N. B., and New York, has acquired the controlling interest in the Van Buren Lumber Company, which operates the large steam mill in Van Buren on the St. John River.

A. E. Hammond, who is one of the best known lumbermen in northern Maine, and who has been at the head of the Van Buren Company, has sold his interests to Hon. W. W. Thomas of Portland, former United States minister to Sweden. Mr. Thomas in making the purchase is understood to be acting in the interests of the St. John Lumber Company, according to the report which is current at the present time. The latter will not take control until the fall of 1914, after the present season's cut is manufactured, and it is believed that the new ownership will mean the extension of the plant to quite a degree.

Mr. Hammond has broken ground for the erection of a new steam mill in Van Buren, which is to be located on Violette Brook, a short distance below the Bangor & Aroostook R. R. station. Details in relation to the plans for the new mill have not been made public beyond the fact that it will manufacture in the vicinity of 10,000,000 feet of long lumber and about 25,000,000 feet of shingles. The engineer who is in charge of the erection of the mill is to make a trip to some of the larger lumber mills of the west to insure a complete and modern equipment for the new plant. It will give employment to a large number of men who will be a valuable addition to the thriving lumber manufacturing village on the northern border of the State of Maine.

Mr. Hammond has operators at work this winter taking out about 13,000,000 feet of lumber which will be handled by rail and hauled into Van Buren. On the line of the Bangor & Aroostook his operators will cut four or five million feet and over in Northern New Brunswick, on the line of the International Railway. Collins & Son of Caribou, are to cut eight or nine millions to be brought over the boundary to Van Buren.

It is estimated that the total lumber cut for the present season on the upper St. John river waters on both sides of the boundary will be in the vicinity of 91,000,000 feet.

Of this amount about 26,000,000 feet will go down the St. John river to be manufactured in St. John, and the remainder will be manufactured in the large mills of Van Buren and vicinity, which include the St. John Lumber Company and the Van Buren Lumber Company.

Proof Positive

One of the leading lawyers of New Brunswick of fifty years ago had a son associated with him in practice who possessed little or none of his father's ability, and whose main occupation was to look up the books mentioned in the brief which his father had prepared, mark the pages with a slip of paper and arrange them on his father's desk in court ready for the argument.

On such an occasion when both father and son were absent from the court house the other lawyers changed the book-marks indiscriminately.

As soon as the elder returned to court, he began his argument, which was on an admiralty case, by reading from the case marked in the first book.

As this referred to a promissory note, he tried several more and with the same result.

Finally he threw the book on the desk and said:

"Your Honor, I always thought my son John was a damned fool, and now I know it."

GREAT LAND FIGHT OPENS SATURDAY

New York, Oct. 10.—A cable to the Tribune from London says.

David Lloyd-George's great land fight begins to-morrow at Bedford. The Chancellor of the Exchequer's speech will be the signal for battle along the line. The Unionists as well as the Liberals, however, have a land programme, for the votes of the farmer and the agricultural laborer cannot be ignored by either party. The Unionist policy, of which Lord Lansdown is the protagonist, is to take the tiller of the soil he tills. He will then be a propertied person, and a Unionist. The Liberal policy to let the farmer remain a tenant, with his interests safeguarded. He will then be antagonistic to landlordism and consequently a Liberal.

THE PACKING OF FRUIT

Canadian fruits, than which there are none better, are now regarded in the markets of the world at their true worth. Through the operations of the Inspection and Sale Act the packing of Canadian fruit has been greatly improved and the development of the trade accelerated. From time to time since its enactment, as experience has indicated, the Act has been improved in order to more completely encourage and protect the industry. The latest amendment to the Act, which was passed during the past session of Parliament, extends inspection to imported fruit thereby placing it on an equal footing with that grown in Canada. The amendment provides that the Governor-in-Council by regulation may prescribe the kinds of imported fruit the packages containing which must be branded or marked, the brands or marks to be used thereon, as well as the methods and places where such brandings shall be done. Other minor changes were effected in the Act.

For the information of those interested in the fruit trade there has been issued by the Dairy and Cold Storage Commissioner a pamphlet designated bulletin No. 40 of the Dairy and Cold Storage Branch containing the Inspection and Sale Act, Part 9, (the Fruit Marks Acts and Fruit Packages) amended. Copies of this bulletin are available to those who appear for them to the Publications Branch of the Department of Agriculture at Ottawa.

Inspector—Any abnormal children in your class, Miss Pedagogue?

School Teacher—Yes one of them has good manners.—From Life.

Canadian Grape Fruit

A fine specimen of grape fruit and weighing 29 ounces was produced at the Experimental Farm, Ottawa, and the horticultural department there proved that this article of diet can be successfully produced here in green houses. While an occasional specimen has been grown by private people, it was not generally known that it could be grown here. This fruit equalled the flavor of that grown in southern latitudes. The plant from which this fruit was grown was bought in the nurseries in New Jersey ten years ago but went nine years without bearing.

The only building material that has not increased in price is

CANADA Portland CEMENT

It makes concrete that you can depend upon for satisfactory results, whether you use it for a pile or a garden walk.

High quality and low price are made possible by efficient organization and manufacturing economies due to a large and growing demand.

So that every bag of cement you buy bears the "Canada" label—it is your guarantee of satisfaction.
