Workers or Shirkers?

Those dairy farmers who are carefully noting the total production of each of their cows for the season, are finding some curious differences. For instance, in one Ontario herd, the yield of a 9 year-old grade that freshened March 5th was 4,080 pounds of milk up to the end of July; her stable mate, also 9 years old that freshened March 12th, receiving the same feed and care gave only 2,970 pounds of milk. Over half a ton of milk in that short period indicates a considerable difference in income between the two cows.

In another herd at the same factory between two six-year-olds that calved April 3rd and 4th, there is a difference of 1,400 pounds of milk and 60 pounds of fat up to the end of July. This means between fourteen and fifteen dollars that one cow earned more than the other. Are your cows workers or shirkers? Dairy records alone will provide the means of ascertaining these facts beyond question. Forms for weighing milk either daily, or on three days per month, are supplied free by the dairy division, Ottawa. In your letter of application state which want, you

Presbyterian Synod of Maritime Provinces.

The meeting of the Maritime Synod of the Presbyterian Church will be held in Sydney, Nova Scotia, opening its sessions at 7.30 in the evening of the first Tuesday in October. The business will probably be concluded on Thursday evening or Friday morning. It is likely that most of the Presbyterian clergymen of the city will attend. The most important business to engage the attention of those present will be the appointment of a church agent to succeed Rev. Dr. McCurdy, who has resigned after fifteen years' service. Dr. McCurdy gave notice at the last meeting of the General assembly of his intended resignation. He was for a time pastor of St. James Church, New Glasgow, after which he went to Trinidad, where he remained some years. Then he was without a charge until he was appointed treasurer of the eastern section of the Presbyterian Church in Canada, an official who is generally known as the church agent, and whose appointment is in the hands of the Maritime Synod.

County Council Candidates

The election for County Councillors will be held on Tuesday, Oct 11. Nominations of candidates must be filed with the Parish Clerk, or left at his residence not later than 6 p.m. on Monday, Oct 6th.

George Cyr, of Houlton, 20 years of age, was arrested Sunday by Police-man Whitney, charged with burglary in that town. Cyr protested his innocence, but when a knife, to the blade of which adhered some putty from a window from one of the stores entered, was found in his clothes, he broke down and confessed. He confessed to five of the six breaks Saturday night, and told of four more robberies which he had committed since July. Another prisoner, Loren Grant, of Canterbury, N B, is under arrest in Houlton, charged with a break at Starkey's market, Houlton, Saturday night. He denies guilt.—Fort Fairfield Review.

Mr and Mrs Harry H Hopkins, of Aroostook Junction, N B, accompanied by Mr Hopkins' brother, LeBaron Hopkins, of Vancouver, B C, and Mrs McLaughlin and young son, of Woodstock, were in town this Wednesday morning by automobile. LeBaron Hopkins, who is a member of a large contracting firm in Vancouver, has been home about two weeks. A part of this time he has spent in Montreal, accompanying his father, Daniel B Hopkins, who has been in a Montreal hospital for treatment of his spine which was recently fractured by a fall. Mr Hopkins will probably return to Vancouver in about a month.—Fort Fairfield Review.

Samuel Robinson Belyea

Rev. P. A. A. Killam.

For the first time in its long and honored history the church in Cherryfield is called to mourn the loss of its pastor by death. After an illness of a few months in which he put up a brave battle, Rev. S. R. Belyea was called to join the Church Triumphant, and the members of his church and a host of friends in Eastern Maine are saddened because of his departure at a time when he should have been in his prime; for he had but recently passed the forty-eighth mill-stone of his life-race. Death came suddenly but quietly on Monday the 8th inst at the Massachusetts General Hospital where he had gone for treatment.

Bro. Belyea was born at Simonds Carleton County New Brunswick and grew to manhood in that section. Shortly after he became twenty-one he crossed the line into Aroostook and became a factor in the business life of that region. Soon after he was converted there came a call to him to enter more distinctively into Christian service, and feeling the need of better equipment he entered Ricker Classical Institute at Houlton, and graduated from that institution. During his work there he served as pastor at Ludlow, and a part of the time at Smyrna, and the fruits of his labor gave evidence that he had not mistaken his calling. His next field was the joint pastorate of the churches in Milltown and Baring and with characteristic energy he gave himself to the work. Faithful to his great commission and tactful in his dealing with the vexing problems that are apt to occur in church life, he develops qualities that marked him as a rare pastor. After short pastorates at Lamorne and Brooklin, he was called to Kenduskeag, where he served acceptably until the church at East Machias appealed to him, and there he showed his ability in the financial crisis that overhung the church, which was tided through largely because of his sagacity and courage. When he left that field it was without a cent of indebted-

ness and with a membership that had been added to from time to time of many that he had helped to crown Christmas King. While at East Machias his heart went out to the small churches near by, and with true missionary spirit he visited and encouraged them until they began to take on new life. Much of the prosperity that has come to the churches at Kennebec, Larreabee, and Buck's Harbor had its first impulse in the splendid and self-sacrificing ministry that he gave to them.

His pastorate at Cherryfield was marked by advancement in every department of the work of the church. After the debt was lifted, he led in the project of obtaining new pews and the pipe organ which were installed recently. He had the welfare of the church, not only materially but spiritually, on his heart, and there were many additions by baptism during the pastorate so suddenly terminated. He "edified" the church in the New Testament sense of the term and his genius as a minister was constructive. His energy, his power to harmonize discordant elements, his ready sympathy with souls that were sad or unfortunate, and his courage and good cheer, combined to make him a most efficient worker.

For years he was clerk of Washington Association and was also the representative of the Association on the Executive Committee of the State Convention. In these larger relations he showed a keen sense of the needs of the work and his suggestions were eminently wise and timely. His departure marks a distinct loss to our cause in Eastern Maine.

The last twelve years of his life held much that was tragic. Sickness and sorrow came often in his cup; but his faith held steady and he found solace in the work that was so dear to him. And when the home-call came to him he was still at it, making provision for the church in his absence. A touching remembrance of him is that the last one whom he baptized was his young daughter a few weeks ago in the church at Saco. Besides this daughter there are two sons who survive him.

The remains were taken to his wife's home in St. Stephen, N. B., and services were conducted by the pastor of the Baptist Church, Rev. W. C. Goucher, D. D., last Thursday afternoon. He was assisted by Missionaries White and Killam, representing the Convention, and for many years in close friendship with Bro. Belyea. On account of the severe illness of Mrs. Belyea's sister the services were simple and brief. The interment was in the beautiful cemetery at St. Stephen.

Our sympathy goes out to the bereaved wife, who has been such a helpmeet to him in the work at Cherryfield, where she is regarded in highest esteem. Also to the aged mother who was not able to attend the funeral, and to his brothers and sisters who are thus bereft.

A French apparatus for producing anesthesia consists of a pump, an evaporation chamber and a device introducing a measured amount of chloroform or other anesthetic. A continuous current of a standard mixture is supplied, and the required effect is produced rapidly and without interruption, while the surgeon knows exactly how much of the anesthetic and air he is using.

Battalion Fire Chief John J. Shannon, leading the fight on a \$20,000 blaze near the East River, New York, water front on Friday night, slipped from a ladder and fell three stories into an areaway, receiving injuries which probably will result in his death.

Edward Taylor Snow, landscape painter and art collector, is dead at Philadelphia. He was 73 years old and valued his collection at \$1,000,000.

Instead of always folding tablecloths and sheets lengthwise, it is an excellent plan to sometimes fold them the other way, as they are less likely to wear out if the folds are occasionally changed.

PAIN IN MY BACK IS ALL GONE

Since I Got a Box of Gin Pills

CHURCH ST., CORNWALLIS, N.S.
January 23rd,

"About a year ago, I was suffering so much with a dreadful Lame Back and Hips, that I could not stand up straight. I was informed by a friend about GIN PILLS. I got a box. It helped me immediately. I have taken about twelve boxes and the pains in my back and hips are all gone. I cannot speak too highly of the wonderful effects of your GIN PILLS."

B. C. DAVID.
Liniments and plasters won't cure Lame Back—because they never reach the part that is causing the pain. The whole trouble is with the Kidneys and you must cure the Kidneys in order to stop the pain. GIN PILLS cure weak, sick, strained Kidneys as nothing else will. GIN PILLS drive away the pain every time—or your money promptly refunded. 50c. a box, 6 for \$2.50. A doctor in the country received one day a letter from an old woman asking for a bottle of cough mixture for her husband: "Please sir, don't make it too strong, as the poor man has only got one leg."

Don't forget to fix the fences. A trip around the pasture and field fence now and then will often save trouble strength and the time of having to drive the cattle back into the pasture. Animals are almost human when it comes to going where some one does not want them.

The cost to the New Haven Railroad of fourteen wrecks in the last twenty-seven months, in which seventy persons were killed and 400 injured, is estimated at \$900,000 for the dead and \$800,000 for the injured. It is estimated that the total cost of wrecks on all American railways in the last five years has aggregated the enormous sum of over \$60,000,000. Railway managers in general have decided that hereafter steel only shall be used in car construction, as one means of reducing this loss.

TURKS KEEP TOWN OF KIRK KILESSCH.

CONSTANTINOPLE, Sept. 16—The Bulgarian peace delegates here to-day finally surrendered to Turkish pressure and formally consented to the town of Kirk-Killesch remaining in Ottoman hands. The Turks also succeeded in having the future frontier of the Province of Thrace removed considerably to the northward, as it was agreed that the Black Sea limit to the Turkish territory should be between Inia and Hagios Stefano, to the northeast of Adrianople, instead of as originally proposed at Midia.

Fire Does Damage In Canadian West.

MOOSEJAW, Sask., Sept. 19—A bad fire at Milestone totally destroyed the International elevator and a private one, owned by K. Wilson, Milestone. The loss to the International company is 20,000 bushels of grain, fully insured, while Wilson lost 25,000 bushels of grain, with \$15,000 insurance. Incendiary origin is ascribed. An attempt was made to burn the Ogilvie plant.

BROOKS, Alta., Sept. 19—With an entire block in the business section in smouldering ruins, over which the male population of the town are still standing in order to prevent a further outbreak of fire, the town of Brooks, on the main line of the C. P. R. east of Calgary, narrowly escaped being totally destroyed early this morning. So fierce were the flames that a hasty call for assistance was telegraphed to Medicine Hat, resulting in the fire department of that city loading the apparatus on flat cars. A change of wind, however, checked the flames and the call for assistance was canceled. The damage is about \$25,000 and the majority of buildings burned carries some insurance.
