Baby's Own Tablets.

Baby's Own Tablets are the best medicine a mother can give her little ones. They are absolutely safe, being guaranteed by a government analyst to contain neither opiates, narcotics or other harmful drugs. They are good for all children from the newborn babe to the growing child. They cure constipation, indigestion, expel worms, break up colds and made teething easy. In fact they are a cure for all the minor ills of little ones and a box should always be kept in the house as a safeguard against sudden attacks of stomach or bowel trouble. Mrs. J. P. Richard, St. Norbert, N. B., says: "I have found Baby's Own Tablets all that is claimed for them. My baby suffered from his stomach and bowels and the Tablets certainly did him good." They are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.
