## No matter Who Wrote The Gospels

TORONTO, June 9—The preacher in the morning at the General Assembly was the Rev. Dr. George Hanson, of Eskine Church, Montreal. Taking the text, "They are the foundations on which we build our impregnable rock—His truth, His integrity, His Honor," the speaker said he had two classes of his people in his mind—those who were perplexed by doubt and looking for refuge and those who had never had a single doubt about the Christian faith, but who, if challenged to state in precise and logical form their reasons for holding that faith, would probably fail.

"Without solid rest-giving faith whether in pulpit or pew," remarked Dr. Hanson, "life is nerveless, passionless and aimless, and death holds naught but terror; but with such faith life is substantial full of meaning, and death is but sleep in everlasting love." He spoke of the authenticity of the gospel of St. John and told how, despite the efforts of many, no discrepancies had been found in it. Dr. Hanson went on to prove that the gospels of Matthew, Mark, Luke and John could not have been written by these men, without the aid of "someone who was not of the earth." These men did not have the intellectual qualifications to write these gospels for they were plain, untutored men. It was inconceivable that they were unaided, could portray a figure so lofty and inspiring. "But it does not matter who wrote these gospels," said Dr. Hanson, "the chapters are there."

## 6 Year Old Girl Is Cured of Kidney Trouble

Mrs. Alex. Moore, of James St., Oxford N. S., says: Booth's Kidney Pills cured my little daughter, Christian, age six years, of many symptoms of kidney weakness. She complained of a sore back, the kidney secretions were frequent and uncontrollable, especially at night. Her stomach was weak and her appetite poor. This caused her to have frequent headaches, and the least exertion would tire her. We had tried many remedies, but she did not improve. Finally we learned of Booth's Kidney Pills and procured a box. In a short

time she was well and does not now complain about her back, the kidney secretions have become normal, and she plays around the house with no apparent fatigue. We always recommend Booth's Kidney Pills."

Booth's Kidney Pills carry a guarantee that if you derive no benefit your money will be refunded. Booth's Kidney Pills are a specific for all diseases of the kidneys and bladder. Sold by all druggists, 50c. box, or postpaid from the R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

Latest reports are that the Duke of Connaught will return to Canada in the autumn. The Government may have to lease a home for him as Rideau Hall is to be practically rebuilt, a six months' job.

## THREW BAG OF FLOUR AT PREMIER ASQUITH.

LONDON, June 12—While Premier Asquith was speaking in the House of Commons this afternoon, a bag thrown from the strangers' gallery fell with a thud near the Speaker's chair and burst, covering the surrounding seats with flour. At the same time a batch of leaflets fluttered down, thrown by a young man who shouted something about Miss Emily Wilding Davison, the suffragette "martyr."

## Marching On To A Readjustment.

The woman paraders in New York had a beautiful day, says Harper's Weekly, a clean street and polite spectators, and made a handsome appearance.

A suffragette has been defined as a woman who wants something and thinks it is the vote. It is an interesting and fairly intelligent definition, to be especially commended to the attention of those of our friends who think that the vote is not really what the suffragists feel the need of and will satisfy them if they get it.

But they do want something, don't they? The ten thousand who marched were the expression of a need that was felt and that is real. Nowhere is woman's position better than in this country; nowhere are her rights and privileges better protected than in this state. But those ten thousand marchers evidence that there is something still coming to her and that she is out to get it.

Undoubtedly the condition of women is changing all over the world, and changing we believe, very much for the better. The change has its extravagances and disorderly incidents, but it is a change toward a fuller and freer life and a more respected and advantageous position. The suffragists are very confident that women will get the vote wherever men have it. They may or may not, but they are constantly gaining in public influence, public power, opportunity, usefulness—all the details in which the vote is expected to help them. All the women suffragists and anti-suffragists breathe the same air and imbibe what is in it. All families whatever their views, adjust their lives and methods to the same compelling influences. There is a great adjustment going on in response to a spirit of which last Saturday's parade was one of the outward signs.

## Russias Warning Telegram To The Bell cose Powers

ST. PETERSBURG, June 12—The telegram sent by the Czar to King Peter of Bulgaria and King Ferdinand of Serbia said:

"I feel compelled to warn Your Majesties that war between Bulgaria and Serbia could not leave me indifferent. I hereby make it known that the State which begins war will be responsible for the Slav cause, and that I reserve to myself all liberty respecting the attitude which Russia adopts in regard to the results of such a criminal struggle."

Bulgaria sent an affirmative answer yesterday to the telegram from the Czar asking that government to submit its dispute with Serbia to arbitration. Serbia is also expected to agree to the Czar's telegram urging arbitration on Bulgaria and Serbia, and also requested as a preliminary condition that the two countries should demobilize their armies.

## Abolish Post Of Poet Laureate.

LONDON, June 10—The death of Alfred Austin has opened again the question whether the post of Poet laureate should be refilled. Most

papers agree it ought to be abolished and many seize the opportunity to ridicule it. Writers in general agree on abolitions. But Maurice Hewlett says it should not be abolished, as it is a state recognition of art, and Sir A. Quiller-Couch says it is always a pity to abolish old institutions in haste.

There are, of course, many suggestions for the appointment, with a general agreement that there is no outstanding figure worthy of recognition.

The Daily Citizen, the principal labor journal, suggests a woman, Mrs. Alice Meynell.

The full list of names so far discussed is as follows:

Rudyard Kipling, Robert Bridges, Henry Newbolt, William Watson, W. H. Davies, Maurice Hewlett, Austin Dobson, Alfred Noyes, W. B. Yeats, Thomas Hardy, John Masfield, Alice Meynell, Stephen Phillips and Richard Le Gallienne. Judging from the newspapers, the choice seems to lie between Henry Newbolt and Robert Bridges. John Masfield is considered too outspoken, and it is not believed that W. B. Yeats would accept.

## Winston Churchill in Oil Share Scandal.

LONDON, June 9—Another political scandal of the Marconi type is to be common gossip within a month if Winston Churchill, First Lord of the Admiralty, fails to unload a large number of shares now in his possession.

Churchill recently had an adventure on the Riviera which resulted in the loss of his pocketbook, containing, besides money, some important naval data.

A short time ago, it now is asserted, he gave two continental oil firms, one in Bucharest, and the other in Budapest, huge contracts to supply oil fuel for national use. He followed this, it is declared, by purchasing 2,500 shares in each company and profited heavily by the subsequent large orders and the promise of others.

I decided to try Booth's Mi-o-na Tablets and they have done me more good than anything I have ever used. I am now more free from this trouble than I have been for years. ## FIFTEEN TONS OF MACK- EREL PLACED IN THE FREEZERS.

RICHIBUCTO, N. B. June 12—About ten thousand mackerel were landed here on Wednesday. Some of the fish weighed four and one-half pounds, or an average of three pounds, which makes fully fifteen tons of mackerel placed in the freezers.

A gale of westerly wind had been blowing since Tuesday, and some uneasiness was felt for the fishing fleet, but the wind moved suddenly to the northeast last evening, and nearly all the boats are accounted for. A gale of northeast wind is still raging.

## Premier Asquith Reads A Lecture To Laborites.

LONDON, June 12—In the House of Commons last night Premier Asquith, in refusing a demand of the Laborite members for the abolition of the taxes on food and the substitution of the taxes on unearned incomes and large estates, delivered a lecture to the Laborites on the duty of workers to bear a fair share of the country's expenses. He contended the working men benefited by the army, the navy, the civil service and other government departments as much as any other classes. He added:

"I do not think that there is any doctrine more fatal to the root of the principle of finance than the democratic government should be concerned with the constant amelioration, at great expense to the community, of the social conditions of the less favored classes of the country, at the cost of other classes."

A \$10,000,000 lumber deal in Oregon reminds us that one of the first benefits of the Panama Canal will be to put lumber from the Pacific coast on the Atlantic seaboard. The vast forests assure an abundant supply and it will be interesting to see what effect this will have on building. It ought to mean a large increase.

Only five men, representing the last of Minnesota's first white settlers, attended the 54th. annual reunion of the Old Settlers Association at St. Paul the other day. The president had occasion to say: "We are face to face with the melancholy fact that death has so depleted our ranks that never again shall we have a quorum or be able to legally transact business."

## Sudden Rise In Fraser River Causes Trouble

Tete Juane Cache, B. C. June 12—Due to a sudden rise in the Fraser River, Tete Juane is under water. Boats are being used in Main street for removing furnishings from buildings close to the waterfront, and several structures have been washed away. Heavy rains during the past few days have resulted in a phenomenal rise in the river, and yesterday, when the residents awoke, they found that the water was lapping around their doors. Water on the main street is now six feet in depth and the river is still rising. No lives have been lost, although several narrow escapes have been reported where men in boats narrowly averted being swept into the river, which is a roaring current.

## England's King And Queen Held Court.

LONDON, June 10—King George and Queen Mary held the fourth court of this year at Buckingham Palace last night. The queen was dressed in Indian gold brocade, with a panel embroidered with diamonds and a train of Irish lace, lined with gold tissue with a deep embroidered border. She wore a diamond crown, with rows of pearls and pearl and diamond ornaments with the Order of the Garter. In addition to the king and queen the other members of the royal family present were the Crown Prince and Princess of Sweden, the Duke of Connaught and Princess Patricia of Connaught.

## FINED \$10 AND COSTS FOR WEARING SPLIT SKIRT

Milwaukee, June 5—Judge Page imposed a fine of \$10 and costs on Elizabeth Geiger, 38, for wearing a skirt which was too tight and much too short.

The verdict was that the woman had donned a striking skirt decorated at the bottom and cut with such economy of material that it was necessary that it be given a slit of extreme length to permit its wearer to move about. She had then gone on parade.

"Any woman who wears skirts whose hem is more than 12 inches above the ground is liable to a fine in this court," said Judge Page.
