**The Store That Satisfies.**

## A Big Agricultural Picnic

At St. Stephen May, 2nd 1913

A Special Train will leave Aroostook Jct. at six o'clock, Friday morning, May 2nd. Will arrive at St. Stephen at or about noon. Returning will leave St. Stephen at 5 p. m. Tickets will be sold from all points along the line.

From Points North of Woodstock	\$1.95
From Woodstock and points South	\$1.35

SINGLE FARES, to groups of ten, from points where regular is less than \$1.35.

The picnic will be held on grounds near the factory of the Dominion Fertilizer Co. Ltd. If the weather should prove unfavorable the lectures will be delivered in a hall in St. Stephen.

A number of speakers will be present including:—Messrs. J. B. Daggett, Secretary for Agriculture, Andrew Elliott, Seed and Soil Specialist H. B. Durost, B. S. A. Fertilizer, Drainage and Bee specialist, Miss Daisy Harrison, formerly Women's Institute Organizer for New Brunswick.

In Mr. Elliott's address he will go fully into the details of how to grow crops for, and the management of Field Crops Competitions. Such competitions are to be held the coming season in the county of Carleton, under the auspices of the Various Agricultural Societies.

Mr. Durost will discuss Commercial fertilizer from the FARMERS point of view. Gentlemen of the Dominion Fertilizer Co. Ltd. will be present to take up the discussion from the manufacturer's side.

By courtesy of the management, their factory will be open for inspection, and arrangements have been made to have

a number of men well acquainted with the process of manufacture and mixing of fertilizers, who will, after the lectures, show parties through the factory.

The factory will be in full operation and the best opportunity will be given to see the whole process of mixing fertilizers. The nature and use of the various "raw" materials, which will be seen in large quantities,—will be carefully explained.

This will be an excellent opportunity—an opportunity that no farmer can afford to miss—to see what is being put into the mixed fertilizers that he is using on his land.

While the men are seeing the fertilizer factory, Miss Harrison will address the ladies on some subject that will be of interest to them.

Sandwiches, cake, tea and coffee will be served on the grounds. To those who prefer to bring their own lunch, hot tea and coffee will be served.

**SHILOH**  
quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

### YOUNG'S COVE ROAD

April 18th 1913.

The "Grand Lake" is clear of ice at last, and the steamer "May Queen," made her first trip to Whites Cove, Wednesday, she is expected up on Saturday, as far as Chipman.

Mrs. Michael Kelley, an old and highly respected resident, is in very ill health at present, and there are very few hopes entertained for her recovery.

James Kelley who has been in the west for two years, is home again to remain, and he will take his old stand at the forge.

Miss Louise Wiggins who is teaching at Bellefleur has been unable to teach for a few days on account of an attack of La Grippe.

Miss Lulu J. Dixon, of St. John, is home visiting her parents, and friends. She holds a very responsible position with J. M. Queen, Insurance agent.

The Local Lumbermen are busy rafting their logs, and hope to be ready for the first tug that comes.

A few warm days and farming will be commenced here with the early market gardeners.

The young people of this place, have formed a club, which they have entitled the "Young's Cove Glee Club". The subject in view is to have an enjoyable time, at the home of some member every week. The officers are: Miss Cora A. Bennett, president; Miss E. J. Fanjoy, vice president; Miss Gertrude Ferris, secretary; Miss Cora M. Mott, Miss Stella Wiggins, and H. Earl Wiggins "Good-time" committee, who look after the arranging of games, music etc. In all they have a very nice time, and a nicer evening could not be spent anywhere.

Master Maurice Tower; eldest son of Mr. and Mrs. John Tower, had his nose quite badly broken the other day at school by having a boy throw a large stove wood stick, which struck him on the nose, causing an ugly wound. Dr. T. J. O. Earle, rendered the necessary surgical aid and it is hoped it will not leave much of a scar.

The roads are in a very soft state, making it difficult for heavy teams to get over.

### Shoe Machinery to the Free List

Washington, April 19.—The democrats in the House continued their caucus on tariff revision to-day with the expectation of completing by nightfall the administrative provisions of the bill and of disposing of numerous Ways and Means Committee amendments. These amendments do not affect the substances of the tariff bill to any extent, but are intended to clarify and strengthen the measure and include a few equally important changes in rates which commended themselves to the committee in recent communications to the Ways and Means Committee majority. So far the only substantial change made in the tariff bill has been the transfer of shoe machinery to the free list. The Republicans of the Ways and Means Committee also conferred to-day over the amendments which they propose to offer as substitutes for the Democratic wool and cotton schedules.

### THE SALVATION ARMY.

The Salvation has made such place in our midst, and has so firmly established itself that all, more or less, recognize its value, and are prepared to speak a word on its behalf. Such is our duty today in announcing the approaching Self-Denial.

The local Corps is making preparations for a great effort; they are hoping by personal self-denial, as well as collecting from others, to raise a larger sum than ever, and we heartily wish them success. They are worthy followers of their great and good General.

Our readers, will, no doubt, know how to treat them when they come.

Read what Dr. Wilber Chapman says "I believe in your work so thoroughly, I have studied it in all parts of the world, and stand ready, because of what I have seen, to do for you and your cause everything in my power. I wish I could persuade people of means to assist you financially; they could make no better investment. I saw your great General in London some years ago. Is others could see him as I did and be equally moved, your treasury would overflow."

### Making The Punishment Fit The Crime.

NEW YORK, April 19.—President Lyndh is determined to have strict order on the playing fields of the National League and to-day meted out punishment to offending players. Second baseman Doyle, of the New Yorks, was sent down for three days for kicking in the game with Boston yesterday while Heine Pitz, of St. Louis, was fined \$50 and suspended for three days for using abusive language during the contest with Chicago. Second baseman Sweeney of Boston, has been suspended for three days for trouble on the playing field, while pitcher Perdue, of the same club, was fined \$10 for discoloring the ball.

### Keeping An Eye On Anst Alien Land Bill.

WASHINGTON, April 19.—Secretary of State Bryan to-day telegraphed to Governor Johnson of California requesting him to withhold his signature from any anti-alien land legislation passed by the California legislature which might be in violation of treaties between United States and Japan.

### 'Sleepy' Toms Dire Prediction

BRISTOL, Tenn, April 19.—Real terror prevails among the negroes and superstitious whites of this vicinity because of the prediction of a disastrous cyclone, which a local "prophet" says will destroy the city to-morrow. "Sleepy" Tom Clark a Confederate veteran, has predicted storms and disasters with such success there are many here who believe that he has supernatural powers. His title is due to his tendency to fall asleep while on duty in the army. In 1900 he predicted that the world would come to an end in 1915. He declares this forecast still stands.

The Salvation Army is about to extend its activities to the colored people of the Southern States.

A mass meeting will be called at Buffalo to protest against some features of the tariff bill.
