Harry Thaw Loses And Then Wins.

Que., Sept. 5.—The board of enquiry under the Immigration Act found against Harry Thaw this evening and ordered his deportation to Vermont for the following reasons: "That Thaw entered Canada at a place other than a port of entry and that he did not forthwith report such entry to the nearest immigration officer, and present himself, for examination, as required by law; that Thaw eluded examination by an officer and entered Canada by stealth, contrary to the provisions of the Immigration Act; that evidence considered trustworthy has been submitted that Thaw has been insane with in five years previous to the present date, and that consequently he comes within the prohibited classes mentioned in Section 3 of the Immigration Act, which section provides that persons who have been insane within five years previous shall not be permitted to land in Canada or in case of having landed in or entered Canada shall not be permitted to remain there."

Thaw would have been taken immediately across the border had not the board of enquiry been served with a notice that his counsel had obtained a habeas corpus and writ of prohibition from two judges of the Court of Appeal, who fixed Sept. 15 at Montreal for the time and place of the hearing of the case. This gives Thaw at least ten days' respite.

Montreal, Sept. 6.—The special train on which Harry K. Thaw's counsel had made the hurried run to Coaticook yesterday afternoon returned to the city at an early hour this morning with a large complement of the Thaw contingent on board, though Thaw himself was left in Coaticook in charge of T. B. Williams and D. H. Reynolds, of the Canadian Immigration Department, the immigration officers desiring to communicate with Ottawa before making any more in the matter of bringing their client here.

At any rate, according to the writs issued by Justices Cross and Gervais, the immigration men have until the 15th inst. to comply with the order, and it is quite possible that their charge may not be brought into the city until that date.

It is understood that the next move to be taken in the matter will be an application to have Thaw liberated on bail pending the hearing before the local Court of King's Bench. This application, it is said, will be made before the Court of King's Bench to-day or on Monday morning.

NEW YORK, Sept. 6.—Commenting this morning on the arrest of William Travers Jerome, under the heading, "Canadian Justice," says:

"The arrest of William Travers Jerome as a 'common gambler,' seemed more like a boisterous practical joke than like the deliberate operation of Canada's machinery of justice. It was no joke. But the arrest, followed by the spectacle of crowds crying 'Hurrah for Thaw—down with Jerome,' throws a new light on the debauching power of the Thaw fortune. There was a time when Canada, like William Sulzer, used to boast that it was poor but honest."

NORTON MILLS, Vermont, Sept. 6.—William Travers Jerome probably will not appear in Coaticook, Que., to-day to answer to the charge of gambling on which he was arrested yesterday. He was still in this town this morning, and announced that he would not leave until afternoon. "Then," he said, "I do not know which way I shall go."

Mrs J Norman W Winslow was hostess at a most enjoyable auction bridge on Wednesday afternoon, given in honor of her sister, Mrs G H Harrison of Chatham. There were four tables. The prizes were won by Mrs W L Carr and Mrs G E Baldwin. The guests were Mrs Jack Bibbe, Mrs J Perkins, Mrs O D Rye, Mrs L Ketchum, Mrs A B V P Jones, Mrs F M Rice Tupper (Toronto), Mrs Geo E Phillips, Mrs J Main, Mrs W B R Brown, Mrs F Gussie Connell.

WOODSTOCK SCHOOL OF MUSIC

The most successful Music School in Canada.

THE WOODSTOCK SCHOOL OF MUSIC was started by Mrs. Adney in 1880, and since that time the scope of work of the most successful teacher of music in this Province might be extended to the course of study offered, except in a passing way, but to those more persons whose weight all other considerations as to make the list of truly successful schools of any kind very few in number. It is altogether a matter of the TEACHER.

The secret of Mrs. Adney's widely known success is that resolved upon having the best instruction at any cost she had the wisdom to select or the good fortune to be directed to the BEST TEACHERS IN AMERICA, and has the faculty of imparting what they taught her. William Mason was our greatest teacher of Piano and admitted as the equal of the best of Europe. He was a pupil of the immortal Liszt. His extended period, were cheap at six dollars apiece. Previously, she had instruction from Gonzales, a distinguished graduate of the Paris Conservatory, where Prof. Le Couppey was Instructor on Piano. This world's greatest music school also perpetuates the musical theories of Liszt. These ideas lead to a technique in contrast with that of the dry, mechanical German technique. We criticize German execution, not German music. The influence, however, of this nation of musicians is such that their "method" is the one nearly everywhere met with. Combining Mason's "Touch & Technic" with the thus rarely taught "Conservatoire method," it is worthy of note that Mrs. Adney's steady use of "Le Couppey" has exhausted the American edition, and a new one is being printed for her use.

In Voice, Mrs. Adney was in a sense almost equally fortunate. After some instruction from a famous (that is to say, well advertised) teacher, whose method was not as great as his celebrity, nor his charges, she took lessons under Mr. A. A. Pattou, a distinguished French singer and teacher, who with the finest credentials that France had to offer, came to New York to make his debut where German influence controlled everything from orchestra members to press critics, and it being shortly after the Franco-Prussian war his reception was so hostile that he abandoned his intended career in Grand Opera, and retired to the routine work of a teacher. Later she studied at the N. Y. Vocal Institute, under the talented Mr. Tubbs, editor of The Vocalist, and derived many ideas that have proven of great value here. So it happened that, by accident or otherwise, Mrs. Adney acquired the method in singing of the great Garcia, and the almost equally famous Shakespeare—the only true method of voice production and that which has produced the great singers of Italian and French Opera.

When deciding to carry on her well known private work in Piano, Singing, Musical Theory, etc., under the name at the head of this section, it was with the idea of extending its scope as opportunity might offer. It perhaps did not occur that Woodstock could not maintain a Victoria Conservatory of Music, which during her three years after its establishment became an institution of such recognized importance in the music world of Canada, that a special publication entitled "Musical Toronto" gave her and her work extended space. Perhaps it was because one of her pupils, solely instructed by her, went to the Toronto College of Music and in the same year took the Gold Medal in Piano. Two other pupils sisters, one fifteen and one thirteen years of age, after studying with Mrs. Adney entered one of the foremost Conservatories in Europe and began immediately to play in public recitals. The head master writing to their parents said "they have had the perfection of piano forte training and are artists already." Today her work has become so well recognized in the United States, that she has been invited to become a member of the International Musical Society, formed thirteen years ago by the very leading musical professors and patrons of the world, and only seeking membership of those identified with "advanced musical research and its results."

There is a point relating to "Diplomas," "Graduation," etc., upon which Mrs. Adney needs again to remind the public. Except for theoretical studies such as harmony, this School gives no "Diplomas," has no "Graduates." In all practical, artistic work, the only test of proficiency recognized among artists is that of the actual work itself, except for the degree of Doctor of music, for which only the masters ever qualify, and which is recognition of exceptional proficiency and musical learning. For all others the only recognized test is ability to perform, from memory, to say, two recitals, a program of pieces of certain grades of difficulty, one of ordinary music, and one from the representative works of the great Masters. The program itself is the "certificate" and no teacher of high standing ever offers anything else; and whatever institutions hold forth as an inducement the prospect of a "Diploma" for a certain length of time in study, it may be taken as certain that the actual teacher is indifferent—any person whom the institution finds it convenient from time to time to employ. Even a school or institution becomes famous only through some exceptional TEACHER in it. An artist of real distinction offers only his program: no one asks or cares WHAT school he studied at, but who was his TEACHER. The aim of this school is not to grind out graduates with diplomas: we offer the best musical instruction, in our lines, that can be obtained in the Maritime Provinces, if not in Canada, and better than will be obtained by going to any but the few greater masters in the large cities of the United States.

Thus Woodstock offers advantages for musical study that one may go to any city in Canada, or to New York or London, and perchance not get. Mrs. Adney did not in the first instance select Woodstock as furnishing the full scope for her exceptional talents as a teacher, but she has made it and the work done here by pupils who are now successful teachers in various parts of United States and Canada, a credit to Town and Province.

Harmony, History and Theory of Music taught in classes which are free to pupils of the school. Ensemble classes taught by Mrs. Adney are also free.

Prospects on application.

She is very much missed in the Church and Sabbath School, where she had so much influence and where she now so much needed with her words of encouragement to dren.

HOW TO TREAT ALL SKIN TROUBLE

Greasy Ointments No Use—Must Be Cured Through the Blood.

It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy ointments. In fact they couldn't do anything worse, because the grease clogs the pores of the skin, making the disease worse. When there is an irritating rash a soothing boracic wash may help allay the pain or itching but of course it doesn't cure the trouble. Skin complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr. Williams' Pink Pills have cured many cases of eczema and skin diseases because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. The following proof is offered. Mrs. Fred Tremble, Gunter, Ont., says, "For more than a year I was steadily afflicted with salt rheum or eczema. My hands were so sore that I could not put them in water without the skin cracking open, I tried all sorts of ointments recommended for the trouble, but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble, and began taking them. I took the Pills steadily for six or eight weeks and they completely cured the trouble. This was several years ago and I have never been bothered with it since."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
