THE BOYCOTT WORKED WELL IN KANSAS CITY

Kansas, City, Dec. 16.—An egg boycott, declared ten days ago at a mass meeting of women's organizations of Kansas City, was lifted to-day. Storage eggs were selling at 40 cents at the time the boycott was started. To-day they retailed at 30 to 34 cent.

'Of course, if the price goes up again we will cease using eggs,' said Mrs. W. O. Church, president of the 'Housewife' League, 'but as long as the market is down we need not deny ourselves.'

Commission men ascribe the drop in prices more to increasing arrivals because of the mild weather, than to the boycott.

Two Chilean Warships

Ready For Delivery.

New York, Dec. 19.—A cable from London to the Herald says: The Lynch and the Condell, two warships built for the Chilean government at Cowes, are now ready for immediate delivery.

They are 820 feet long, and, with the exception of the British super-dreadnought Swift, are the largest in the world. Both vessels have had satisfactory trials.

The blouses of wash tulle are very inexpensive and durable.

Every time we hear a man say he loves his enemies or likes to work, we are tempted to speak up and say what we think.

Unreal pleasures are the most expensive.

Volcanic Upheavals Make Changes

Paris, Dec. 17.—The configuration of the coast of the Island of Ambrym in the New Hebrides group was changed on the western side by the volcanic upheavals on December 6. Vast streams of lava overwhelmed the Presbyterian hospital, while French and English business houses and native cocoa plantations were destroyed.

A heavy rain of cinders and scoria fell continuously for five days. The inhabitants fled from the vicinity and proceeded in canoes to the Presbyterian and Catholic stations, where 900 refugees are being cared for. It is believed that no lives were lost.

Rheumatism

Cured by Booth's Kidney Pills

T. E. Foster, of St. John St., Fredericton, N. B., says: 'I have found more actual relief from Booth's Kidney Pills than in all else I have ever tried for rheumatism. The pains

in my limbs have lessened greatly and I am better and stronger than in years previous. My appetite has built up and I eat and sleep better than I have in over

three years. My general health is greatly improved and can credit this only to Booth's Kidney Pills.'

This is the Booth Kidney Pill way. These wonderful Pills are sold under a guarantee to refund your money if they fail to relieve and suffer from Rheumatism or any trouble having its origin in the kidneys. They cure Backache, dull shooting pains, thick and cloudy urine, gravel and stone, rheumatism and all diseases of the kidneys and bladder.

Booth's Kidney Pills are sold by all druggists and dealers, 50c. box, or postpaid from The R. T. Booth Co. Ltd., Fort Erie, Ont. Sold and guaranteed by E. W. Mair.

Something New In Wireless Telegraphy

New York, Dec. 17.—A London cable to the Tribune says:

The newest development in wireless telegraphy was demonstrated at the exhibition of the physical society of London, in the Imperial College of Science, yesterday. This invention aims at the detection of the direction from which a message comes.

No one has yet discovered how to send wireless rays, like a searchlight, in any definite direction. They go out everywhere, but even though they cannot be directed, it is just possible that a ship will be able to find out whence they come. This is done by a wonderful new instrument shown by the Marconi Company yesterday.

The largest conveyor belt in the world is being prepared for shipment to Australia. It is to be 1,650 feet long, 36 inches wide and will weigh 12 tons. It will be capable of carrying coal 1,500 feet at a rate of 1,000 tons an hour.

Fire At Fort Kent

According to estimates the loss in the disastrous fire which broke out there late Wednesday night, destroying the Fort Kent hotel and seven stores, will amount to \$70,000. There is insurance of about \$20,000. The fire started in Assad Cannan's dry goods store and spread rapidly through the wooden frame structures nearby. The blaze was a stubborn one and seven stores had been burned before the fire was checked through the aid of the newly installed water supply system and aid from Eagle Lake.

The burned buildings are, the Fort Kent hotel, Tony Hobert's fruit store, Corey and Hobert, dry goods, R. J. Romanus, groceries, A. J. Laumiere, barber shop and groceries, L. J. Ziter, groceries, New York Bargain store and John Nadeau, barber shop and confectionery.

Practically all of the contents of the stores were destroyed. Families living over most of them were driven out by the flames and they are now homeless. Most of them lost their furniture and much of their clothing.

A stubborn fight was made to save the Bangor and Aroostock railroad building and the firemen were successful. A special B. and A. train brought fire fighters from Eagle Lake and with their aid, and that of the recently installed water system, the fire was finally checked.

MRS. BECKER DIED IN NEW YORK TO DAY.

New York, Dec. 19.—The mother of former Police Lieut. Charles Becker, died at her home to-day. She was very old, and had been bedridden for years. She died in ignorance of her son's plight.

PLAN TO ABOLISH BARS IN ALBERTA.

Edmundton, Alta. Dec. 19.—The movement to abolish the bar in Alberta is taking definite shape, according to information from the Alberta Moral Reform League, and a great convention will be held in Calgary, on February 18 next, to discuss the entire matter. The campaign, as planned, simply aims at the abolition of the bar, and to restrict the sale of wholesalers, clubs, and possibly with meals at hotels.

The odor of kerosene lamps can be stopped by putting one teaspoonful of fine salt into each lamp. The salt should be changed once a month.

If the gilded picture frames have become discolored, take the water in which onions have been boiled, dip a soft rag in it and wipe over the frames.

Do You
Know What This
Label Means?

It means cement of the highest possible quality.
It means cement tested by experts whose authority is final at all our mills.
It means cement acknowledged by engineers, architects and hundreds of thousands of farmers to fulfil every requirement of scientifically made Portland cement.
It means a cement that is absolutely reliable, whether used for a great bridge or for a concrete watering trough. You can use

Canada Cement

with complete confidence that your concrete work will be thoroughly satisfactory. You ought to have this confidence in the cement you use, because you have not the facilities for testing its qualities, such as are at the disposal of the engineers in charge of big contracting jobs. These engineers know that when cement has passed the tests made upon it at Canada Cement mills, it will pass all their tests. And this same cement is sold to you for your silo, your foundations, your feeding-floor, your milk-house or your watering-trough. Used according to the directions in our free book "What the Farmer can do with Concrete," Canada Cement never fails to give satisfactory results. Write for the book. It not only tells you how to mix and place concrete, but will also suggest scores of uses for it on your farm, every one of them valuable to you. In asking for the book you do not incur the slightest obligation.
