HOUSEHOLD

Escaped Fish.
1-2 cupfuls of flaked fish, 3-4 cup of
white sauce, 3-8 cup of buttered crumbs,
a small slice onion, sprigs of parsley, a
bit of bayleaf, salt and pepper. To
make the white sauce heat 3-4 cup of
milk with the bayleaf, onion and pars-
ley, and remove the seasonings. Com-
bine the flour, butter and milk as in fol-
lowing recipe. Put fish and white sauce
in a buttered dish in alternate layers.
Cover with buttered crumbs, and heat
through, browning the crumbs.

Oyster and Macaroni.
1 cup Macaroni, 1 pint oysters, 1 cup
white sauce, and one third cup buttered
bread crumbs.
Make the white sauce by melting 2
tablespoons of butter in a saucepan.
Draw pan to one side, add 2 tablespoon
of flour, stirring until perfectly smooth.
Then pour in 1 cup of milk gradually.
Boil 3 to 5 minutes over the open flame,
stirring continually. Season with pep-
per and salt.

Break 1 cup of macaroni into medium
lengths, wash, and cook 15 to 20 minutes
in 2 quarts boiling salted water. Drain
rinse in cold water, and drain again.
Put a layer of cooked macaroni in the
bottom of a buttered baking dish, then
a layer of oysters, season with butter,
salt and pepper, and cover with white
sauce. Repeat until all ingredients are
used. Cover with buttered crumbs and
bake until thoroughly heated through
and until crumbs are brown.

Oat Bread.
Four cups rolled oats, one half cup
molasses, two cups boiling water, one
half mixing-spoon of lard, one tea-
spoon salt, one half yeast cake, and
flour to knead stiffly. Raise over
night. Knead, mold into loaves, raise
until dough doubles its bulk and
bake from 45 minutes to one hour, ac-
cording to size of loaves. Very good.

Potato Puffs (to serve with chicken.)
One cup mashed potato, one tea-
spoon butter, one well beaten egg,
one half cup cream, salt and pepper
to taste. Beat the egg light and melt
the butter. Add to the mashed po-
tato with the cream. Season and
beat until light. Fill greased pop-
over or cup-cake pans half full of the
mixture and brown a golden brown in
quick oven. Take out carefully with
a limber knife or spatula and serve
around a roast of meat or fowl on a
platter.

Making a Hot Bed.
I have made a hot bed every year
for a number of years for the grow-
ing of plants and early vegetables. I
think one should be careful in select-
ing a place for the hot bed. It should
be located in a warm place that is
protected by buildings or trees. I
make mine just a little distance south
of my barn, and I find that the barn
keeps off the cold winds.

One can make the hot bed the size
desired. I make mine about thirty
feet long and the width of the window
sash. This makes it easy to get to
every part of the hot bed without get-
ting into it. I make an excavation
about two feet deep, then fill half full
of green manure, tramping it down
well. Then I put in two or three
inches of well rotted manure and a
layer of four inches of rich soil. The
boards arranged on the south side are
six inches lower than those on the
north side, so that when the glass
windows are placed over the bed they
will slant to the south nicely so that
all the water from the rains will drain
off. After I put in the manure I
tramp it down well and saturate with
water, then it will heat very fast. The
soil covering is well pulverized to
give a good seed bed. I like to keep
the soil just moist enough to bring
the seed. Too much water is liable
to rot the seed. After plants have
gotten a good start they should have
plenty of moisture, and as the hot
bed dries out very fast it will be ne-
cessary to water them once each day.
—W. D. Neale, in Farm, Stock and Home.

When surgeons operated on Mrs.
Laura Cassel, of Widdell, at the hospital,
Elkins, W. Va., Monday, they found
her internal organization just the re-
verse of that of all other normal human
beings. She was operated on for ap-
pendicitis and her appendix was found
to be on the left side instead of the
right. It was also found the spleen was
on the right side, and, strangest of all,
the heart was on the right side. Sur-
geons stated that the woman would re-
cover.

Good bacon has a thin rind and
the fat is of a pinkish white.

Dominion Department Of Ag-
riculture, Dairy Branch.

Within the next few weeks several
hundred cheese factories will be open-
ing, hundreds of farmers will be pre-
paring to milk thousands of freshly
calved cows. Logically this beginning
of a new season is the time to commence
keeping records of production of the
cows separately. Just a knowledge of
the total yield of milk from the whole
herd may give the owner an idea of the
average yield per cow, but that does not
give quite enough information. There
may be a thousand pounds of milk dif-
ference in the total yield of two cows
for the season, which would be unnoti-
ceable in the small difference in the ap-
pearance of their two milk pails daily.
Often the difference is far more than a
thousand pounds, yet all cows are
lumped together, good, poor and medi-
um, all alike, when taking merely an
average.

Since keeping records of individual
production many a dairyman has in-
creased the average of his herd by
fifteen hundred, and two thousand
pounds of milk or more, because he
has been able to detect the poor, un-
profitable cows that masquerade as
real dairy cows. On application to the
Dairy Division, Ottawa, milk record
forms and instructions are supplied
free. Write today, and begin the new
season right, with the object of keeping
none but profitable cows.

The Elkhart, Ind., branch of the Wo-
men's Christian Temperance Union has
adopted a resolution pledging the mem-
bers to wear "only such dresses as will
cause pure thoughts." The members
express their belief that modern dress is
a "colossal evil."

Charles Dare, a commercial fisher-
man in Unica, Ill., landed 10,000 pounds
of carp in a single haul in Kelsey
Lake. After dropping the net a school
of fish swamped it, so that it could not
be drawn in. The fish which did not
get away netted the fisherman \$600

During the recent cold snap 2,600
stoves burning oil were placed around
the 1,000 trees making up the peach
orchard of I. T. Cooper, in Dover, Del.
The fires were kept burning, not all
night, but from one hour before sun-
rise to about noon, and more than
saved their cost through the prevention
of damage due to frost.

At Neuwied, Germany, Prince Wil-
liam of Wied entered the ranks of Euro-
pean Sovereigns on Saturday, when he
formally accepted the throne of Albania
tendered to him by Essad Pasha at the
head of a deputation of Albanian not-
ables.

Mothers!

Preserve Your children's Hair

Every mother should see that her children's
hair is dressed with Parisian Sage, the
wonderful hair restorer and germicide. A
little neglect on your part now, may mean
much loss of beauty when your girl grows up.

Prevention Better Than Cure

Parisian Sage is a rigidly guaranteed, hair
restorer and cures all scalp diseases, prevents
hair from falling out and creates a rich
luxuriant growth of hair, a glory to woman
and the pride of man.

A pleasant hair dressing—ladies like it, and
your druggist E. W. Mair guarantees every
bottle that he sells at 50c. and stands ready
to refund your money if it fails to do its
work. By mail, postpaid from Giroux Manu-
facturing Co., Fort Erie, Ont. See that the
Girl with the Auburn Hair is on each package.
Sold and guaranteed by E. W. Mair.

All the Time

THE QUEEN HEATER is more
of a heating machine than it is a
stove. It can be regulated like a
lamp. You can have your room
any temperature you wish. You
positively keep a slow fire burning
24 hours by putting in one large
stick or knot. Will heat a room
20 feet square in ten minutes in
cold weather, or no sale.

Absolutely AIR-TIGHT and the
cleanest stove in the world. No
opening of any kind. Will save
half the fuel of the average stove.
Burns large knots, chunks, chips
and trash.

PARLOR STOVES—Best in the
world.

SITTING-ROOM STOVE—Be-
cause one fire can be run all winter.

BEDROOM STOVE—The finest
thing in the world.

DINING-ROOM STOVE—Be-
cause you heat your room in ten
minutes.

The Queen Top Draft Stove is only sold by
W. F. Dibblee & Son.
