Will Be Located At Rathway, N. J.

New York, April 21.—The new department of the Rockefeller Institute for the study of animal diseases, for the establishment of which John D. Rockefeller has given \$1,000,000, probably will be located at Rathway, N. J., near the New Jersey Agricultural Experiment station.

Hotel Metropole To Be Made A Club House.

NEW YORK, April 1.—The hotel Metropole, on 43rd street, which has been closed all of the time since Herman Rosenthal, the gambler, was shot and killed as he stepped from its doors, is to be remodelled and used as a clubhouse. The hotel has been a failure since the sensational murder and has passed through considerable litigation.

Told April First By Malden Physicians

MALDEN, Mass., April 1.—Physicians at the Malden Hospital announced to-day that Charles A. Walder was recovering from an operation for appendicitis which disclosed that his heart was on the right side of his body. The appendix also was in an abnormal position and could not at first be located. It was found in the middle of the abdomen.

About all most arguments are fit for is to promote unnecessary conversation.

Long Lost Witness Located Tuesday

NEW YORK, April 1.—A long lost witness in the recent Rosenthal murder case, whose testimony will make it possible to try former Police Lieutenant Charles Becker a second time, was located yesterday and told his whole story.

He is Jacob L. Goldman, east side salesman, twenty four years old, and known as "Silver Jack," because of his bright red hair; he is also called "Jack the Brick." Since March 6th he has been in the secret custody of the district attorney's office.

Goldman says he overheard Becker say to Jack Rose, in Lafayette Baths. "If you don't croak Rosenthal, I'll go."

With a great deal of discussion, the most drastic temperance resolution ever passed by a Liberal convention was adopted at Winnipeg Friday. A banish the bar act provides for the power of municipalities to reduce the number of any class of license, limit the hours of sale, and pass local option by-law, with the added provision that no liquor license may be granted in districts where local option has passed and been quashed on technical ground.

Mayflower buds picked in the woods in North Saco, Me., have been in blossom for the past week. It took them about a week to open after being placed in water, but they were as fragrant as if picked in full bloom.

Threatened With Disastrous Floods.

BUFFALO, March 28.—Many towns in Western New York are threatened with a repetition of the disastrous floods of a year ago, when homes were washed away and thousands of dollars damage was done. In the low lands of Tonawanda, people are going to and from their homes in boats owing to the overflow from the Tonawanda and Elliott creeks. At Batavia the municipal sewage disposal plant is out of commission, the water in the basement being eight feet deep. High water washed out a culvert on the Erie Railroad near Attica last night, necessitating the despatch of trains over the New York Central tracks.

Floods are also rampant along the southern tier of counties.

The Vandals

The next time you are called a "young vandal" by your admiring family, you may be interested to know that the Vandals were a Teutonic race, which in 406 A. D. crossed the Rhine, entered Gaul and three years later founded an empire in Spain. For twenty years they warred with the Romans and the Goths and then passed over into Africa, under their fierce leader, Genseric, subdued the Roman territory, and captured Carthage. Their advent into any country was the signal for wild terror. Their kingdom in Spain was finally overthrown by the Moors.

Rich yellows, rose tints, greens, blues, the new sulphur and mahogany shades are all blossoming out in the fascinating new separate coats.

Woman suffrage won a victory, Thursday, when the Massachusetts House for the first time concurred with the Senate in adopting a resolve which proposed an amendment to the constitution by which the words "male" would be stricken from the provision describing the qualifications of a voter. The vote was 164 to 39.

The star pupil rose at the school entertainment to declaim his piece. "Lend me your ears!" he bawled. "Huh!" sneered the mother of the defeated pupil. "That's Sarah Jane Doran's boy, right enough. He would not be his mother's son if he didn't want to borrow something!"

Dismissal Of 25,000 By N. Y. Central Road

New York, March 28.—Dismissal of 25,000 men by the New York Central Railroad since December 1, said S. A. T. Hardin, Vice President, to-day, is only a barometer of the company's business. "The reaction of forces was not arbitrary," he added. "It came about gradually as traffic, mainly freight, declined, and while I don't want to be a pessimist I cannot see any immediate prospect that business will pick up and these men come back to work." Mr. Hardin said this condition affected most of the eastern railroads. Of the 25,000 men dismissed by the New York Central, about 15,000 were laid off their lines east of Buffalo and 10,000 west of Buffalo.

Heavy Sea In Bay Of Fundy To-day

DIGBY, N. S., April 2.—A very heavy sea is running on this side of the bay this afternoon, breaking clean over Point Prim at the entrance of Digby Gut.

The steamer Yarmouth remains tied up at her wharf here, and Captain McDonald will not start out for St. John until the weather moderates.

FREDERICTON, April 2.—Seven inches of snow have fallen up to noon to-day, and Fredericton is having one of the worst storms of the season. The snow is accompanied by a heavy gale and is drifting badly.

MONCTON, April 2.—A heavy storm is raging in Moncton to-day. The storm began last night and increased in violence during the forenoon. The snow in places is quite deep. Trains are delayed, but no blockade is yet reported.

Don't Worry When You See Red

(From the Vancouver Province.)
Spondylotherapy is gospel of seeing red. It has been invented and promulgated by a San Francisco physician, and already numbers its little squad of devotees. The spondylotherapists declare that red is the greatest human energizer. A man or woman who is an habitual victim of weariness may be stirred to ambition and activity by wearing a red shirt, red stockings or a red necktie. A room papered or painted a glaring red is the ideal workshop. Redness tends to bring out maximum of human efficiency. There is no case of laziness so serious that it cannot be cured by persistent spondylotherapeutic treatment.

Senator Henry F. Hollis, of New Hampshire, Harvard, 1892, spoke before an audience of students in the Harvard Union the other night, and censured them rather harshly, probably [considering the undergraduate's temper] to their great enjoyment. Mr. Hollis seems to be something of a radical. He thinks that colleges will be of no real use until they limit the students' spending money, decline gifts from wealthy men, cultivate simplicity of life, even to the enforced prohibition of automobiles. On the other hand, Mr. Hollis has his reactionary hobbies, for he would increase the tuition, and would establish military drills, a hateful monarchial feature in this land of democracy. Mr. Hollis says: "I believe I am the first Harvard man of radical views to occupy a seat in the Senate."

Feminine Eloquence

Not long ago a clergyman was called upon to conduct the services at the funeral of a man with whom he had no acquaintance. So, thinking to glean a useful hint or two touching the deceased's character, when he was shown into the living room, the divine called a little boy of 8, evidently a member of the family, and put to him this question: "Can you tell me what were the last words of your father?" "He didn't have any," responded the lad. "Ma was with him to the last." —Ohio Penitentiary News.

Some people seem to think a philanthropist merely an easy mark.

Small checked wool suitings are expected to have a record season.

Perhaps poets may be born, but liars are self-made.

Robbers broke into St. Joseph's Church, Montreal, rifled the poor boxes and unsuccessfully attempted to open the safe where the sacred silverware is kept, Tuesday night.

Alfred Welland, furniture dealer, Montreal, has just been reunited at New York, to his wife, who for thirty-five years had been under the impression that her husband was dead. Welland fought through the Russo-Turkish war, and was supposed to have been killed at the battle of Plevna and is now over sixty.

The star witness at Morden, Man., in the Krafchenko trial for murder of Arnold, was Ben K. Rolph, a Winnipeg taxi driver. Rolph said on December 4, the day after the Plum Coulee tragedy, a man had stopped his car on William avenue, and he found to his surprise the man was Krafchenko, Krafchenko had asked to be driven to the north end of the city and en route had handed Rolph a parcel containing seventy-four \$10 Bank of Montreal bills and also \$72 in loose bills, the latter being for Rolph to purchase clothes for him (Krafchenko). Rolph had bought these clothes and charged them to Krafchenko, and had hidden the \$740 in his house.

Fire At Mount A. Academy

Moncton Times: Mount Allison Academy was very nearly deprived of one of its buildings one morning last week, when a fire commenced in the commercial room of the college and threatened to ignite the entire place. Harry Fife, of Amherst, a student, had sufficient presence of mind to obtain a bucket of water and partially subdue the flames. Two other students knocked the stovepipe down, and a bucket brigade being formed, the blaze was soon under control. The fire was caused by a defect in the pipe.

Looks Like Home Rule By Consent

LONDON, April 1.—The result of yesterday's debate in the House of Commons was to confirm the impression that an understanding will eventually be arrived at. A large meeting of Unionist Members in favor of a settlement on the federal plan was held in the Committee room of the House of Commons yesterday. The proceedings were private, but it is understood that an amendment to the Home Rule Bill, carrying out the views of the meeting, was approved and will be placed on the paper after the bill has been read a second time, for discussion in the committee stage. Thus Home Rule by consent is nearer to actual realization than it has ever been.

NEW YORK, April 1.—A cable from London to the New York Times says.

No Unionist candidate for Premier Asquith's seat for East Fife has been officially designed, and there is still some uncertainty as to whether it will be contested.

LONDON, April 1.—Mr. Asquith took full charge of the British army to-day. He summoned General Sir Arthur Paget, commander of the Irish garrison, to the war office, and the two men were in conference there for several hours. General Paget was summoned from Ireland to give the new Secretary for War a full report on the disaffection that is said to exist among officers and men in his garrisons. Recent revelations have shown that this was more widespread than the government supposed.

While the Premier and Paget were in conference the Globe, (Unionist) announced that the talking of the vote on the second reading of the Home Rule Bill had been postponed until Monday. The announcement, which the Globe stated was made on "high authority," caused great surprise, because the original programme of the government had called for a division to-morrow evening, at the close of the debate on the measure.

LONDON, April 1.—The Archbishop of Canterbury has issued a pastoral letter to the clergy in which he recommends that they invite their congregations to pray next Sunday, for a peaceful solution of the perplexities and anxieties in regard to Ireland.

LONDON, April 1.—Lloyd-George, who has been suffering from throat trouble, is reported somewhat better and was able to attend a meeting of the cabinet. He will probably be present in the House of Commons to-day.
