

Strenuous Work Soon Tells On You

Business Men and Breadwinners
the Victims of Nervous Ex-
haustion

When worry is added to overwork men soon become victims of nervous exhaustion—neurasthenia—the doctor calls it. Some have no reserve strength in their systems to bear the strain; others overtax what strength they have. If you find that you are nervous and not sure of yourself, that you sleep badly, and wake up tired and aching, your nerves are out of order. Other signs are inability to take proper interest in your work, your appetite is fickle, your back feels weak, and you are greatly depressed in spirits. One or more of these signs mean that you should take prompt steps to stop mischief by nourishing the nerves with the food they thrive on, namely, the rich red blood made by Dr. Williams' Pink Pills. These Pills have cured thousands of cases of nervous disorders, including nervous prostration, neuralgia, St. Vitus dance and partial paralysis. Here is an example. Mr. Jas. A. McDonald, Springhill, N.S., says: "In the summer of 1912, as the result, I think, of hard work, I was completely run down and found it necessary to quit work. I slept poorly, and what sleep I did get did not seem to rest me, as I was constantly tired. My appetite was poor and fickle, and my nerves unstrung. I had treatment from a doctor for some time, but it did not seem to help me, and having heard a great deal about Dr. Williams' Pink Pills I decided to try them. In the course of a few weeks after beginning the Pills I picked up wonderfully, and was able to return to work feeling like a new man. I have not had a day's sickness since, and naturally am now a firm believer in Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills will work the same beneficial results in any other tired, worn-out worker if given a fair trial. If you cannot obtain the Pills from your dealer they will be sent postpaid at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

"MY KIDNEYS HURT ME ALL THE TIME"

Gin Pills Cured Them. Free Sample Box Leads to Cure.

Only those who have been tortured with Kidney Trouble can appreciate how Mr. Trumper suffered. Being a railroad man, he was called upon to do all kinds of heavy work. The constant strain of lifting, weakened the kidneys.

I received the sample box of Gin Pills and was greatly benefitted by them. My kidneys were in such bad condition I could not lift or stoop without pain. In fact, they pained me nearly all the time. I have taken three boxes of Gin Pills, working all the time at heavy work on the railroad and did not lose a day.

It is with regret that we report the passing away of a faithful friend long associated with Rev. J. C. Berrie and well-known to all who were acquainted with the reverend gentleman. We refer to John C. who was a horse of wonderful sagacity and understanding, was always docile and gentle with his master whom he served faithfully for nearly twenty-five years. In all the circuits where he carried the ministers of the gospel, he also gave much pleasure to all classes of people jogging along easily with a large sleigh load of young people, or surprising them by a spirited action when another horse tried to pass. We feel no need for apology in thus paying tribute to an animal so widely known and so long a part in the family where he lived twenty-seven years.

AN ENGLISHMAN SEES FOOTBALL IN CANADA

A writer in London Answers says: If an Association football secretary emigrating to Canada is lucky enough to get a similar appointment with one of the numerous clubs scattered throughout the Dominion, he will find that he is faced with difficulties which he has not been subject to in Great Britain. In the first place, as all clubs are as yet amateur clubs, he will receive no salary for his work, unless he becomes secretary to one of the provincial football associations, such as the Ontario Football Association or the Province of Quebec Football Association, and even then he will receive only one hundred dollars for the entire season.

In the second place, the Canadian employer of labor is adverse to closing his office on Saturday afternoon. The secretary, therefore, often will find, when he thinks he has got together a winning eleven, that his best men have been detained at business. Remonstrance with the employer is useless.

The ground question is another great difficulty. Canada is a land of subdivided real estate, and it often happens that about half-way through the season a club finds that its ground is required for building purposes. The best equipped clubs are those connected with the railway companies.
