You Never Call The Doctor Unless You Need Him

You listen with grave attention to every word he says. BUT THEN—what do you do with that vitally important thing—the prescription he leaves?

Do you use the same care in choosing the druggist to fill it that you do in choosing the doctor who writes it? And should you? Doesn't the success of the doctor's treatment depend more than anything else on the exactness and care with which his prescription is filled, and the freshness, strength and purity of its ingredients? We also claim, but nowhere else near here can you get your prescription filled with more exact skill and care—the same exact precision—as in our prescription department. People who have us fill their prescriptions will tell you that our claims are based on facts. And these facts are becoming more widely known daily, as is evidenced by our constantly increasing prescription business.
