Wetmore.

A Mothers Duty
To Her Daughter

Is to Guard Her Health by
Keeping Her Blood
Sufficiently Pure.

Anxious mothers who see their daughters fail in strength, become pale and languid, can be certain that the cause of their anxiety is the condition of the growing girl's blood. At no time in her life does a girl stand in greater need of pure, red blood and the strength which it alone can give her, than when she is developing into womanhood. It is then that anaemia rapidly develops and the growing girl finds herself in declining health. If your daughter complains of feeling constantly tired if her appetite is fickle, if she is breathless from slight exertion, or if her heart palpitates violently on going upstairs, it is a certain sign that her blood is failing to meet the demands upon it, because it is thin and watery. It is at such times that Dr. Williams' Pink Pills for Pale People are worth their weight in gold to tired anaemic girls. They actually make the new, red blood, that brings brightness to the eye, the bloom of health to the cheeks, and strength and activity to the whole body. The following is an instance of their value to young girls: Miss Hilda Pearl Snowe, Barrington, N. S., gradually dropped under an attack of anaemia. At first she was pale and listless, suffering from occasional headaches, but as the trouble progressed, a severe cough also attacked her and her friends feared she was in the grip of consumption. Almost from the outset she was being treated medically, but with no apparent benefit. At a critical stage in her illness Miss Snowe wisely decided that she would give Dr. Williams' Pink Pills a trial. After taking them for some time there was a noticeable improvement in her case and the Pills were gladly continued until she was fully restored to health. Miss Snowe is to-day as healthy and rugged as any girl could wish to be, and her friends believe that Dr. Williams' Pink Pills saved her life.

These Pills not only cure anaemia, but all troubles due to poor blood and weak nerves. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

Bank of Nova Scotia

The eighty-second Annual Report of The Bank of Nova Scotia which appears in this issue is one of which the Shareholders of that sound old institution might be justly proud. The Bank closes its books on the 31st of December and shows for the year, after losses by Bad Debts are estimated and provided for, net profits, amounting to \$1,210,774.39. These profits are distributed as follows. Premium paid Bank of New Brunswick on purchase \$100,000.00 Dividends for year at 14 per cent \$814,504.60 Contribution to Officers' Pension Fund 50,000.00 Written off Bank Premises Account 150,000.00 Transferred to Reserve Fund 110,000.00 Balance carried forward 41,124.27 The paid-up Capital has been increased during the year by an issue of new stock and by the Capital Stock of the Bank of New Brunswick from \$4,734,390 to \$6,000,000. The Reserve Fund, with the addition of the Reserve of the Bank of New Brunswick \$1,790,000. Premium received on new stock \$271,854. and an appropriation from Profit and Loss of \$110,000. now totals \$11,000,000. Deposits and other liabilities to the public amount to \$62,686,436.27 and 62 per cent of this amount is held in readily available assets. The quick assets total \$39,073.35 of which \$18,326,312. is in cash and Bank balances, and the total assets of all kinds amount to \$80,151,829.99.

Changes in the form of this year's statement made necessary by the recent revision of the Bank Act make comparison between some of its details with those of last year impracticable, but enough is shown above to indicate that The Bank of Nova Scotia has during 1913 not only maintained but strengthened its position; besides acquiring a goodly percentage of new business.

The Auditor's Report is appended as usual. The Bank of Nova Scotia anticipated by six years the recent action of the Government and was the first Canadian Bank to submit its books and Annual Statements to outside audit.

PLASTER ROCK

Three of the leading lumbermen, of Plaster Rock, namely Messrs. L. Shanks, W. Harrison and D. Giberson employed by the Fraser Lumber Co. are doing an extensive business on the head waters of the beautiful Tobique river.

At Mr. Harrison's camp the Canadian Reading Association are operating a night school. During the fall they erected a small camp near Mr. Harrison's main camps, and here they employed a young man (who has had experience in teaching) to teach night school. The men are invited to spend two hours every night if they prefer attending this school, for generally there are those who can neither read nor write, and here is a chance if they desire to do so. The room is attractive and well furnished with wholesome reading material and up to date school supplies. During the day the teacher, Mr. Melvine Cruickshanks of N. S., goes out and takes his place among the men in slaying the big spruce.

Mr. Shanks is operating the same ground as of last winter at least camping in the same camps, he has a splendid crew of men, who always make a stranger feel at home. Mr. Giberson, fourteen miles from Riley Brook is also working over the same ground as that of last winter. Their cooks are up to date and men of wide experience. Mr. McAskill who is cooking for Mr. Harrison has a reputation of knowing his work, as for years he has cooked for the sports during the fall. Mr. Samuel Shanks is not the least behind in his qualifications of a present day cook. A certain gentleman who sat at his table nine years ago, just recently was heard to remark "I ate Sam's cooking last week, I tell you Sam knows how."

John King, employed by Mr. Giberson although a young man, the crew is satisfied with his work. A recent visitor to these camps, made the statement that the men of to-day who work in the woods are not like the men of years ago. Card playing which caused war in camps, singing bad songs and telling vulgar stories are strictly forbidden in these three camps at least, much to the credit of these successful lumbermen.

All join in wishing Messrs. Shanks, Harrison, Giberson and crews success during their winter operation.

Don't use Teas that are laden with dust and broken leaves. Of course such Teas cost the packers considerably less, but they are not good for you. "Salada" Teas are clean fresh and fragrant.

The special price of 25 cts. per lb. lately introduced, is really a beautiful Tea in strength and flavor. You certainly should try it, you won't be disappointed.
