To Save Doctors' Bills.

The Commissioner of health of the State of Pennsylvania, evidently believes in reaching the people in every way that is possible. He is endeavoring to impart to them some health philosophy, and he gives weekly talks upon the subject of health. One aspect of this subject to which he frequently recurs is that of the health giving possibilities of walking. The other day he said:—

"Thousands of business men and women go day in and day out with but a fraction of the physical exercise which nature intended that every human being should have during his or her walking hours. The easiest and most natural of all exercises is neglected and often looked upon as a positive hardship. It is surprising that our statistics show a remarkable increase in the number of deaths from Bright's disease and kindred ailments which result from overeating and under-exercise?"

There is a deal of car-fare, which might be saved if people were willing to do more walking. And there is another saving which would be very much greater and that is the saving of doctors' bills. Health and walking are not very far apart.

Houlton Sunday

Houlton, April 13.—Damage estimated at \$5 000 was done by fire Sunday afternoon at the Cogan block on Bangor street. The flames started in a shed behind Edward Faul's boarding house and their origin is a mystery. A alarm of fire was turned in at 2 o'clock and the department responded promptly. The firemen had a hard fight and the flames were not extinguished until after the roof had been burned from the Cogan block. The loss of Edward Faul's furniture and McCluskey's hardware stock, will amount to \$5,000, it is estimated. The losses are partly covered by insurance.

Canadian Pacific, Allan, White Star and Canadian Northern lines, the total subsidy being a million dollars. The sailings were distributed throughout the week instead of being mainly at week ends and the service worked satisfactorily. With certain possible readjustments it is expected the contracts will be renewed.

Spring Impurities
In The BloodA Tonic Medicine is a Necessity
at This Season

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.,
