FOOD AND FANCY SALE.

The food and fancy sale held in A. M. E. church, Tuesday evening. A grand success. Over \$50.00 realized. The committee desires to thank the merchants who devoted so liberally, also the ladies who gave fancy articles and cooking. The booths were well attended by the large number of persons present.

HILL-GROWN TEA.

Tea growing is a fine art. The quality of tea depends upon the elevation of the land and the nature of the soil. In Ceylon, where "SALADA" Tea is grown, great care is given to the tea plant as an industry, just as we cultivate apples in the Maritime Provinces. That is why Ceylon Tea is the finest in the world.

"SALADA" Tea is grown at an altitude of over 5000 feet. After the leaves are once picked they never touch human hands, but are packed by machinery in hermetically sealed lead packages which retain the fragrance and flavour.

Bulk Tea, being open to the air, invariably loses its flavor.

You Never Call The Doctor Unless You Need Him

You listen with grave attention to every word he says. BUT THEN—what do you do with that vitally important thing—the prescription he leaves?

Do you use the same care in choosing the druggist to fill it that you do in choosing the doctor who writes it? And shouldn't you? Doesn't the success of the doctor's treatment depend more than anything else on the exactness and care with which his prescription is filled, and the freshness, strength and purity of its ingredients? We also claim that nowhere else near here can you get your prescription filled with more exact skill and care—the same exact precision—as in our prescription department. People who have us fill their prescriptions will tell you that our claims are based on facts. And these facts are becoming more widely known daily, as is evidenced by our constantly increasing prescription business.
