 song service Dr. Marven on behalf of
 the congregation, presented the pas-

WOODSTOCK SCHOOL OF MUSIC

The most successful Music School in Canada

THE WOODSTOCK SCHOOL OF MUSIC was started by Mrs. Adney simply as a Name under which the scope of
 work of the most successful teacher of music in this Province might be extended. We shall not here refer to the
 course of study offered, except in a passing way, but to those more personal matters which so far out-weigh all other
 considerations as to make the list of truly successful schools of any kind very few in number. It is altogether a
 matter of the TEACHER.

The secret of Mrs. Adney's widely known success is that resolved upon having the best instruction at any cost she
 had the wisdom to select or the good fortune to be directed to the BEST TEACHERS IN AMERICA, and has the
 faculty of imparting what they taught her. William Mason was our greatest teacher of Piano and admitted as the
 equal of the best of Europe. He was a pupil of the immortal Liszt. Her lessons, over an extended period, were
 cheap at six dollars apiece. Previously, she had instruction from Gonzalo Nunez, a distinguished graduate of the
 Paris Conservatory, where Prof. Le Couppey was Instructor on Piano. This world's greatest music school also
 perpetuates the musical theories of Liszt. These ideas lead to a technique in contrast with that of the dry,
 mechanical German technique. We criticize German execution, not German music. The influence, however,
 of this nation of musicians is such that their "method" is the one nearly everywhere met with. Combining
 Mason's "Touch & Technic" with the thus rarely taught "Conservatoire method," it is worthy of note that Mrs. Adney's
 steady use of "Le Couppey" has exhausted the American edition, and a new one is being printed for her use.

In Voice, Mrs. Adney was in a sense almost equally fortunate. After some instruction from a famous (tha
 is to say, well advertised) teacher, whose method was not as great as his celebrity, nor his charges, she took lessons
 under Mr. A. A. P'attou, a distinguished French singer and teacher, who with the finest credentials that France had
 to offer, came to New York to make his debut where German influence controlled everything from orchestra
 members to press critics, and it being shortly after the Franco-Prussian war his reception was so hostile that he
 abandoned his intended career in Grand Opera, and retired to the routine work of a teacher. Later she studied
 at the N. Y. Vocal Institute, under the talented Mr. Tubbs, editor of The Vocalist, and derived many ideas that have
 proven of great value here. So it happened that, by accident or otherwise, Mrs. Adney acquired the method in
 singing of the great Garcia, and the almost equally famous Shakespeare—the only true method of voice production and
 that which has produced the great singers of Italian and French Opera.

When deciding to carry on her well known private work in Piano, Singing, Musical Theory, etc., under the name
 at the head of this section, it was with the idea of extending its scope as opportunity might offer. It perhaps did
 not occur that Woodstock could not maintain a Victoria Conservatory of Music, which during her three years after its
 establishment became an institution of such recognized importance in the music world of Canada, that a special publica-
 tion entitled "Musical Toronto" gave her and her work extended space. Perhaps it was because one of her pupils,
 solely instructed by her, went to the Toronto College of Music and in the same year took the Gold Medal in Piano. Two
 other pupils sisters, one fifteen and one thirteen years of age, after studying with Mrs. Adney entered one of the fore-
 most Conservatories in Europe and began immediately to play in public recitals. The head master writing to her
 parents said "they have had the perfection of piano forte training and are artists already." Today her work has
 become so well recognized in the United States, that she has been invited to become a member of the International Musica
 Society, formed thirteen years ago by the very leading musical professors and patrons of the world, and only seeking
 membership of those identified with "advanced musical research and its results."

There is a point relating to "Diplomas," "Graduation," etc., upon which Mrs. Adney needs again to remind the
 public. Except for theoretical studies such as harmony, this School gives no "Diplomas," has no "Graduates,"
 In all practical, artistic work, the only test of proficiency recognized among artists is that of the actual work itself, except
 for the degree of Doctor of music, for which only the masters ever qualify, and which is recognition of exceptional pro-
 ficiency and musical learning. For all others the only recognized test is ability to perform, from memory, to say,
 two recitals, a program of pieces of certain grades of difficulty, one of ordinary music, and one from the representative
 works of the great Masters. The program itself is the "certificate" and no teacher of high standing ever offers
 anything else; and whatever institutions hold forth as an inducement the prospect of a "Diploma" for a certain length
 of time in study, it may be taken as certain that the actual teacher is indifferent—any person whom the institution finds
 convenient from time to time to employ. Even a school or institution becomes famous only through some excep-
 tional TEACHER in it. An artist of real distinction offers only his program: no one asks or cares WHAT school he
 studied at, but who was his TEACHER. The aim of this school is not to grind out graduates with diplomas: we
 offer the best musical instruction, in our lines, that can be obtained in the Maritime Provinces, if not in Canada, and bet-
 ter than will be obtained by going to any but the few greater masters in the large cities of the United States.

Thus Woodstock offers advantages for musical study that one may go to any city in Canada, or to New York or
 London, and perchance not get. Mrs. Adney did not in the first instance select Woodstock as furnishing the fu-
 scope for her exceptional talents as a teacher, but she has made it and the work done here by pupils who are now suc-
 cessful teachers in various parts of United States and Canada, a credit to Town and Province.

Harmony, History and Theory of Music taught in classes which are free to pupils of the school. Ensemble
 classes taught by Mrs. Adney are also free.

New Aerial Life Preserver a
 Success

LOS ANGELES, Jan., 10.—One of
 two women passengers, carried yester-
 day by Glenn Martin, an aviator,
 stepped from his machine when it was
 850 feet in air. She reached the
 ground safely and demonstrated, to
 Martin's satisfaction, the practicabil-
 ity of a new aerial life preserver.
 Spectators saw the girl, Miss Piny
 Broadwick, fall 75 feet like a shot.
 Then a parachute attachment on her
 shoulders unfolded and she descended
 gradually, and with no apparent ef-
 fort at balance.

School here were destroyed yesterday
 morning by a fire which the police
 believe was set by Suffragists. The
 loss is estimated at about \$70,000.
