Acadia Ladies' Seminary.

A copy of the Acadia Ladies' Seminary Catalog for the year 1914-1915 has just come to our table. It is finally printed, well illustrated and bound in an attractive cover. An examination of the Catalog shows that the work of this well known school, which is achieving such wide popularity, is arranged in three divisions. The First Division under the general head Academic outlines the work of the Collegiate, the Senior or Sophomore and the Junior Matriculation Courses. The second Division is captioned, The Conservatory of Music and Fine Arts. Eleven Teachers devote themselves to the work of this Division. The courses are modern, thorough, and demand upon the part of the pupil who expects to complete, either the course in Pianoforte, Organ, Violin, Elocution Art, etc., application, ability, self-restraint. The Director of the Conservatory, Mr. McKee, and four assistants, Mrs. Richmond of the Vocal Department, Miss Langley in Violin, Mrs. Shreve Bayman in oratory, Miss Bailey in Art, are all well known artists and specialists in their work. The Conservatory takes a front place in the rank of similar schools.

The Third Division is that of Practical Arts which includes the teaching of Business, Stenography, Typewriting, Household Science, with the Normal Training Courses and the Courses for Home Makers. The work in the Household Science Department is in the efficient hands of Miss McIntyre and Miss Chute while Miss MacFhee formerly a Teacher in the Maritime Business College, directs the work of the Business Department.

Principal De Wolfe reports that the Seminary has in 1913-1914 had the most successful year in its history. The attendance has aggregated 324. To meet the demand for places a new Department will be opened in a separate building, and will be known as the Junior Department where girls under the age of fifteen will be housed and taught independently of the Senior School. It is believed that this is the first school in Eastern Canada which seeks to establish a Junior Department in a separate building. Parents who are seeking the best in Education and for a place in a good Residential School where the life is homelike, the advantages for Culture are unexcelled, where Special Branches are not emphasized at the expense of Educational Development, where there is an emphasis upon the moral and religious aspect of life, where the Environment is unsurpassed and the Expense moderate should send for a copy of this Catalog and study it.

Piano Contest

Please remember—this is not going to be one of those low grade Pianos which you wouldn't buy at any price (if you were well advised). It is an instrument of the highest quality that is constructed, and is costing us a great deal more than some other pianos which we could have put into this competition just as well as not. You might be surprised to know that we could put in just about two of "the other kind," for what this is costing us. We decided to do this because we are musicians ourselves and want our readers to compete for just such an instrument as we would take pride in owning and using ourselves. We think that the public which we reach will appreciate this fact. Everything else being equal, you would prefer the high grade piano wouldn't you?

You will not have to get your piano out of a catalogue, or from a high-flown description, or merely from a newspaper cut, but you can see a piano of exactly the kind we are giving, at the "Dispatch" office, Woodstock. You can examine it and try it. Only this—your piano will be brand new, direct from the Amherst factory, and you will have three different styles of cases to choose from. Inside they are all alike. We want to make this competition something worth working for. Something a little bit different from what a newspaper generally offers.

The "Amherst" is comparatively a new piano, but one of the highest grade pianos made in the Dominion of Canada. The judges at the Toronto Exposition awarded it the best. That is speaking pretty well of a piano made in the Maritime Provinces, isn't it? What more could be said?

There is another thing about this "Amherst" Piano. It is the only piano made into which you can put a "player" afterwards if you want to. "Players" are very costly when you have to buy them with a piano. Wouldn't you prefer a piano into which you could put a player attachment later on, at no great deal of money. The Amherst Player, or "Cremona" one is a beautiful simple instrument, with several improvements over any other, under more perfect control, easier to operate. The player mechanism is built under exclusive patents, is very compact, and that is why it does not require a special piano to hold it, and it can be placed in the ordinary pianos which the "Amherst" factory turns out. Every Amherst Piano is guaranteed for Twenty years, and is the only piano that carries a guarantee for that length of time.

Write to the Dispatch Office for instructions and Subscription Blanks for this contest.

of Somerville, was the scene of a very pretty event, when there rice, Miss Ella G. McCormack was united in marriage to George W. Letson, son of Mr. and Mrs. Thomas Letson of Victoria.
