AND YET IT WASN'T ALARMING.

A young doctor in a country district was called one night by an old farmer to his first case, relates a contemporary. The patient was the farmer's son, who was lying on the bed in much pain. The young medico threw out his chest and said: 'This should cause you no alarm. It is nothing but a crustified exegesis antispasmodically emanating from the physical refrigerator, producing a prolific source of irritability in the pericranial epidermis.'

The farmer looked at him and replied: 'Just what I said; but his mother thought it was stomachache.'

Pale And Sickly
Boys And GirlsNEED ALL THE STRENGTH THAT
GOOD RED BLOOD CAN GIVE

Youth is the time to lay the foundation for health. Every boy and girl should have plenty of pure, red blood and strong nerves. With thin, impure blood they start life with a handicap too great to win success and happiness. Pure, red blood means healthful growth, strong nerves, a clear brain and a good digestion. In a word, pure blood is the foundation of health.

The signs of thin, impure blood are many and unmistakable. The pale, irritable boy or girl, who has no appetite or ambition, is always tired out, melancholy, short of breath, and who does not grow strong, is the victim of anaemia, or bloodlessness—the greatest enemy of youth.

There is just one thing to do for these boys and girls—build up the blood with Dr. Williams' Pink Pills for Pale People. You can't afford to experiment with other remedies for there must be no guesswork in the treatment of anaemia. Through neglect or wrong treatment anaemia gradually develops into the pernicious form which is practically incurable. Dr. Williams' Pink Pills work directly on the blood, giving it just the elements which it lacks. In this way these Pills build up every organ and nerve in the body, thus developing strong, rugged boys and girls. Miss Anna Loseke, Grand Forks, B. C., says:—'I think that before taking Dr. Williams' Pink Pills I was one of the most miserable girls alive. I was hardly ever free from awful headaches, was as pale as a ghost, and could not go upstairs without stopping to rest. Now since taking the Pills the headaches have gone, my appetite is good and I am equal to almost any exertion, and you may be sure I will always recommend Dr. Williams' Pink Pills.'

Sold by all medicine dealers or sent by mail, post paid, at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

No Civil War, Says Mr.
Hippe!!

London, July 25 — Augustine Birrell, in a speech at Melbourne, in Cambridgeshire, yesterday, said the government will go forward with its previous proposals in regard to the amendment of the

home rule bill. This will enable each county in Ulster to vote itself in or out of home rule. His forecast was that the counties of Antrim, Down, Armagh and Londonderry would vote to remain outside the provisions of the home rule measure, while the counties of Fermanagh, Cavan, Monaghan, Tyrone and Donegal will vote to come in under the home rule government.

Mr. Birrell warned the public not to be bamboozled by the newspapers into believing that there would be a civil war in Ireland. He said he was convinced that such a thing would not happen. If it did, the government would inevitably interfere.

London, July 24.—The Daily Chronicle is today practically alone among Ministerial journals in maintaining a disgruntled attitude, and it turns its bitterest criticism upon Premier Asquith who only yesterday was its almost hallowed leader.

It accuses him of carelessness in passing the King's inexcusable words, and reminds him how near his carelessness about phrases brought the Government to the rocks during the army crisis. It concludes 'We hear a good deal sometimes of virtue driving with a slack rein. It is a virtue, but not at danger points on the road. Liberals sacrifice much to keep peace and are sacrificing much now to our patriotic anxiety to keep the Army and King outside the controversy, but there is a limit. Peace could be purchased too dearly at the price of the fundamental liberties, and purchased beyond the point which has already been more than once dangerously approached. No Liberal Government could live 48 hours unless it look the challenge up.'

This is strange language from a hitherto almost lavishly loyal party organ, which was regarded as the special exponent of Lloyd-George's personal views, but it reflects the views at least of the hundred Radical M. P.'s and the whole Labor party. The Labor members bitterly resent Premier Asquith's neglect to direct the King to invite their representatives to Buckingham Palace, especially when those whom they regard as rebels, Carson and Craig, are royally honored. They cannot apparently, see that the conference's business is expressly held to decide the fate of the men whom Carson and Craig were sent to England to represent.

It is generally understood, as I stated yesterday, that it is Craig's claim for exclusion of six counties that stopped the progress of the conference. The Government's latest proposal was the exclusion of four northeastern counties for an unlimited time and the exclusion of Tyrone with a ballot of this one county at the end of two years, but the Unionists replied that a clean cut of six counties was their minimum.

Ultimatum of Sir
Edward Carson.

New York, July 15.—The World's London special says

Sir Edward Carson refused to consider anything in the King's conference short of the exclusion of the six Ulster counties, together with a promise of dissolution of parliament this fall. Such terms were repulsed by the Nationalists

and Liberal members of the conference, who offered their former conditions, namely to give any Ulster county the right to vote itself out of home rule for a term of six years, provided a majority of its parliamentary electors so decided.

Carson shoved aside Lord Lansdowne and Bonar Law. They were anxious to come to terms, but Carson bound them helpless by the instruction of the Ulster Orange council. The cabinet has not made up its mind whether to proceed with the present amending bill, or drop it. The bulk of the Irish party are for dropping it, but will meet Monday to decide upon their attitude.

No immediate outbreak of trouble is feared but Nationalists express confidence in their ability to meet their opponents if that kind of fighting is wanted.

Saint John Exhibition.

The Experimental Farm System of Canada is cooperating this year in making the Agricultural Department of the Saint John Exhibition a larger and more complete feature than has been the case for some years. Owing to the early dates on which the Exhibition must be held in order to secure seasonable weather for those attending the display of Agricultural products has during the last two or three Exhibitions not been as comprehensive as the Exhibition authorities would like but this year a special effort is being made and the Experimental Farm System will make an exhibit embracing the following departments. Annual Husbandry, Field Husbandry, Forage Plant Cereals, Botanical, Horticultural, Poultry, Chemical and Bees. This exhibit will be in charge of special officials and will be of a high educational value and of great interest to all classes whether farmers or not. It is also planned to supplement the value of the exhibit by literature especially prepared and also by special lectures to be delivered under the supervision of the Provincial Department of Agriculture. In these days it is the up to date and scientific farmer who produces the goods that command the best prices and these lectures will describe the latest and most effective ways of getting the desired results. Other features are also under contemplation which will make the Saint John Exhibition of 1914 an Agricultural Exhibition in fact as well as in name. The dates are from Sept. 5th, to 12th.

Piano Contest

Please remember—this is not going to be one of those low grade Pianos which you wouldn't buy at any price (if you were well advised). It is an instrument of the highest quality that is constructed, and is costing us a great deal more than some other pianos which we could have put into this competition just as well as not. You might be surprised to know that we could put in just about two of 'the other kind' for what this is costing us. We decided to do this because we are musicians ourselves and want our readers to compare for just such an instrument as we would take pride in owning and using ourselves. We think that the public which we reach will appreciate this fact. Everything else being equal, you would prefer the high grade piano wouldn't you?

You will not have to get your piano out of a catalogue, or from a high flown description, or merely from a newspaper cut, but you can see a piano of exactly the kind we are giving, at the 'Dispatch Office, Woodstock. You can examine it and try it. Only this—your piano will be brand new, direct from the Amherst factory, and you will have three different styles of cases to choose from. Inside they are all alike. We want to make this competition something worth working for. Something a little bit different from what a newspaper generally offers.

The 'Amherst' is comparatively a new piano, but one of the highest grade pianos made in the Dominion of Canada. The judges at the Toronto Exposition awarded it the best. That is speaking pretty well of a piano made in the Maritime Provinces, isn't it? What more could be said?

There is another thing about this 'Amherst Piano.' It is the only piano made into which you can put a 'player afterwards if you want to. 'Players are very costly when you have to buy them with a piano. Wouldn't you prefer a piano into which you could put a player attachment later on, at no great deal of money. The Amherst Player, or 'Cremonatone is a beautiful simple instrument, with several improvements over any other, under more perfect control, easier to operate. The player mechanism is built under exclusive patents, is very compact, and that is why it does not require a special piano to hold it, and it can be placed in the ordinary pianos which the 'Amherst' factory turns out. Every Amherst Piano is guaranteed for Twenty years, and is the only piano that carries a guarantee for that length of time.
