AN ARMY OF PEACE

Well Equipped Buildings Needed For
Technical Education

Dr. F. W. Merchant in discussing "Technical Education, said there was a great deal of talk about conservation these days, but the loss to the nation in the matter of material things was nothing compared to the unrealized gift of its citizens, which had no chance to find an outlet for its genius. The present system of evening classes was not one conducive to the best results. Pupils came jaded to the classes after their day's work, and the speaker contended that the day school must be depended upon more for the support of vocational education. The ages best suited for the making of industrial efficiency were between fourteen and sixteen, and it was here that the nation lost a large number of young members who might be drafted into the ranks of the technical schools. He was afraid that they would eventually have to take the action of Germany in this regard and make technical education compulsory. A great movement was going on with regard to militarism; halls were being erected all over the country, and Dr. Merchant declared that they wanted similar buildings equally well equipped for the training of what Lord Haldane calls "an army of peace to maintain industrial supremacy."

Ghost in a Negro Church

A ghost which appears nightly in a window of a negro church in Alabama, has caused much fear. The spook is described as being six feet tall, wearing a white gown with a long train, and standing with arms outstretched and extended toward the sky in an attitude of worship. It is surrounded by a phosphorescent glow.

Some advance the explanation that the figure is a freak caused by strange lighting angles. Others contend it is a reflection from the baptismal pool, some distance away in a natural formation of rock. Still others think the apparition is a demented person or a hermit who comes to the building each night. But the figure apparently is light and phantom-like, with no definite lines or features.

No one has made any sort of investigation and members of the congregation declare they will not. However, it is becoming a serious matter with some of them, who say they will not go to church so long as there is any indication that it is haunted.

Oldest Priest Dies

Canon Joseph Watson, the oldest Roman Catholic priest in England died at the age of ninety-three in St. Catherine's Convent, Newcastle-on-Tyne. The canon was provost of the Cathedral Chapter of St. Mary's, Newcastle, and was ordained as long ago as 1847. He was at Tudhoe, in Durham, for 41 years, and while there built the beautiful church of St. Charles and an orphanage for girls.

The Cat That Walked

Will Jones, a farmer of Lipps, Va., gave his sister, who lives at Hazard, Ky., a distance of thirty-five miles, an Angora cat. When she arrived at her home with the animal she released it, and in forty-eight hours she received a telephone call from her brother that the feline had returned.

Timing the Rounds

Two Pennsylvania jewelers have patented a device to time rounds in boxing matches accurately and also to automatically designate the numbers of the rounds.

New Life Preserver

Worn deflated under the coat, a new French life preserver can be inflated and made ready for use by the insertion of a capsule of highly compressed air.

Uruguay's Drydock

The government of Uruguay plans the construction of a drydock large enough for the greatest ocean liners.

Big Tobacco Bill

In a year Uncle Sam smoked just 7,707,000,000 cigars and 14,000,000,000 cigarettes.

The Candy Kid

The candy bill of the American girl is \$134,000,000, \$10,000,000 more than the cost of the nation's paint and varnish.

HOUSEHOLD

GRILLED TOMATOES.

Wipe large, firm tomatoes free from blemish and split crosswise. Lay on a well greased broiling rack skin side down and cook until tender. Turn, add a bit of butter with salt and pepper to season and brown lightly. Serve on slices of buttered toast.

BOILED TOMATOES.

How many housekeepers know that boiled tomatoes have a much better flavor than the same vegetable-fruit stewed? Smooth tomatoes nearly of a size should be chosen. These are dropped in boiling salted water and boiled until they can be easily pierced with a fork. Lift them out then, place on squares of buttered toast, score each on top crosswise, season with a lump of butter, some salt, pepper, and a very little sugar, and serve as hot as possible.

SUNLIGHT FOR CLOTHES.

If the larvae of the clothes' moth are destroying your woollens and furs, have the garments taken out of their hiding places, brushed and exposed on outdoor clothes lines to the force of strong daylight. Sunlight is the one thing which these clothes' moth larvae cannot survive. The grub can prosper in an atmosphere of moth balls, but dies in a short time when exposed to the direct rays of the sun.

Winston Churchill in an interview, declares if Britain goes down before German militarism, the United States will be the next to be attacked.

The cover cut of Rod and Gun Magazine for September illustrates the fact that the open season for wild ducks in Canada starts with September. The list of contents which is sure to appeal to all sportsmen readers contains among other things the following stories and articles: A Reconnaissance from Coast to Coast; The Wildfowler in Canada from 1906 to 1914 by Bonnycastle Dale; Our Friends of the Waterways by H. Mortimer Batten; Duck Shooting by Twilight by R. J. Fraser; After Nova Scotia Woodcock with That Good Old Man; From Sharbot Lake to Montreal by Water; Telling September Ducks; A Cry in the Wilderness; and the first of a series of articles on Things to know about a Shotgun. The regular departments are as usual well maintained. W. J. Taylor, Limited, Woodstock, Ont, are the publishers.
