The British Government was expected to take off the embargo on tea at the end of this week, but a cable received by the "Salada" Tea Co. to-day states that the Government has decided to keep it on indefinitely. This means that no tea can be shipped out of England.

Cables have been received this week from Ceylon and India, by the "SALADA" Tea Co. which state that all business in tea has ceased. This is no doubt due to the impossibility of getting steamers to carry it to England and elsewhere, as in the past German ships did a great deal of this. It will likely be many months before they can be replaced by British Bottoms.

This will have a serious effect on the tea trade as Canada has to-day the smallest stock she has had for years.

An appeal on behalf of "The Carleton Co. Soldiers' Contingent Relief Fund," to the patriotic people of Woodstock Town and the County of Carleton, to give a ready and generous support to the above fund.

This fund is to make provisions for those relatives "left" who will miss the support given them by those volunteers gone to the front.

They have gone to fight the Empire's battles and they represent us. It is therefore our bounden duty to see that those left behind, who were depending on them for support, do not suffer in any way.

WM BALMAIN, Treasurer,

Woodstock, N. B.

Ottawa, August 26.—H. R. H. the Duke of Connaught, this afternoon issued a personal appeal to the people of Canada in behalf of the patriotic fund. It reads.

In response to urgent appeals from many parts of the Dominion I inaugurated the Canadian Patriotic Fund the object of which, is to provide for the needs of the wives, families and dependents, relatives of those who go to the front to fight the battles of Great Britain and her allies. Unless generous minded citizens come to their aid, there will be, during the coming winter, much hardship in many families, owing to the absence of the bread winner. I have the greatest confidence that those who are in a position to give, need but the opportunity of doing so, and that the response will be widespread and generous.

During the past few days the Canadian Patriotic Fund has been duly organized, a strong executive, representing the whole Dominion, has been appointed and a central bureau establish-

ed at Ottawa.

I sincerely hope that in every city and town throughout the Dominion branches of this organization may be formed, full particulars of which can be had by addressing the Honorary Secretary, H. B. Ames, M. P. at Ottawa.

By co-ordinating and harmonizing benevolent efforts in this way, the danger of overlapping on the one hand, or neglecting deserving communities on the other hand, may be met and overcome.

I am convinced that all Canadian hearts will go out to their fellow citizens who have gone to the front.

A prompt and hearty response to this appeal will put all anxiety at rest about those near and dear to them and will thus afford to those who cannot go an opportunity of doing their duty to Canada and the Empire.

(Signed) ARTHUR,
 President Canadian Patriotic Fund.

Horrors of War Around Liege

London, Aug. 31, 12 25 p. m. — A despatch to Reuter's Telegram Company from Ostend says that a small party which has just returned there from a visit to Liege describes the destruction wrought by the war as appalling.

"All along the road to Vise," said one of the party, "there was nothing to be seen but walls, blackened by smoke, the remains of factories burned by fire, mounds of earth freshly dug—the graves of the first Germans to fall.

"And then comes Vise. What a painful sight for those who knew the proud city, so typical of Walloon gaiety, and now nothing but a mass of ruins, while many of the inhabitants lie all over the place, their chests riddled with bullets. I was told here that the natives were put to work building roads for the invaders from Vise to Aix La Chapelle.

"On the way to Argentaui we met a procession of able bodied men, marching four abreast and commanded by a non commissioned officer, all carrying implements for road or trench building. Harvestal, usually filled with the busy hum of activity in factories, coal mines and workshops, we found plunged into deadly silence.

"At last we entered Liege. The inhabitants stood at the thresholds of their homes, silent and anxious, but afraid to speak. The streets in the middle of the town wore a deplorable aspect. Many houses had been abandoned.

"Their doors and windows were shattered and their contents had been removed. Nobody but soldiers were to be seen. The Place De Universite, the Rue Des Pittours, and the Quai Des Pechures had been burned.

Piano Contest

Please remember—this is not going to be one of those low grade Pianos which you wouldnt buy at any price (if you were well advised). It is an instrument of the highest quality that is constructed, and is costing us a great deal more than some other pianos which we could have put into this competition just as well as not. You might be surprised to know that we could put in just about two of "the other kind" for what this is costing us. We decided to do this because we are musicians ourselves and want our readers to compare for just such an instrument as we would take pride in owning and using ourselves. We think that the public which we reach will appreciate this fact. Everything else being equal, you would prefer the high grade piano wouldnt you?

You will not have to get your piano out of a catalogue, or from a high flown description, or merely from a newspaper cut, but you can see a piano of exactly the kind we are giving, at the "Dispatch Office, Woodstock. You can examine it and try it. Only this—your piano will be brand new, direct from the Amherst factory, and you will have three different styles of cases to choose from. Inside they are all alike. We want to make this competition something worth working for. Something a little bit different from what a newspaper generally offers.

The "Amherst" is comparatively a new piano, but one of the highest grade pianos made in the Dominion of Canada. The judges at the Toronto Exposition awarded it the best. That is speaking pretty well of a piano made in the Maritime Provinces, isnt it? What more could be said?

There is another thing about this "Amherst Piano." It is the only piano made into which you can put a "player afterwards if you want to. "Players are very costly when you have to buy them with a piano. Wouldnt you prefer a piano into which you could put a player attachment later on, at no great deal of money. The Amherst Player, or "Cremonatone is a beautiful simple instrument, with several improvements over any other, under more perfect control, easier to operate. The player mechanism is built under exclusive patents, is very compact, and that is why it does not require a special piano to hold it, and it can be placed in the ordinary pianos which the "Amherst" factory turns out. Every Amherst Piano is guaranteed for Twenty years, and is the only piano that carries a guarantee for that length of time.
