## Victor Emmanuel of Italy

King Victor of Italy, is a family man, and loves his children dearly. It is said of him that at one time he disguised himself and went to a distant part of his kingdom to look up the reputation of the family of a girl whom he thought would make a good nurse for the three girls and one boy of the Savoy family.

The King's hobby is collecting coins, and he has written several books upon the subject, which, according to the greatest collectors in the world are masterpieces. He has always been a hard worker and is highly regarded by his subjects.
