standing his repeated requests for an improvement. He watched them for 20 days in one month and he had not the time to follow it up. He wanted a man hired to do so, which would cost about \$20 a month, then he would be in a position to deduct for the lights not burning. There were about 34 old arc lights on the circuit, and the balance were newer and smaller lights which were giving much satisfaction.

Coun Smith—The lights are better now than formerly, but still an improvement could be made.

Mayor Sutton said that nine years ago he had moved a motion as suggested by Coun Leighton, but it did not improve the lights and he was called a knocker of the Power Co.

Coun Noddin said it were better to let the matter drift as the contract with the Power Co would expire in a few months and some changes could then be made.

Moved by Couns Leighton and Smith that the Electric Light committee have authority to hire a man to see that the lights are burning, he to be engaged for such times as seemed necessary.

Motion lost. Yeas, Couns Leighton and Smith. Nays, Couns Noddin, Young and Flemming.

Moved by Couns Young and Flemming that the clerk write to the president of the Power Co that the Council was not satisfied with the lights and regretted that an answer had not been received from the company. Carried.

In answer to Coun Leighton, the clerk said that he had written, some months ago, to the Maine & New Brunswick Power Co and the letter had not been acknowledged.

In discussing the bill of P Gorey for drilling wells on Connell Park, Coun Noddin said that the charges were too high. The town was paying \$2 a foot, while similar work had been done for farmers at \$1.50 a foot. We granted the committee \$500 and if they were business men they would have expended that amount before coming to the Council for more money.

Coun Leighton—Engineer Barbour's report called for 600 feet of wells; we thought that about 200 feet would do; we went some 30 feet below the barn on Connell Park, and went down until we struck hard pan; next about 100 feet below that spot, we drilled 47 feet until we struck fine sand; next, some 150 feet below that spot near the end of the island, we struck blue clay; coming toward the head of the island, we drilled until we struck rock at 62 feet. In any of these wells there are over 40 feet of water. We are trying to get pure water, and the two upper wells should prove satisfactory; the third well was not so good; we made a contract with Mr Gorey at the best terms we could.

Coun Young said he had been and was now opposed to the expenditure of that money, because we were not in a position to follow it up, but according to the contract we must pay Mr Gorey. At the meeting in which the committee was instructed to go ahead, an unfair advantage was taken of his absence; the meeting was supposed to be a special meeting to consider other business, and as the Council had been equally divided, forcing the vote at that meeting in his absence gave a majority to those in favor of drilling the wells. He could not endorse anything that was done in regard to boring wells in Connell Park.

Mayor Sutton—To justify myself as regards the special meeting referred to, I might say that before the meeting I heard it was the intention to put the motion referred to through in the absence of Coun Young. I looked up the by-laws and I found that I could veto the motion under the circumstances. However, the doctors appeared before the board at the meeting previously, strongly advocating a search for pure water, and I felt that if I held up the search and later on an epidemic of typhoid broke out I might possibly be blamed for the part I took in the matter. I was opposed to the expenditure of the money because we will not be in a position to put in a new plant even if we had to do so, for some years.

Moved by Couns Noddin and Smith that the bill of P Gorey be referred to the finance committee, who will ask an explanation of the charges therein contained. Lost.

Coun Leighton thought it was not right to keep Mr Gorey out of his money for another month, and he suggested that if the bill should prove satisfactory to the chairman of the finance committee, the check should issue at once.

Voted that the salaries falling due be ordered paid.

Voted that \$500 be given to the Public Library.

Voted that \$3000 be given to the

board of school trustees.

Voted that \$10 be refunded Miss Hume, who paid on a \$1500 valuation instead of on \$1000 valuation.

Voted that the communication from H T Stevens, chairman of the grand jury of the recently held County Court in reference to a concrete sidewalk around the Court House, be referred to the street committee.

Voted that the town clerk notify Mrs Mary Jamieson that the Town Council will vacate her land, now used by the rock crusher, on Dec 1st.

Voted that Coun Fewer, whose seat would be declared vacant according to the by-laws at next meeting, be given a two months leave of absence, as at present he is detained in Bathurst on business.

Adjourned.

## "Tipperary" Now A Hymn.

More than 100 Baptist ministers adapted the tune of "Tipperary" to the words of a hymn of their own composition at the weekly conference in Philadelphia as a means of attracting public attention to things religious.

"We should utilize popular ditties which everybody whistles and sings in order to focus attention upon the church," declared the Rev. Clarence Woolston, the author.

Here's the way the chorus goes; It's a good thing to be a Christian; It's the best thing I know; It's a good thing to be a Christian; Wherever you may go. Godby, sin and Satan; farewell all that's bad; It's a good thing to be a Christian, For it makes my heart glad. The tune "caught on" at once in the meeting.
