Barred Plymouth Rocks, S W Burtt, 1st.  
Dressed poultry, Isaac Gallagher, 3rd.  
Eggs, G F Briggs, 1st; Mrs Belle Nicholson, 2nd.

## Looking Old Too Soon

The Condition of Too Many  
Women and Too Many  
Girls

Too many women and too many girls look old long before they should. Their faces become pale and drawn; wrinkles appear and their eyes lack brightness. Can this be wondered at when they so frequently have headaches, backaches and a general feeling of wretchedness and weakness? In most cases it is the blood that is to blame. From one cause or another the blood has become thin and watery and it is a fact that anaemia (bloodlessness) more than any other cause, gives women this prematurely aged appearance. It is important that the blood supply of girls and women be regularly replenished—important not only on the score of looks, but to restore robust health, which is of greater value. Dr. Williams' Pink Pills actually make new blood and restore the system shattered by overwork or worry. These pills give a glow of health to pale faces and make tired, weary women and girls feel bright and happy. With Dr. Williams' Pink Pills at hand there is no need for any woman or any girl to look ill or feel ill. Mrs. J. McDonald, jr., Hay, Ont., says: "I honestly believe Dr. Williams' Pink Pills saved my life. Some years ago I had anaemia, and as I did not realize the seriousness of the trouble I soon became a complete wreck. I got so weak I could hardly walk. I neither ate nor slept well, and could not go upstairs without stopping to rest. At times I had an almost unbearable pain in my back and would have to remain in bed. I suffered almost constantly from a dull headache, and when sweeping if I would stoop to pick up anything I would get so dizzy that I would have to catch hold of something to keep from falling. At times my heart would beat so fast that I would have a smothering sensation. My eyes were sunken and my hands and limbs would be swollen in the mornings. I tried several kinds of medicine without benefit and my friends thought I would not recover. Then I began taking Dr. Williams' Pink Pills, and before long could see and feel that they were helping me. I gladly continued the use of the pills until I was completely cured and I cannot say enough in their praise, and I strongly recommend them to all run-down girls and women."

You can get Dr. Williams' Pink Pills from any dealer in medicines or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Golden Wyandottes.  
Cock, Dr F M Brown, 1st.  
Hen, " " 1st and 2nd.

GinPills  
FOR THE KIDNEYS

## What They Have Done

"I suffered a great many years with kidney trouble; tried several remedies, and also doctors' medicine, with no result. Two years ago I read in a newspaper of 'GIN PILLS FOR THE KIDNEYS,' and sent for two boxes. They did me more good than all the medicine I had ever taken. After I used the first two I sent for two more boxes, and I am satisfied, and also know, that Gin Pills are the best kidney remedy made."

I used to have to rise three or four times in the night; now I can sleep and don't have to get up at all, thanks to GIN PILLS. Am seventy-two years old.

British Vs. German  
Methods

LONDON, Oct. 21.—The circumstances connected with the execution by the German authorities at Brussels of Miss Edith Cavell, a British nurse, occupy constantly increasing attention in London, and the forthcoming publication of the report of Brann Whitlock, American minister to Belgium, on his efforts in her behalf, is awaited with keenest interest. It will be published in tomorrow's papers.

English newspapers draw a parallel between the case of Miss Cavell in Belgium and that of Mrs. Louise Herbert, who was sentenced to six months' imprisonment, as a spy, in England. Mrs. Herbert's appeal was heard at Durham yesterday. She is a German, wife of an English curate at Darlington. She admitted that she sought information regarding munitions and intended to send this information to Germany.

The judge asked her yesterday: "Did you intend to send the information to Germany, if you got the chance?"

"Yes, I did," she replied.  
Mrs. Herbert also admitted she had corresponded with Germany, through friends in Switzerland. The judge, as astonished by the frank answers, remarked:

"This woman has a conscience she wishes to answer truthfully and deserves credit for that. At the same time, she is dangerous." He affirmed the sentence of six months' imprisonment.

Japanese To Get Sakhalin  
Island

London, Oct. 22.—The Cologne Gazette publishes a report, which it says passed the Russian censor, that Japan has undertaken to supply Russia with munitions in return for a complete cession of the Island of Sakhalin.

[The Island of Sakhalin, 570 miles long, and from 17 to 90 miles wide, lies between the east coast of Asia and the northern islands of the Japanese Archipelago. Russia owns the northern, and Japan the southern end of the island.]

New Offers To Greek Govern-  
ment

Paris, Oct. 21.—A prolonged meeting of the Greek Cabinet late on Tuesday, after which no communication was issued to the press, is being generally commented upon by the Athens newspapers. It was reported on Wednesday evening that new propositions have been made by the quadruple entente to induce Greece to depart from her neutrality. The newspaper Ethnos says important concessions have been offered by the entente powers, together with powerful military support, if Greece will join the Allies.

Another paper says: "The Entente Allies' offers would extend Greece's frontiers nearly to Constantinople, and that the offers also include the island of Cyprus and territory in Asia Minor. It is the general opinion that the moment seems to have arrived for Greece to take the final decision regarding her future action. Premier Zaimis has had several interviews with the entente ministers at Athens in the last two days."

Food Crisis in Germany Ser-  
ious.

London, Oct. 23.—The Amsterdam correspondent of the Reuter's Telegram Company says that according to advices from Berlin, the Federal council has for bidden the use on two days of each week of dishes consisting of meat.

Berlin, Oct. 23.—The German federal government to-day decided to assume control of the price and supply of vict-

uals throughout Germany. Up to the present time the state provincial authorities and been considered competent to handle the food situation.

Toronto, Ont., Oct. 23.—The Mail and Empire publishes the following under New York date:

In spite of the official assurance of the German government that it is able to cope with all problems growing out of the shortage of food supplies, neutral travellers returning from Germany declare that the food crisis in Germany is most serious, and that while the Kaiser's armies are fighting the leading powers of Europe the Germans at home are experiencing very bitter suffering as a result of the ever increasing price of food products. The shortage in necessary articles of diet is acutely felt according to these travellers, throughout the empire, and riots of grave proportions occurring in the leading cities.

## Two Hundred And Fifty Stories

And every story a good one. They are entertaining, but that is not all you can say about them. You know there is hardly a periodical published that is not full of time-eating stories, but not a single story in the Youth's Companion is a time waster. Take the stories of C. A. Stephens. It would be hard to pick out one from which you cannot learn something useful and yet entertaining.

Some of The Companion stories refresh your knowledge of geography; some tell you the mysteries of chemistry; some reveal the secrets of forestry and of general farming. They cover a wide range. They are chosen with an eye to the possible likings of every member of a Companion family—stories of vigorous action and stirring adventure for boys, stories of college life and domestic vicissitudes for girls, stories that range all the way from sheer drollery to deep seriousness for men and women. There are no stories quite like those in The Companion.

If you are not familiar with The Companion as it is to-day, let us send you sample copies and the Forecast for 1916.

New subscribers who send \$2.25 for 1916 will receive free a copy of The Companion Home Come Calendar for 1916, in addition to all the remaining 1915 issues from the time the subscription is received.

Germans Have Lost  
The War

London, Oct. 20.—A despatch to the Daily Telegraph from Petrograd quotes Alexei Khvos-toff, the minister, of the interior, as saying in reply to a question concerning the proclamation of martial law in Moscow:

"The Germans have got into a condition of utter exhaustion. They have really lost the war, and now will strive to put a drag on our activity and our production of munitions, by stirring up strikes and causing confusion and disorganization in our means of transport."

London, Oct. 20.—It is reported from Frankfort the Central Powers have decided to undertake still another campaign this time against Montenegro. According to this report, forwarded from Amsterdam by a correspondent of the Central News, 20,000 Austrian and German infantrymen, with artillery, have arrived from Galicia, at Sarazavo, in Bosnia, about 60 miles north of the Montenegrin border. These troops, the correspondent says, will soon be dispatched against the Montenegrins, with whom there has been only desultory fighting for months.

The Allied Army Growing  
Larger

Athens, Greece, Oct. 19.—British and French troops continue to disembark, and the number is now so large that it is impossible to forward all promptly by rail to Serbia. Some troops are making forced marches across Greek territory in the direction of Serbia.
