Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

Dr. W. D. Rankin, in addressing the the graduating class, said it was a genuine pleasure to meet such a large audience, notwithstanding the many counter attractions. Years ago the graduating exercises were but slimly attended. He congratulated the class and reminded them that they were starting in the race of life and they would not find it an easy race throughout; but would find it rather a hurdle race; the teaching staff this year was as efficient as could be found in any city or town in the province. The principal, Fred C. Squires, had given good service both at Florenceville and Woodstock; he had given us the very best that was in him; he was a true teacher, and successful teachers were not made so but born; he wished Mr. Squires well in future life and profession. He reminded the pupils that the acquiring of facts was knowledge and education, and now they must play up and play the game; now that their training was over, go and succeed.
