FOR SCHOOL LUNCHES

Few things are more enjoyed by the traveler who must provide her own lunch, or the school children, than two or three medium-sized, perfectly ripe tomatoes, each wrapped separately in waxed paper and accompanied by a tiny box of mixed salt and pepper; and sugar if the mixture is liked. The stem end should be cut free with a sharp-pointed knife but left in place and the wax paper wrapper twisted tightly to prevent any juice escaping. This enables you to remove the stem end and season the pulp, eating the tomato as you would an apple or hard-boiled egg; which by the way, goes well with the tomatoes au naturel.

A TOMATO SALAD.

A salad of tomatoes filled with chopped olives and nuts is appetizing on a hot day. The tomatoes should be skinned by placing them in a wire basket and sinking them quickly in a pan of very hot water. Do not let them remain in the hot water long enough to heat through, and plunge into cold water immediately from the hot. The skin will then rub off easily. Then place the tomatoes on the ice and let them stand until serving time.

When ready to serve scoop out the pulp and seeds and fill the centres with chopped olives and English walnuts and place in a bed of lettuce leaves. Serve with mayonnaise and little toasted crackers.

ITALIAN TOMATO.

Take a pint of tomatoes, peeled and cut up; third of a package of macaroni, two tablespoonfuls grated cheese, a little milk, three slices of bacon, a pinch of cinnamon, salt and pepper. Cook the macaroni tender in salted water and drain well. Nearly cover with milk, then add the cheese and cook slowly until the cheese is dissolved. Fry the bacon, pouring off all the fat but one large tablespoonful. Add the tomatoes to the pan and cook them soft. Season to taste with salt and pepper and add the dash of cinnamon. Place all materials together, pouring the tomatoes over the macaroni. Bake until brown, or serve without baking it.

SAUTED TOMATOES,
FRENCH METHOD

Put two level tablespoonfuls butter in an agate saucepan and melt it; stir in two level tablespoonfuls flour and cook and stir until brown. Then put in a layer of sliced tomatoes seasoned with salt and pepper and dipped in beaten egg and fine dry bread crumbs.

CREAM BAKED TOMATOES

Select half dozen firm, ripe tomatoes, cut them in half without peeling them, season well with salt and pepper, sprinkle lightly with sugar and roll in flour until well covered. Brown

both sides in butter, remove the browned slices to a shallow baking dish and with the browned butter in the pan and equal measure of flour, milk and seasoning of salt and pepper make enough rich cream sauce to almost cover the slices of tomato. Pour over them and sprinkle a little grated Parmesan cheese over the top place in the oven just long enough to melt the cheese and serve at once.

Distribution of Seed Grain
And PotatoesFrom The
Dominion Experimental Farms

1916 — 1917

By instructions of the Hon. Minister of Agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat (about 5 lbs.), white oats (about 4 lbs.), barley (about 5 lbs.), and field peas (about 5 lbs.). These will be sent out from Ottawa. A distribution of potatoes in samples of about 3 lbs. will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free by mail.

Only one sample of grain and one of potatoes can be sent to each farm. As the supply of seed is limited, farmers are advised to apply early. Requests received after the end of December will probably be too late.

Anyone desiring a sample should write (post free) to the Dominion Cerealists' Experimental Farm, Ottawa, for an application blank.

J. H. GRIDALE

Director, Dominion Experimental Farms

Smashing German
Lines in France

London, Sept. 5.—Gradually the lines of the Entente Allies are drawing more closely about Comblès and toward Peronne, and farther and farther their wedges are being driven into the German lines both north and south of the River Somme. On a front of about 26 miles the French and British troops, supported powerfully by their enormous artillery arm, are steadily hammering the German positions and sustaining unflinchingly heavy counter-attacks. North of the Somme, to the east and southeast of Forest, the French have driven forward their lines, capturing the out-skirts of the Anderlu Wood, Hospital Farm and the Rainnette Wood, Hospital of Marrières Wood and a position on the road leading from Bouchavesnes to Clery. Near Ginchy, to the north of Guillemont, the British have made further progress, winning all the territory between the Falfemont Farm and Leuze Wood, and between that wood and the outskirts of the town of Ginchy, which they captured and have held since the fighting of Sunday.

South of the Somme, the French have taken the town of Chilly situated one mile west of the railroad leading from Chaumes to Roye, a line of trenches east of Soyecourt and numerous isolated positions between Vermandovillers and Chilly. Since Sunday the French alone have taken on the Somme front 6,550 prisoners and 36 guns, 28 of them being of heavy calibre.

The British gain since Sunday is more than a mile in depth. The Irish troops of the new army, en-

listed through the efforts of John Redmond and other Nationalist leaders, distinguished themselves by taking Guillemont. They rounded up numerous prisoners in dugouts, and swept forward toward their objective with characteristic dash. As a result of two days' work the British, in case they decide to make no further advance this year, command all the ridge of battle front from Thiepval south except around Ginchy. This means as one British officer said, that "the Germans will have to dance to our tune through the winter."

On the Eastern front violent fighting continues from the Pripiet Marsh region in Volhynia, through Galicia, and up in the Carpathian passes, with the Russians reporting successes near Vladimir-Volynski and a continuance of the advance toward the plains of Hungary through the Carpathians.

Berlin reports that in Galicia, in the region of Brzesab, and near Fundul Moldovi, in the Carpathian region, heavy Russian attacks were repulsed, in the latter district with heavy casualties.

In Eastern Roumania the Germans and Bulgarians have captured the fortified bridgehead of Tutrakan, and the Bulgarians the town of Dobro.

Near Ognott in Turkish Armenia, violent fighting between Turks and Russians is taking place. Both Petrograd and Constantinople report successes here for their respective armies.

The Italians have taken several additional positions from the Austrians in the Upper Bovi region of the Austro-Italian theatre, and repulsed violent Austrian counter-attacks. Aside from artillery activity there has been no fighting in the Macedonia theatre.

Greece has not yet officially announced her intentions with regard to her future stand in the war, but unofficial reports say that five classes of Greek reservists have been called to the colors. The advice say also that the Greek authorities have taken from the British and French secret police the task of arresting Austro-German agents who will be apprehended by the Greeks and deported.
