**ICELESS REFRIGERATOR**

Chest Has Filling of Salt Between Its Two Shelves

A food preserving chest that has been invented. The whole secret lies in a filling of salt which keeps the temperature of the interior regular. This chest comprises an outer shell of wood and an inner shell of some

KEEPS TEMPERATURE LOW.

Impervious mesh material and spaced apart from the outer shell, providing plenty of room for the salt filling. The surface of the inner shell is corrugated so that its area is increased and the action of the salt filling facilitated. Wood kept in such a chest is not affected by the warm temperature of the room in which the chest is. That salt is a great agent for the protection of food bodies from the heat is best exemplified to the general mind by the example of the manner in which the ice surrounding ice cream is salted.

**Hay Fever Serum**

A serum which has proved beneficial in several cases of hay fever and asthma is prepared by a French physician by injecting sterilized water containing pollen from plants that cause the disease into the blood of the sick.

**SAVING AUTO TIRES**

Most people, ignoring the simplest precautions in driving, more than double the wear on their tires, and so are out repeatedly the cost of a new set, writes a tire maker. Some of the driving faults and the troubles they cause he lists thus:

Jamming brakes hard down or starting suddenly puts unnecessary strains on the tire fabric.

Wheels out of line continually yank on tire fabric.

Pulling hard instead of coasting over crushed stone drags cuts into a tire.

Spinning or skidding burn rubber up and scrape it off.

Oil and grease left on tires will rot them.

Avoidance of these carelessness will save forty per cent. of the normal cost of tires, concludes the tire man.

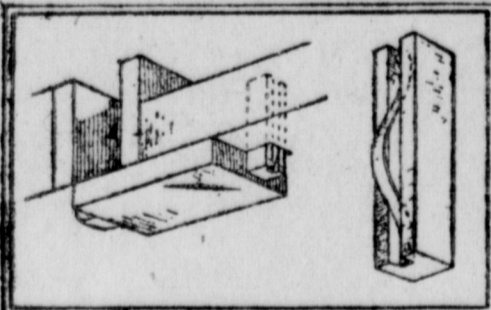

**GOOD HORSE POINTERS**

Sudden Changes in Feed—The In-foal Mare

A horse which has been idle during the winter months cannot be expected to suddenly start hard spring work without preparation. Exercise the work horses in the barnyard and gradually change to light and then heavy work. The over-fat, soft horse requires the most attention and loses most weight when put on heavy work. Sudden changes in feed cause stomach and other troubles, often the loss of the horse; feed in proportion to work done. You will find the following rations good: For light work—Equal parts oats and bran, 1/2 of a pound per hundred pounds live weight, with good clean hay, 1 pound per hundred pounds live weight. For heavy work—Gradually change the above ration to one of oats, 5 parts, and bran, 1 part, fed in the proportion of 1 to 1 1/4 pounds per hundred pounds live weight and hay as above.

Be sure that in-foal mare is not too fat and is getting regular exercise or, better, light work. Overfeeding of brood mares just before and after foaling is the cause of much of the digestive disorders and mortality in foals. Take special precautions against navel ill in foals, by thoroughly disinfecting the foaling box and also about the navel of the foal. After foaling, give the mare a warm drink only for the first few hours. Then start a light daily grain ration, gradually increasing until she is on full feed, in about a week. It is as important to feed for milk in the mare as in the dairy cow; a grain mixture of oats, 6 parts; bran, 3 parts; and oil cake meal, 1 part, will give good results.

Bench Stop

Serviceable bench stops may be made by grooving pieces of maple or other closegrained, hardwood and fitting strips of clock spring into them as shown in the sketch. The pieces must fit the holes in the bench top snugly, and the spring will then prevent them from slipping out. The end of the spring fastened to the top should be annealed so that a hole for the screw may be drilled into it readily.—Popular Mechanics.

**THOSE PRUNING SHEARS**

Very Useful on Smaller Limbs in Orchards

Double cutter shears used in orchard pruning give good satisfaction when used upon limbs smaller than three inches in diameter. When care is taken to cut through the bark all around the branches to be removed the wounds heal over much better than when the growing layer of bark and young wood is crushed by being squeezed from opposite sides without being cut around first. One caution is necessary in using this implement: When making cuts of forking limbs, it is necessary to avoid bearing down because the main branch to be left is likely to split and a heavy load of fruit the following summer is almost sure to break the limb at this point. Effort should always be made to lift when making such cuts. It is a good plan always to cut off the branch a foot or so beyond the point where the crotch is, and then to remove the stub with a second cut.

**How to Establish a Lawn**

It is important in establishing a lawn to choose a site where the soil is deep, fertile, and in good physical condition. If these conditions are not found naturally they should be obtained artificially by drainage cultivation and liberal manuring.

The earlier the weeds are killed less will be the work required.

**LIGHT IN THE BARN**

Dingy Stables Breed Disease in Many Canadian Farms

One of the commonest mistakes made in planning Canadian farm buildings is the small number of windows in the stables. In the placing of the buildings, in their relation to one another or to other surroundings, care may have been taken, but in so many instances there has been an utter disregard of the proper lighting of the stables. Many fine barns and stables, well painted and of excellent outward appearance, are miserably lighted and are dark and gloomy within.

Prevention is better than cure, and light is the cheapest preventive measure known against disease. Dark and dingy stables are much more favorable for the development and spread of disease than a stable flooded with light. In working it is both difficult and unpleasant to grope one's way around in a stable which is dark when the sun is shining. The work can be done better, in less time and more cheerfully in a well-lighted stable than in one where at the brightest time of the day a dismal twilight reigns. For the sake of comfort and health, which means, incidentally, greater profits, let us have more light in our farm buildings.

**Gin Pills FOR THE KIDNEYS Why Demanded**

"Gin Pills did for my husband and me what no other remedy could. I have advised two other parties to use them, one of them being my mother who has been a great sufferer for upwards of 20 years, and one box cured her, so as to enable her to sleep on her left side, something she could not do for many a year. The doctors told her they could not cure her, but could relieve her by an operation for a floating kidney, but on account of her age they did not think it advisable for her to go. Upon my advice she tried Gin Pills which cured her and for which she is ever ready to speak in terms of praise."

MRS. THOMAS H. PLESTID  
Richmond, P. O. Box 115  
P. E. Island

Your druggist sells GIN PILLS.—50c. the box.

National Drug & Chemical Co. of Canada Limited, Toronto.

Mrs. Julius T. Garden still remains very ill at the home of her daughter in Nelson, N. B. Her son, Harold, of Vancouver is with her.

Miss Elanid Carleton, daughter of Judge Carleton, was the winner of the gold medal, awarded for Christian Doctrine at St. Mary's Academy, Houlton.

**Jenson-London**

At the home of the officiating clergyman Rev. P. J. Quigg. Peel on June 14th Miss Ina London of Grafton was united in marriage to Sazrael Jenson of Peel. The happy couple left on the 5 o'clock train for their future home in Grafton. We all join in wishing them a happy and prosperous journey through life.

(Established 1837)

TORONTO—ONTARIO

**Dr. Manzer Will Resume Profession**

Having been requested by so many of my old patients to do some Dental Work for them I have decided for a short time, or until further notice, to open an office at my Residence, Chapel Street, opposite the Armoury. It was also my aim during my seventeen years' practice to give my patients the best of materials and the most modern appliances to operate with. I have equipped a new office and am now ready to do all kinds of Crown and Bridge Work, make Artificial Teeth, put in Fillings of all kinds or do any kind of Dental Work.

I am still using my old prescription of the painless extracting of teeth and also administer gas and ether.

It is a growing custom now for Dental Surgeons to have their office at their residence. This is a great advantage in many ways to patients as they are always able to find the doctor at any time of day or night. Another is being on the ground floor as many patients object to climbing a flight of stairs and still another—they have all the comforts of a modern home while waiting their turn for an operation.

I will as formerly give special attention to all diseases of the mouth, nose and throat. The specialist today is the man to consult as he has the experience in seeing and operating upon so many special cases.

Make appointments by phone 10-11 by mail or at my office.

I thank you for past favors and hope to see all my old patients back and many new ones.

DR. MANZER, OFFICE, CHAPEL STREET, OPPOSITE THE ARMOURY

(4ins3).

**Swift Riordan**

Minto, N. B., June 21—A quiet wedding took place at Minto on Wednesday morning at 9 o'clock, when Miss Mildred L. Riordan, daughter of Mr. and Mrs. Daniel Riordan of Woodstock, was united in marriage to Mr. John F. Swift, son of Mrs. Michael Swift of Minto. Rev. Father Conway performed the ceremony. The bride was attired in a dress of white marquisette with white hat to match and carried a white prayer book. The young couple were attended by Mr. and Mrs. Thomas Swift. The groom's present to the bride was a substantial cheque, to the bridesmaid a necklace, and to the groomsmen gold cuff links.

The happy couple left on the 1.50 train for a honeymoon in Woodstock, N. P. On their return they will reside in Fredericton.

**Perley-Gardiner**

On Wednesday, June 21st, at the bride's home, Charleston Mr. George Perley of Florenceville was united in marriage to Miss Vida A. Gardiner, the Rev. E. Penna of Centreville tying the knot.

The bride was dressed in whitesilk, with chiffon overdress and orange blossoms, and carried a bouquet of white geraniums and white ferns.

Miss Clara Gardiner the bridesmaid wore a pink silk with chiffon overdress. The groom was supported by his brother. The bride's present from the groom was a gold bracelet, the bridesmaid's present from the groom, a cameo brooch. A number of relatives witnessed the ceremony, and then did ample justice to a sumptuous dinner. The young couple received many useful and handsome presents, and left on their wedding trip followed by the best wishes of all their friends. Their future residence will be Florenceville.

**Melvin Hamilton**

A very pretty wedding took place at the home of the officiating clergyman Rev. P. J. Quigg, on Wednesday afternoon June 21st when Pauline B. Hamilton of Rosedale became the wife of Le Roy H. Melvin of Lower Wakefield; only a few of the immediate relatives were present. The bride was becomingly attired in a travelling suit of silver gray broad cloth with white silk waist and white hat to match.

The happy couple left on the morning train for a short trip to St. John: on their return a reception will be held at the home of the bride's parents Mr. and Mrs. Wm. Hamilton, Rosedale. We all join in wishing them many years of happiness.

**IN WAR or PEACE**

it is the TRAINED man who leads. This school makes a specialty of training young men and women to fill responsible, good paying positions. Prepare yourself for one of these by taking a course at the

**FREDERICTON BUSINESS COLLEGE**

FREDERICTON, N. B.  
W. J. OSBORNE,  
Principal.  
Booklet describing our courses of study sent on application

Word has been received of the death in Boston, of Mr. Hugh O'Brien, formerly of Fredericton. His wife was formerly Miss Margaret Vanderbeck, of Woodstock.

Herbert A. Hilyard of St. John has bought the M. H. DeWitt farm at Upper Woodstock.

Dr. Prescott, Mrs. Prescott and Misses Pauline and Louise Prescott arrived home from Windsor N. S. on Friday.

At the high school graduating class for 1916, the W. M. Connell medal for Essay, the subject: "Briton vs Teuton," has been awarded to Leonard Shipp. The second and third places were taken by Hubert Seely and Susie Sharpe. The examiners were Messrs. Douglas Carey and T. C. L. Ketchum.

Mr. and Mrs. J. A. Hayden and Mr. and Mrs. J. C. Hartley are spending the week at Skiff Lake.

Mrs. Chalmers Milbury, of Wicklow, was in town this week to see her son Rupert, with the 65th Battery, who is a patient in Fisher Hospital. He has been operated upon for appendicitis.

Tea was served at the Golf Club House on Saturday afternoon by Mrs. A. S. Hazel, Mrs. T. C. L. Ketchum, Mrs. W. B. Belyea, Mrs. C. J. Jones. Among the guests were Capt. Evans, Lieut. Armstrong and Rand, Private Turnbull, Lieut. Brown and Mrs. Brown and Mrs. Hume of Florenceville.

G. H. H. Nase of the Canadian Express Co. was here last week transferring the agency of the Company from F. L. Moores to B. B. Dykeman.

**Funeral of Mrs. C. T. Phillips**

The funeral of the late Mrs. C. T. Phillips took place on Monday afternoon June 22, from the United Baptist church at 1.30 o'clock. The service was conducted by the Rev. L. A. Fenwick, of Jacksonville, assisted by the Rev. F. L. Orchard. The choir sang appropriate music. The pall bearers were her son in law George Margison, of Presque Isle, Charles Margison of Jacksonville and two nephews, Spurgeon Lewin, of Houlton, Me., and William Lewin, of Benton. Interment was at Upper Woodstock beside her husband, the late Rev. Dr. Phillips.

Lieut. E. Carleton Brown, officer in charge of Transport and Supplies, was in Hartland Monday for the purpose of closing up the quarters which have been vacated by the Hartland detachment of the 140th Batt. He also got a hurried call to St. John to adjust the barracks stores of the 104th and 140th Battalions, previous to their departure for Halifax and Valcartier. He was in Hartland again on Thursday. The armoury here has been handed back to Lieut. Brown now that the troops have vacated Woodstock, and will remain unoccupied throughout the summer.

**Presentation**

At the close of the Methodist Sunday school on Sunday last, A. W. Hay in behalf of the members of the school, presented Mr. J. Douglas Carey with a handsome gold headed cane, suitably inscribed, to which Mr. Carey made a feeling reply. Since 1901 Mr. Carey has been a valuable member of the school and teacher of the Bible class. He will leave on Wednesday for Bathurst, where he will act as assistant to Rev. F. A. Wightman. Mr. Carey leaves here with the best wishes of a large number of friends.

**NOTICE**

All persons holding books belonging to the L. P. FISHER PUBLIC LIBRARY are requested to return the same on the 17th, 19th and 20th days of June, instant. Those not returning books will be responsible for the price of the same.

The Library will then be closed for the purpose of revising and examining books until the 28th day of June, instant, on which and the two following days it will be open; and each patron may then take out two books of fiction and two books of non-fiction for the month of July, during which month the Library will be closed.

June 1st 1916

K. L. Brown Librarian.
